The invention of mass marketing led to cigarettes being emblazoned in advertising and film, deeply tied to modern notions of

glamour and sex appeal. It is hard to find a photo of Humphrey Bogart or Lauren Bacall without a cigarette. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. And no product has received such sustained scientific scrutiny. The development of new medical knowledge demonstrating the dire harms of smoking ultimately shaped the evolution of evidence-based medicine. In response, the tobacco industry engineered a campaign of

scientific disinformation seeking to delay, disrupt, and suppress these studies. Using a massive archive of previously secret documents, historian Allan Brandt shows how the industry pioneered these campaigns, particularly using special interest lobbying and largesse to elude regulation. But even as the cultural dominance of the cigarette has waned and consumption has fallen dramatically in the U.S., Big Tobacco remains securely positioned to expand into new global markets. The

implications for the future are vast: 100 million people died of smoking-related diseases in the 20th century; in the next 100 years, we expect 1 billion deaths worldwide.

The Cigarette Century Penguin Even the most avid true crime fans will be shocked by the story of Marcus Wesson of Fresno, California, the worst mass-murderer in the city ' s history. But the horrors he inflicted upon his family are nothing compared to the strength of the survivors, and one brave reporter who risked everything to help them. Originally published as Where Hope Begins. For decades, the family of Marcus Wesson—his

wife, Elizabeth, and seventeen children—lived sequestered in a social and emotional prison, enduring his tyrannical reign of physical, sexual, and mental abuse. Then came the terrible day when a family confrontation erupted into a harrowing standoff: with police and SWAT teams descending on a small blue house in central Fresno, Marcus Wesson murdered nine of his children. Television reporter Alysia Sofios got the first tip about Wesson ' s arrest and was witness to every twist and turn of the horrific case through to Wesson ' s trial. Risking her job and her life to offer friendship and support to the traumatized family members—scarred by memories

and guilt, reviled for having the Wesson name—Sofios chronicles the case that shocked the nation, and gives voice to their astounding stories of survival. This is a stunning account of healing from one man ' s unimaginable acts, and how each, in time, learned to break free from a deadly devotion.

family and the perfect romance
with Alex Cooper, the hottest cop
in the state. Not necessarily in

that order, of course. Is that so much to ask? The trouble is, between Alex's job and planning weddings, it's getting harder and harder for Quincy and Alex to find any time to themselves. Every time the flames of passion ignite between them, someone or something shows up to fizzle the fire, including her meddling mother, her formerly absent father and even Elma, the handsiest waitress in the West. Wedded bliss is contagious in small town Hillside. Should be great news for Quincy, except that one groom is missing and another is the prime suspect. Hard for a florist to make a living that way, and even harder for her to stay out of the investigation, especially when the

suspect is her sidekick, K.C.'s fiancé. Just when she thinks nothing else could go wrong, a ghost from Alex's past comes back to haunt them both, which could keep them apart forever, if someone doesn't kill Quincy first. She's stumbled into the clues to solve the case of the missing groom and finds a corpse as well, proving that planning a wedding can literally be murder. *Dangerous Memories Penguin* The first in a new mystery series that has it all — a tragic puzzle, fabulous French food, and a peek into the fascinating world of wild orchids. In 1984, a young Canadian woman vanished while on a hiking holiday in the Dordogne region of France. Was

Bedie Dunn the victim of an accident? Or could she have been murdered? Haunted for years by the disappearance of her twin sister, Mara Dunn has moved to France to try to answer these questions. Mara's amateur investigations finally begin to show progress when she discovers a camera she is convinced belonged to Bedie in a second-hand store. In it is an old roll of film, whose exposures turn out to be mostly of wild terrestrial orchids. Mara turns to Julian Wood, an expatriate English orchidologist, for help with the impossible: can they use two-decade-old photos of flowers to trace Bedie's last route, and find the end of her journey? Julian is reluctant to get drawn into this

seemingly hopeless quest, but the last exposure on the film is irresistible to him — an unknown species of Lady 's Slipper Orchid. If discovered, it might be the key to botanical fame — or it could be the marker to a shallow grave.

Roots of Murder Simon and Schuster

As the co-owner of The Rose in Bloom, Audrey Bloom creates magnificent flower arrangements for brides to be. Though helping to plan a wedding can be stressful, it 's nothing compared to the groom turning up dead. A designer of eye-catching bridal bouquets—many of them based

on the Victorian meanings behind each flower—Audrey Bloom is used to celebrations that end with happily ever after. In fact, every couple she ’ s worked with is still together, living in wedded bliss. But her perfect record is about to be broken. Her childhood friend Jenny Whitney has reeled in the most eligible bachelor in Ramble, Virginia, and she ’ s hired Audrey to design the bouquet. But before Jenny can walk down the aisle clutching her blend of anemone, scabious, and pussy willow (a floral disaster in Audrey ’ s mind), the groom is found dead—sprinkled with bits of a bouquet. This is bad for business—not to mention for Jenny, who has become the prime suspect. So Audrey decides to do a

little digging herself, hoping she won ’ t be the next Ramble resident pushing up daisies... Sophie's World Annie Adams From Lewis Miller, the celebrated floral designer and "Flower Bandit" himself, an intimate and joyous behind-the-scenes look at his signature Flower Flashes as they introduced bright moments of natural beauty into the city when they were needed most. Before dawn one morning in October 2016, renowned New York-based floral designer Lewis Miller stealthily arranged hundreds of brightly colored dahlias, carnations,

and mums into a psychedelic halo around the John Lennon memorial in Central Park. The spontaneous floral installation was Miller's gift to the city—an effort to spark joy during a difficult time. Nearly five years and more than ninety Flower Flashes later, these elaborate flower bombs—bursts of jubilant blooms in trash cans, over bus canopies, on construction sites and traffic medians—have brought moments of delight and wonder to countless New Yorkers and flower lovers everywhere, and earned Miller a following of dedicated fans and the

nickname the "Flower Bandit." After New York City entered lockdown, Miller doubled down, creating Flower Flashes outside hospitals to express gratitude to frontline health workers and throughout the city to raise spirits. This gorgeous and poignant visual diary traces the phenomenon from the first, spontaneous Flower Flash to the even more profound installations of the pandemic through a kaleidoscopic collage of photos documenting the Flower Flashes, behind-the-scenes snapshots, Miller's inspiration material, fan contributions, and

more.
