'I am the person I always should have been,' says Amy, 'except for a brief but total, unfathomable lapse of judgment in my youth.' Dubbed the 'Long Island Lolita', Amy Fisher was 16 years old when she became involved with a 36-year-old married auto mechanic, Joey Buttafuoco. A year later she was jailed for shooting his wife. The Amy Fisher case became an international obsession; in the United States, she was the subject of three major TV movies, a musical, books and even trading cards. Now aged 30, in *If I Knew Then* Amy tells her own story for the first time. She reveals details of the shooting, her seven years of abuse in prison and her struggle to return to normal life after parole. These days Amy is an award-winning journalist and a devoted wife and mother. In this deeply personal account, she takes us beyond the scandal and, in taking responsibility for her actions, offers real insights into her difficult childhood and how it led to a destructive relationship with a much older man. She shares her thoughts on gun control and domestic violence, and lists the warning signs that often reveal a teenager at risk. *If I Knew Then*, a New York Times bestseller, is both a chilling and cautionary tale. It is also an inspirational story about beginning again and making a life matter

First published by Simon & Schuster in 1993 and then by Continuum in 1998, Jim Mason's *An Unnatural Order* has become a classic. Now in a new Lantern edition, the book explores, from an anthropological, sociocultural, and holistic perspective, how and why we have cut ourselves off from other animals and the natural world, and the toll this has taken on our consciousness, our ability to steward nature wisely, and the will to control our own tendencies. Jim Mason writes: "My own view is that the primal worldview, updated by a scientific understanding of the living world, offers the best hope for a human spirituality. Life on earth is the miracle, the sacred. The dynamic living world is the creator, the First Being, the sustainer, and the final resting place for all living beings--humans included. We humans evolved with other living beings; their lives informed our lives. They provided models for our existence; they shaped our minds and culture. With dominionism out of the way, we could enjoy a deep sense of kinship with the other animals, which would give us a deep sense of belonging to our living world. "Then, once

again, we could feel for this world. We could feel included in the awesome family of living beings. We could feel our continuum with the living world. We could, once again, feel a genuine sense of the sacred in the world."

Final Girl — the last girl left alive in the syntax of the "slasher"—traces the history of the femme fatale in a sequence of poems and stories that display the verve and wit readers have come to expect from Gottlieb. In *Final Girl* Gottlieb is the survivor, the one who remains to tell the story: what was done to others, what was done to her, what might yet be done to her. Sexy and tart, dark and comic, low-down and high-hearted poems such as *Suture*, *Slash*, *Vamp*, *Bride of Reanimator* and *The Babysitter* Gottlieb identifies and articulates the desires, fears, traumas, both personal and social, out of which pop culture is made...and then she feeds pop culture back to itself. Though the slasher flick is central, Gottlieb finds resonances in sources as disparate as the early American captivity narrative, queer and feminist film theory, and her own mother's death from breast cancer. Through such iconic American figures as Mary Rowlandson, Marilyn Monroe and Patty Hearst, Gottlieb delineates the ways in which we're betrayed by our cultural fantasies about abduction, gender, literature, pleasure, and transgression—and, in so doing, synthesizes the death and life of the American female.

Between 1989 and 1990, Aileen Wuornos, a hitchhiking prostitute, shot, killed, and robbed seven men in remote Florida locations. Arrested in 1991, Wuornos insisted she had acted in self-defense, but the jury had little sympathy. Condemned to death on six separate counts, she was executed by lethal injection in 2002. An abused runaway who turned to prostitution to survive, Wuornos has become iconic of vengeful women who lash out at the nearest target. She has also become a touchstone for women's, prostitutes', and prisoners' rights advocates. Her story has inspired myriad books and articles, as well as the 2003 movie *Monster*, for which Charlize Theron won an Academy Award. But until now, Wuornos's uncensored voice has never been heard. *Dear Dawn* is Wuornos's autobiography culled from her ten-year death row correspondence with beloved childhood friend Dawn Botkins. Authorized for publication by Wuornos and edited under the guidance of Botkins, the letters not only offer Wuornos's riveting reflections on the murders, legal battles, and media coverage, but go further, revealing her fears and obsessions, her rich humor and empathy, and her gradual disintegration as her execution approached. A candid life story told to a trusted friend, *Dear Dawn* is a compelling narrative, unwaveringly true to its source.

Aileen Wuornos was executed in Florida, on the 9th of October, 2002 at the age of 46. She was the 10th woman to be sentenced to death in the USA since the death penalty resumed in 1976. Convicted for the murder of six men, in a two

month period, Aileen claimed she acted in self defence however the investigation into these claims was poor and she later retracted her statement announcing to the Supreme Court, "I'm one who seriously hates human life and would kill again." All-too-often female prostitutes have been the victims of male serial killers - the killings of Aileen 'Lee' Wuornos were the inverse of this. She was a child prostitute, fleeing an abusive childhood at the hands of her grandparents, which led straight into a disastrous adulthood of difficult affairs with both men and women. Her metamorphosis from victim to attacker had brutal consequences: a stream of dead men. Following a renewed interest in this woman after the film "Monster", this is her story in her own words.

