CRAZY A MEMOIR is a humorous, adventuresome romp about weed smuggling in the seventies and eighties. The author chronicles his early life in San Antonio and the influence of the growing drug culture during his teen years. He then comically depicts his required military service as a "tie-dyed hippie in army greens" and his determined attempts to stay out of Viet Nam. Lost and unsure about life following the drug related deaths of most of his friends, he later hitchhikes around Mexico and ends up attending college in Cholula where he begins his career in weed smuggling. His entrepreneurial efforts in this area are humorously described in great detail. The book captures a slice of time, tying in political and cultural events with the author's concomitant psychological development during the hippie movement as well as his evolving career as a drug smuggler for the Cause.

This novel is just a figment of my imagination and does not depict the views of my personal opinion. In memory of the dearly departed, I would like to bow my head in a moment of silence for all the fallen soldiers who didn't get a chance to see life for the way it was meant to be viewed. For our predecessors who've been misguiding our young minds of the ghettos for far too long. For those who helped to prevent prosperity from ever reaching its full potential. For the many demons of their own destruction, who truly believe that genocide is the only way to properly represent their neighborhoods with pride. For the athletic, or intellectual being, who seem -to have missed their true calling for dedicating so much of their lives to the lost cause of gang violence, we say no more! If we don't stand for something, we will eventually start falling for anything. It's time to wake up, and build up to the expectation of our own greatness! If not, the very future of our children, and our children's, children's lives will one day depend on it...
