[America's Constitution](#) Basic Books

An account of General Thomas "Stonewall" Jackson's rise to prominence during the Civil War.

**The Defender** University of Pennsylvania Press  
Do the nation's highest officers, including the President, have a right to lie protected by the First Amendment? If not, what can be done to protect the nation under this threat? This book explores the various options.

**The Constitutional Convention** Temple University Press  
NATIONAL BESTSELLER • In *The Quartet*, Pulitzer Prize – winning historian Joseph Ellis tells the unexpected story of America's second great founding and of the men most responsible—Alexander Hamilton, George Washington, John Jay, and James Madison. Ellis explains of why the thirteen colonies, having just fought off the imposition of a distant centralized governing power, would decide to subordinate themselves anew. These men, with the help of Robert Morris and Gouverneur Morris, shaped the contours of American history by diagnosing the systemic dysfunctions created by the Articles of Confederation, manipulating the political process to force the calling of the Constitutional Convention, conspiring to set the agenda in Philadelphia, orchestrating the debate in the state ratifying conventions, and, finally, drafting the Bill of Rights to assure state compliance with the constitutional settlement, created the new republic. Ellis gives us a dramatic portrait of one of the most crucial and misconstrued periods in American history: the years between the end of the Revolution and the formation of the federal government. *The Quartet* unmasks a myth, and in its place presents an even more compelling truth—one that lies at the heart of understanding the creation of the United States of America.

Wesleyan

Many important questions regarding the creation and adoption of the United States Constitution remain unresolved. Did slaveholdings or financial holdings significantly influence our Founding Fathers' stance on particular clauses or rules contained in the Constitution? Was there a division of support for the Constitution related to religious beliefs or ethnicity? Were founders from less commercial areas more likely to oppose the Constitution? *To Form a More Perfect Union* successfully answers these questions and offers an economic explanation for the behavior of our Founding Fathers during the nation's constitutional founding. In 1913, American historian Charles A. Beard controversially argued in his book *An Economic Interpretation of the Constitution of the United States* that the framers and ratifiers of the Constitution were less interested in furthering democratic principles than in advancing specific economic and financial interests. Beard's thesis eventually emerged as the standard historical interpretation and remained so until the 1950s. Since then, many constitutional and historical scholars have questioned an economic interpretation of the Constitution as being too narrow or too calculating, believing the great principles and political philosophies that motivated the Founding Fathers to be worthier subjects of study. In this meticulously researched reexamination of the drafting and ratification of our nation's Constitution, Robert McGuire argues that Alexander Hamilton, James Madison, George Mason and the other Founding Fathers did act as much for economic motives as for abstract ideals. *To Form a More Perfect Union* offers compelling evidence showing that the economic, financial, and other interests of the founders can account for the specific design and adoption of our Constitution. This is the first book to provide modern evidence that substantiates many of the overall conclusions found in Charles Beard's *An Economic Interpretation* while challenging and overturning other of Beard's specific findings. *To Form a More Perfect Union* presents an entirely new approach to the study of the shaping of the U.S. Constitution. Through the application of economic thinking and rigorous statistical techniques, as well as the processing of vast amounts of data on the

economic interests and personal characteristics of the Founding Fathers, McGuire convincingly demonstrates that an economic interpretation of the Constitution is valid. Radically challenging the prevailing views of most historians, political scientists, and legal scholars, *To Form a More Perfect Union* provides a wealth of new findings about the Founding Fathers' constitutional choices and sheds new light on the motivations behind the design and adoption of the United States Constitution.

*Miracle at Philadelphia* Blackstone Publishing

The gripping story of the Supreme Court's transformation from a measured institution of law and justice into a highly politicized body dominated by a right-wing supermajority, told through the dramatic lens of its most transformative year, by the Pulitzer Prize – winning law columnist for *The New York Times* "A dazzling feat . . . meaty, often scintillating and sometimes scary . . . Greenhouse is a virtuoso of SCOTUS analysis." —*The Washington Post*  
In *Justice on the Brink*, legendary journalist Linda Greenhouse gives us unique insight into a court under stress, providing the context and brilliant analysis readers of her work in *The New York Times* have come to expect. In a page-turning narrative, she recounts the twelve months when the court turned its back on its legacy and traditions, abandoning any effort to stay above and separate from politics. With remarkable clarity and deep institutional knowledge, Greenhouse shows the seeds being planted for the court's eventual overturning of *Roe v. Wade*, expansion of access to guns, and unprecedented elevation of religious rights in American society. Both a chronicle and a requiem, *Justice on the Brink* depicts the struggle for the soul of the Supreme Court, and points to the future that awaits all of us.