With the cadences of Martin Luther King Jr. and the lyricism of Langston Hughes, the great civil rights activist Pauli Murray 's sole book of poems finally returns to print. There has been explosive interest in the life of Pauli Murray, as reflected in a recent profile in The New Yorker, the publication of a definitive biography, and a new Yale University college in her name. Murray has been suddenly cited by leading historians as a woman who contributed far more to the civil rights movement than anyone knew, being arrested in 1940—fifteen years before Rosa Parks—for refusing to give up her seat on a Virginia bus. Celebrated by twenty-first-century readers as a civil rights activist on the level of King, Parks, and John Lewis, she is also being rediscovered as a gifted writer of memoir, sermons, and

poems. Originally published in 1970 and long unavailable, Dark Testament and Other Poems attests to her fierce lyrical powers. At turns song, prayer, and lamentation, Murray 's poems speak to the brutal history of slavery and Jim Crow and the dream of racial justice and equality.

Requiem for a Female Serial Killer St. Martin's Griffin

America's first and most notorious serial killer and his diabolical killing spree during the 1893 World's Fair in Chicago, now updated with a new afterword discussing Holmes' exhumation on American Ripper. H. H. Holmes: The True History of the White City Devil is the first truly comprehensive book examining the life and career of a murderer who has become one of America 's great supervillains. It reveals not only the true story but how the legend evolved, taking advantage of hundreds of primary sources that have never been examined before, including legal documents, letters, articles, and records that have been buried in archives for more than a century. Though Holmes has become just as famous now as he was in 1895, a deep analysis of contemporary materials makes very clear how much of the story as we know came from reporters who were nowhere near the action, a dangerously unqualified new police chief, and, not least, lies invented by Holmes himself. Selzer has unearthed tons of stunning new data about Holmes, weaving together turn-of-the-century America, the killer 's background, and the wild cast of characters who circulated in and about the famous “ castle ” building. This book will be the first truly accurate account of what really happened in Holmes 's castle of horror, and now includes an afterword detailing the author's participation in Holmes' exhumation on the TV series, American Ripper. Exhaustively researched and painstakingly brought to life, H. H. Holmes will be an invaluable companion to the upcoming Martin Scorsese and Leonardo DiCaprio movie about Holmes 's murder spree based on Erik Larson 's The Devil in the White City.

Investigating the way Hollywood scoops up notorious criminals and turns them into legends, this entertaining who's-who guide provides thumbnail sketches of such killers as Ma Barker, Black Beard, Al Capone, John Wesley Hardin, and Charles Starkweather. Noting that some figures are glamorized in popular culture (Jesse James), while others are demonized (Charles Manson), this encyclopedic collection explores the legends' emotional truths as depicted in movies, stories, and songs. Facts of the real cases behind these notorious criminals are also presented, including the landmark rulings that pioneered new approaches to criminal justice.

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims,

the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

The true story of the woman who inspired the Academy Award – winning film *Monster* and a recent Investigation Discovery special. When police in Florida's Volusia County were called to investigate the murder of Richard Mallory, whose gunshot-ridden body had been found in the woods just north of Daytona Beach in December 1989, their search led them to a string of dead ends before the trail went cold six months later. During the spring and summer of 1990, the bodies of six more middle-aged white men were discovered—all in secluded areas near their abandoned vehicles, all but one shot dead with a .22 caliber pistol—and all without any suspects, motives, or leads. The police speculated that the murders were connected, but they never anticipated what they'd soon discover: The killings were the work of a single culprit, Aileen Wuornos, one of the first women to ever fit the profile of a serial killer. With the cooperation of her former lover and accomplice, Tyria Moore, the police were able to solicit a confession from Wuornos about her months-long killing spree along Florida's interstate highways. The nation was quickly swept up in the drama of her trial and the media dubbed her the "Damsel of Death" as horrifying details of her past as a prostitute and drifter emerged. Written by the Reuters reporter who initially broke the story, *Dead Ends* is a thrilling firsthand account of Wuornos's capture, trial, and ultimate sentencing to death by lethal injection, that goes beyond the media frenzy to reveal the even more disturbing truth.

This Lambda Literary Award nominee is a book of fierce, original poetry by one of San Francisco's leading poets and performers. Educated without being didactic, lyrical without being doggerel, passionate without being over the top and sexy without being prurient, *Why Things Burn* is everything poetry should be, without many of the things that poetry unfortunately is. These pieces work both in performance and on the page. They tackle sexuality, lesbian issues, rape, modern urban living, and the author's Jewish heritage, with a sometimes kooky but always sophisticated view of life.
