Debtors & Creditors Templates - Excel Skills

A debtor is someone who owes you money – i.e. your customers and clients. A creditor, on the other hand, is someone who has leant credit to another person and is owed money – i.e. a bank or lender that you have borrowed from. By keeping this debtors definition in mind, it makes understanding your aged debtors report simpler.

I age each debt at each month end and keep them in a rolling spreadsheet. Then you can analyse the brackets you define (we use in terms, 0-15, 16-30, 31-45, 46-60 and 60+ days overdue). Once you have that a nice pivot can be made to show the age profile at each month end (or more regular interval if necessary).

Debtors Age Analysis Template

Accounts Receivable Aging Template. Every business should leverage an accounts receivable aging to manage balances outstanding. However, not every business has the need for an expensive accounts receivable ledger or system. This accounts receivable aging is an excel template that makes it easy to age invoices. It's also been designed to support good controls over the accounts receivable process.

[Debtors Age Analysis Excel Template - CA CLUB](#)

Step 1: In cell F5 put the following formula: =IF (E5=0,D5,0) This formula checks that if value in cell E5 is not equal to zero then fetch the value in cell D5 as this column is "not due" and this way the value of invoice will be inserted here as "zero" in cell E5 means it hasn't even fallen due.
