Cure Putnam Adult

Pediatrician Melissa Blumenthal will try any scientific method available to conceive--until the horrible secrets of an urban clinic erupt in a nightmare of staggering proportions...

Penguin

Behind the headlines on cloning--Dr. Robin Cook blends fact with fiction in one of his most terrifying bestsellers... Chromosome 6 is a prophetic thriller that challenges the medical ethics of genetic manipulation and cloning in the jungles of equatorial Africa, where one mistake could bridge the gap between man and ape--and forever change the genetic map of our existence...

Death Benefit Penguin

Dr. Cassandra Kingsley is about to discover that

neither her marriage nor her job is what she thought. And when she sets out to find the truth, it may just kill her.

The Year of the Intern Macmillan

A New York Times bestselling spine-tingling novel of medicine run amok by master of medical suspense Robin Cook... Two graduate students decide to solve their financial problems by becoming egg donors at an exclusive, highly profitable fertility clinic on Boston 's North Shore. But second thoughts and curiosity prompt the two women to find out more about their donated eggs. Obtaining employment at the clinic under aliases, they soon discover the horrifying aims of its research, immediately putting their lives—and their sanity—irrevocably at risk...

Charlatans Penguin

Long recognized as the master of medical thrillers, in *Seizure* Robin Cook once again combines a fascinating scenario with cutting-edge suspense and the bold strokes of everyday reality. A seizure has to be one of the most frightening conditions known to the medical profession, and ever since publication of *Coma*, Dr Cook has been scaring us with his visionary insight into the most

alarming possibilities of his own profession.

Godplayer Penguin

A harrowing medical nightmare on the cutting edge of genetic research, *Mortal Fear* goes into the controversial future of modern medicine. At a large Boston clinic, a world-class biologist stumbles upon a miraculous discovery, a major scientific breakthrough. Soon, healthy, middle-aged patients are dying of old age. And the ultimate experiment in terror begins...

Vector Penguin

A doctor's life gets turned upside by a dangerous new technology in this thought-provoking medical thriller from #1 New York Times bestselling author Robin Cook. George Wilson, M.D., a radiology resident in Los Angeles, is about to enter a profession on the brink of an enormous paradigm shift, foreshadowing a vastly different role for doctors everywhere. The smartphone is poised to take on a new role in medicine, no longer as a mere medical app but rather as a fully customizable personal physician capable of diagnosing and treating even better than the real thing. It is called iDoc. George's initial collision with this incredible innovation is devastating. He awakens one morning to find his fiancée dead in bed alongside him, not long after she participated in an iDoc beta test. Then several of his patients die after undergoing imaging procedures. All of them had been part of the same beta test. Is it possible that iDoc is being

subverted by hackers—and that the U.S. government is involved in a cover-up? Despite threats to both his career and his freedom, George relentlessly seeks the truth, knowing that if he's right, the consequences could be lethal.

Foreign Body Penguin

A fast-spreading disease with no cure takes the United States by storm in Robin Cook's "most harrowing medical horror story" (*The New York Times*). Murder and intrigue reach epidemic proportions when a devastating plague sweeps the country. Dr. Marissa Blumenthal of the Atlanta Centers for Disease Control investigates—and soon uncovers the medical world's deadliest secret...

Fever Penguin

Death Benefit is an explosive thriller from New York Times bestselling author and master of the medical thriller Robin Cook. Pia Grazdani is an exceptional yet aloof medical student working closely with Columbia University Medical Center's premier scientist. Their cutting edge research could revolutionize health care; creating replacement organs. Through her work with the brilliant molecular geneticist Dr Tobias Rothman, Pia knows she will not only be given the chance to fulfil her professional ambitions – but also maybe finally all push aside memories of her difficult, abusive childhood. However, tragedy strikes in the lab. Pia, with the help of infatuated classmate George Wilson, launches an investigation into the unforeseen calamity in the hospital's supposedly secure biosafety lab. Meanwhile, two ex-Wall Street whiz-kids think they have found

another lodestone in the nation ' s multi-trillion dollar life insurance industry, and race to find ways to control the data – and make a killing. And as Pia and George dig deeper into the events at the lab, matters become increasingly suspicious . . .