**Madison's Hand** Benchmark Books

No document depicts the Constitutional Convention's charismatic figures, crushing disappointments, and miraculous triumphs with the force of Madison's Notes. But how reliable is this account? Drawing on digital technologies and textual analysis, Mary Sarah Bilder reveals that Madison revised to a far greater extent than previously recognized. *Contested Conventions* Blackstone Publishing  
Chronicles the making of the United States Constitution and examines the men who created the document.

*The Federalist Papers* Modern Library

Drawing on the speeches and letters of the United States' founders, the author recounts the dramatic period after the Constitutional Convention and before the Constitution was finally ratified, describing the tumultuous events that took place in homes, taverns and convention halls throughout the colonies. By the author of *American Scripture*.

*To Form a More Perfect Union* Hill and Wang

A classic history of the Federal Convention at Philadelphia in 1787, the stormy, dramatic session that produced the most enduring of political documents: the Constitution of the United States. From Catherine Drinker Bowen, noted American biographer and National Book Award winner, comes the canonical account of the Constitutional Convention recommended as "required reading for every American." Looked at straight from the records, the Federal Convention is startlingly fresh and new, and Mrs. Bowen evokes it as if the reader were actually there, mingling with the delegates, hearing their arguments, witnessing a dramatic moment in history. Here is the fascinating record of the hot, sultry summer months of debate and decision when ideas clashed and tempers flared. Here is the country as it was then, described by contemporaries, by Berkshire farmers in Massachusetts, by Patrick Henry's Kentucky allies, by French and English travelers. Here, too, are the offstage voices—Thomas Jefferson and Tom Paine and John Adams from Europe. In all, fifty-five men attended; and in spite of the heat, in spite of clashing interests—the big states against the little, the slave states against the anti-slave states—in tension and anxiety that mounted week after week, they wrote out a working plan of government and put their signatures to it.

*The Records of the Federal Convention of 1787* N á m

In 1787, the American union was in disarray. The incompatible demands of the separate states threatened its existence; some states were even in danger of turning into the kind of tyranny they had so recently deposed. A truly national government was needed, one that could raise money, regulate commerce, and defend the states against foreign threats – without becoming as overbearing as England. So thirty-six-year-old James Madison believed. That summer, the Virginian was instrumental in organizing the Constitutional Convention, in which one of the world's greatest documents would be debated, created, and signed. Inspired by a sense of history in the making, he kept the most extensive notes of any attendee. Now two esteemed scholars have made these minutes accessible to everyone. Presented with modern punctuation and spelling, judicious cuts, and helpful notes – plus fascinating background information on every delegate and an overview of the tumultuous times – here is the great drama of how the Constitution came to be, from the opening statements to the final votes. This Modern Library Paperback Classic also includes an Introduction and appendices from the authors.

*The Summer of 1787* Hill and Wang

"Linking America's past to the lives of kids today, Howard Egger-Bovet's latest American history production illustrates the power of Feudalism, the Articles of Confederation, the Magna Carta, and the Constitution. These DVDs include original and historical music,

puppetry, and cinematography, and sends kids on an interactive walk through history."--Container.

*Miracle At Philadelphia* Ayer Company Pub

In May 1787, in an atmosphere of crisis, delegates met in Philadelphia to design a radically new form of government. Distinguished historian Richard Beeman captures as never before the dynamic of the debate and the characters of the men who labored that historic summer. Virtually all of the issues in dispute—the extent of presidential power, the nature of federalism, and, most explosive of all, the role of slavery—have continued to provoke conflict throughout our nation's history. This unprecedented book takes readers behind the scenes to show how the world's most enduring constitution was forged through conflict, compromise, and fragile consensus. As Gouverneur Morris, delegate of Pennsylvania, noted: "While some have boasted it as a work from Heaven, others have given it a less righteous origin. I have many reasons to believe that it is the work of plain, honest men."

*The Drama of American History* Read Books Ltd

First published in 1954, this indispensable reference quickly became the gold standard for concise summaries of important U.S. Supreme Court cases. The only reference guide to Supreme Court cases organized both topically and chronologically within chapters so that readers understand how cases fit into a historical context, the 15th edition has been extensively revised to ensure that it remains the most up-to-date resource available. An essential resource for law students, lawyers, and everyone interested in our nation's Constitution and the Supreme Court decisions that explicate it.