Nano Penguin

An explosive novel from Robin Cook, New York Times bestselling author and master of the medical thriller. Newly minted chief resident at Boston Memorial Hospital Noah Rothauer is swamped in his new position, from managing the surgical schedules to dealing with the fallout from patient deaths. Known for its medical advances, the famed teaching hospital has fitted several ORs as "hybrid operating rooms of the future"--an improvement that seems positive until an anesthesia error during a routine procedure results in the death of an otherwise healthy man. Noah suspects Dr. William Mason, an egotistical, world-class surgeon, of an error during the operation and for tampering with the patient's record afterward. But Mason is quick to blame anesthesiologist Dr. Ava London. When more anesthesia-related deaths start to occur, Noah is forced to question all of the residents on his staff, including Ava, and quickly realizes there's more to her than what he sees. A social media junkie, Ava has created multiple alternate personas for herself on the Internet. With his own job and credibility now in jeopardy, Noah must decide which

doctor is at fault and who he can believe--before any more lives are lost.

Death Benefit Pan Macmillan

In this chilling new novel from the one and only Robin Cook, New York City medical examiners Laurie Montgomery and Jack Stapleton rush to India to help a UCLA student investigating medical tourism-and a sinister global conspiracy.

Brain Penguin

The explosive new thriller from New York Times bestselling author and master of the medical thriller Robin Cook. Newly minted chief resident at Boston Memorial Hospital Noah Rothauer is swamped in his new position, from managing the surgical schedules to dealing with the fallouts from patient deaths. Known for its medical advances, the famed teaching hospital has fitted several ORs as “ hybrid operating rooms of the future ” —an improvement that seems positive until an anesthesia error during a routine procedure results in the death of an otherwise healthy man. Noah suspects Dr. William Mason, an egotistical, world-class surgeon, of an error during the operation and of tampering with the patient ' s record afterward. But Mason is quick to blame anesthesiologist, Dr. Ava London. When more anesthesia-related deaths start to occur, Noah is forced to question all of the residents on his staff, including Ava, and he quickly realizes there ' s more to her than what he sees. A social-media junkie, Ava has created multiple alternate personas for herself on the Internet. With his own job and credibility now in jeopardy, Noah must decide which doctor is at fault and who he can believe—before any more

lives are lost.

Critical Penguin

With her son's illness in complete remission, New York City medical examiner Laurie Montgomery returns to work-and finds her first case back to be a dangerous puzzle of the highest order, involving organized crime and two start-up biotech companies caught in a zero-sum game...

Terminal Penguin

New York City cab driver Yuri Davydov is a disgruntled Russian emigre poised to lash out at the adoptive nation he believes has denied him the American Dream. A former technician in the Soviet biological weapons system, Biopreparat, Yuri possesses the knowledge to wreak havoc in his new home. But before he executes his planned piece de resistance of vengeance, he experiments first on his suspicious live-in girlfriend, then on a few poor-tipping fares.... Dr. Jack Stapleton and Dr. Laurie Montgomery (both last seen in Chromosome 6) begin to witness some unusual cases in their capacity as forensic pathologists in the city's medical examiner's office: a young, healthy black woman dies of respiratory failure, a Greek immigrant succumbs to a sudden, overwhelming pneumonia. At the same time, the pair are pressured from above to focus on a high-profile string of suspicious deaths of prisoners in police custody. When an unexpected breakthrough

persuades Jack that these seemingly unrelated deaths are really connected murders, his colleagues and superiors are skeptical. Only Laurie is somewhat convinced. But the question soon becomes whether the pair will solve the puzzle before Yuri unleashes into the streets of New York the ultimate terror: a modern bioweapon. With signature skill, Robin Cook has crafted a page-turning thriller rooted in up-to-the-minute biotechnology. Vector is all-too-plausible fiction at its terrifying best.

Outbreak Penguin

Pia Grazdani is an exceptional yet aloof medical student working closely with Columbia University Medical Center's premier scientist. Their cutting edge research could revolutionize health care; creating replacement organs. Through her work with the brilliant molecular geneticist Dr Tobias Rothman, Pia knows she will not only be given the chance to fulfil her professional ambitions - but also maybe finally all push aside memories of her difficult, abusive childhood. However, tragedy strikes in the lab. Pia, with the help of infatuated classmate George Wilson, launches an investigation into the unforeseen calamity in the hospital's supposedly secure biosafety lab. And as

Pia and George dig deeper into the events at the lab, matters become increasingly suspicious...

Mindbend Penguin

New York Times-bestselling author Robin Cook takes on the cutting-edge world of gene-modification in this pulse-pounding new medical thriller. When an unidentified, seemingly healthy young woman collapses suddenly on the New York City subway and dies upon reaching the hospital, her case is an eerie reminder for veteran medical examiner Jack Stapleton of the 1918 flu pandemic. Fearful of a repeat on the one hundredth anniversary of the nightmarish contagion, Jack autopsies the woman within hours of her demise and discovers some striking anomalies: first, that she has had a heart transplant, and second, that, against all odds, her DNA matches that of the transplanted heart. Although the facts don't add up to influenza, Jack must race against the clock to identify the woman and determine what kind of virus could wreak such havoc--a task made more urgent when two other victims succumb to a similar rapid death. But nothing makes sense until his investigation leads him into the fascinating realm of CRISPR/CAS9, a gene-editing biotechnology that's captured the imagination of the medical community. . . and the attention of its most unethical members. Drawn into the dark underbelly of the organ transplant market, Jack will come face-to-face with a megalomaniacal

businessman willing to risk human lives in order to conquer a lucrative new frontier in medicine--and if Jack's not careful, the next life lost might be his own.

Viral Penguin

The nurse's voice on the phone is desperate, but young Dr. Peters, in his first weeks of internship, is only bone-tired and a little afraid. He has forgotten when he last slept. Yet he knows that in the coming hours he will have to make life-or-death decisions regarding patients, assist contemptuous surgeons in the operating room, deal with nurses who may know more than he does, cope with worried relatives and friends of the injured and ill, and pretend at all times to be what he has not yet become--a fully qualified doctor. This book is about what happens to a young intern as he goes through the year that promises to make him into a doctor, and threatens to destroy him as a human being--

Death Benefit Penguin

A husband and wife race to find a cure for the disease that has inspired a serial killer to terrorize Manhattan in this classic medical thriller from the bestselling author and creator of the hit Netflix drama *The Stranger*. They 're one of the country 's most telegenic couples: beloved TV journalist Sara Lowell and New York 's hottest basketball star, Michael Silverman. Their family and social connections tie them to the highest echelons of the political, medical,

and sports worlds—threads that will tangle them up in one of the most controversial and deadly issues of our time. In a clinic on Manhattan 's Upper West Side, a doctor has dedicated his life to eradicating a divisive and devastating disease. One by one, his patients are getting well. One by one, they ' re being targeted by a serial killer. And now Michael has been diagnosed with the disease. There ' s only one cure, but many ways to die...

Miracle Cure Penguin

The world's bestselling master of the medical thriller, Robin Cook skillfully combines human drama and high-tech thrills with the latest breakthroughs and controversies of modern medicine. Now, in his most daring novel yet, a mysterious transmission from the bottom of the Atlantic Ocean leads a crew of oceanographers and divers to a phenomenon beyond scientific understanding - a discovery that will change everything we know about life on Earth...

Harmful Intent Pan Macmillan