*Unruly Americans and the Origins of the Constitution* University of Chicago Press

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755 – 1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

*Slavery's Constitution* Random House

From war powers to health care, freedom of speech to gun ownership, religious liberty to abortion, practically every aspect of American life is shaped by the Constitution. This vital document, along with its history of political and judicial interpretation, governs our individual lives and the life of our nation. Yet most of us know surprisingly little about the Constitution itself, and are woefully unprepared to think for ourselves about recent developments in its long and storied history. *The Constitution: An Introduction* is the definitive modern primer on the US Constitution. Michael Stokes Paulsen, one of the nation's most provocative and accomplished scholars of the Constitution, and his son Luke Paulsen, a gifted young writer and lay scholar, have combined to write a lively introduction to the supreme law of the United States, covering the Constitution's history and meaning in clear, accessible terms. Beginning with the Constitution's birth in 1787, Paulsen and Paulsen offer a grand tour of its provisions, principles, and interpretation, introducing readers to the characters and controversies that have shaped the Constitution in the 200-plus years since its creation. Along the way, the authors provide correctives to the shallow myths and partial truths that pervade so much popular treatment of the Constitution, from school textbooks to media accounts of today's controversies, and offer powerful insights into the Constitution's true meaning. A lucid and engaging guide, *The Constitution: An Introduction* provides readers with the tools to think critically and independently about constitutional issues—a skill that is ever more essential to the continued flourishing of American democracy. Shh! we're writing the Constitution Rowman & Littlefield Publishers  
Using a narrative format, *Creating the Constitution* details the events leading up to the writing of the US Constitution and what American leaders went through to create it. The authors describe the conflicts

---

between the new states and the delegates each sent to the Constitutional Convention, as well as the work that was done to resolve the many issues at hand.

Roger Sherman's Connecticut Simon and Schuster

Average Americans Were the True Framers of the Constitution Woody Holton upends what we think we know of the Constitution's origins by telling the history of the average Americans who challenged the framers of the Constitution and forced on them the revisions that produced the document we now venerate. The framers who gathered in Philadelphia in 1787 were determined to reverse America's post – Revolutionary War slide into democracy. They believed too many middling Americans exercised too much influence over state and national policies. That the framers were only partially successful in curtailing citizen rights is due to the reaction, sometimes violent, of unruly average Americans. If not to protect civil liberties and the freedom of the people, what motivated the framers? In *Unruly Americans and the Origins of the Constitution*, Holton provides the startling discovery that the primary purpose of the Constitution was, simply put, to make America more attractive to investment. And the linchpin to that endeavor was taking power away from the states and ultimately away from the people. In an eye-opening interpretation of the Constitution, Holton captures how the same class of Americans that produced Shays's Rebellion in Massachusetts (and rebellions in damn near every other state) produced the Constitution we now revere. *Unruly Americans and the Origins of the Constitution* is a 2007 National Book Award Finalist for Nonfiction.

The Abraham Lincoln You Never Knew Vintage

A biography of Abraham Lincoln that focuses on dispelling common misconceptions and emphasizes how he lived his life with wisdom and compassion.

Conversations with RBG Oxford University Press

History is dramatic—and the renowned, award-winning authors Christopher Collier and James Lincoln Collier demonstrate this in a compelling series aimed at young readers. The volumes in this collection explore far beyond the dates and events of a historical chronicle to present a moving illumination of the ideas, attitudes, and tribulations that led to the birth of this great nation. This collection features six books in the Drama of American History series, covering American history from prehistoric Native American life and culture through the Federalist era of the late eighteenth century: *Pilgrims and Puritans: 1620 – 1676* *The French and Indian War: 1660 – 1763* *The Paradox of Jamestown: 1585 – 1700* *Clash of Cultures: Prehistory – 1638* *The American Revolution: 1763 – 1783* *Building a New Nation: The Federalist Era, 1789 – 1801*

The Clock Oxford University Press on Demand

In her own words, Ruth Bader Ginsburg offers an intimate look at her life and career, through an extraordinary series of conversations with the head of the National Constitution Center. This remarkable book presents a unique portrait of Justice Ruth Bader Ginsburg, drawing on more than twenty years of conversations with Jeffrey Rosen, starting in the 1990s and continuing through the Trump era. Rosen, a veteran legal journalist, scholar, and president of the National Constitution Center, shares with us the justice 's observations on a variety of topics, and her intellect, compassion, sense of humor, and humanity shine through. The affection they have for each other as friends is apparent in their banter and in their shared love for the Constitution—and for opera. In *Conversations with RBG*, Justice Ginsburg discusses the future of *Roe v. Wade*, her favorite dissents, the cases she would most like to see overruled, the #MeToo movement, how to be a good listener, how to lead a productive and compassionate life, and of course the future of the Supreme Court itself. These frank exchanges illuminate the steely determination, self-mastery, and wit that have inspired Americans of all ages to embrace the woman known to all as “ Notorious RBG. ” Whatever the topic, Justice Ginsburg always has something interesting—and often surprising—to say. And while few of us will ever have the opportunity to chat with her face-to-face, Jeffrey Rosen brings us by her side as never before. *Conversations with RBG* is a deeply felt portrait of an American hero.
