We all want true friends. But how many of us really know what friendship is, or where to find it? In these pages, philosopher John Cuddeback weaves together the timeless wisdom of Scripture, of the ancient Greeks, and the saints to map out the steep and beautiful path to man's greatest joy—true friendship. Following Aristotle's teachings

on the unbreakable connection between happiness and virtuous living, Cuddeback sees friendship at the very center of the human drama. Although there are different kinds of friendship, the deepest kind can only be achieved through a life of virtue, and this is where the human person comes most fully alive. True Friendship offers simple yet rich advice on how to tap into this reality in our own lives. Such friendship demands much of us, but it gives us even more, as individuals and as a society. Both the Old and New Testaments place a premium on friendship. In the Christian vision, the philosophers' insights attain a broader supernatural perspective. Christ transforms human friendship and expands it. With help from the writings of Saints Thomas and Aelred, Cuddeback discovers what lies at the heart of the Christian life—the wondrous and unsurpassable reality of friendship with God in Jesus, the Divine Friend, who is at work in all our authentic friendships.

But for all the rosy sentiments surrounding friendship, most people don't talk much about what it really takes to stay close for the long haul. Now two friends, Aminatou Sow and Ann Friedman, tell the story of their equally messy and life-affirming Big Friendship in this honest and hilarious book that chronicles their first decade in one another's lives. As the hosts of the hit podcast Call Your Girlfriend, they've become known for frank and intimate conversations. In this book, they bring that energy to their own friendship—its joys and its pitfalls. Aminatou and Ann define Big Friendship as a strong, significant bond that transcends life phases, geographical locations, and emotional shifts. And they should know: the two have had moments of charmed bliss and deep frustration, of profound connection and gut-wrenching alienation. They have weathered life-threatening health scares, getting fired from their dream jobs, and one unfortunate Thanksgiving dinner eaten in a car in a parking lot in Rancho Cucamonga. Through interviews with friends and experts, they have come to understand that their struggles are not unique. And that the most important part of a Big Friendship is making the decision to invest in one another again and again. An inspiring and entertaining testament to the power of society's most underappreciated relationship, Big Friendship will invite you to think about how your own bonds are formed, challenged, and preserved. It is a call to value your friendships in all of their complexity. Actively choose them. And, sometimes, fight for them.

Why do so many feel so lonely today? Are our friendships in breakdown mode, or are they just changing? Why are we burdened with the creeping sense that our communities are falling apart? Sociologists report that in recent decades the number of Americans who have no one in whom to confide may have tripled. Likewise, church attendance, participation in local clubs and groups, even the number of times we invite one another over to supper are all in decline. Meanwhile, some of us have more “ friends ” than ever on social media. The question of friendship, its definition, virtue, and quality, is not a new one to the church or the culture in which Christianity was birthed. Greco-Roman ethicists were fascinated by the virtue of friendship. Taking a cue from Jesus, the New Testament authors transformed Greco-Roman friendship notions to express visions of Christian community that were spiritually fulfilling, sustainably flourishing, and socially just. This book traces the New Testament transformation of friendship in specific passages in Matthew, Luke, John, Acts, Philippians, and James, and connects them to contemporary issues and cutting-edge experiments in Christian

community. It is New Testament Theology for the twenty-first century.

This book tells a compelling story about love, friendship, and the Divine that took over a thousand years to unfold. It argues that mind and feeling are intrinsically connected in the thought of Plato, Aristotle, and Plotinus; that Aristotle developed his theology and physics primarily from Plato's Symposium (from the "Greater" and "Lesser Mysteries" of Diotima-Socrates' speech); and that the Beautiful and the Good are not coincident classes, but irreducible Forms, and the loving ascent of the Symposium must be interpreted in the light of the Republic, as the later tradition up to Ficino saw. Against the view that Platonism is an escape from the ambiguities of

ordinary experience or opposed to loving individuals for their own sakes, this book argues that Plato dramatizes the ambiguities of ordinary experience, confronts the possibility of failure, and bequeaths erotic models for the loving of individuals to later thought. Finally, it examines the Platonic-Aristotelian heritage on the Divine to discover whether God can love us back, and situates the dramatic development of this legacy in Plotinus, Iamblichus, Proclus, and Dionysius the Areopagite.

No one can deny that friendships are powerful relationships of influence. Why not strategically incorporate friendship within a philosophy of leadership? People long for relational models of leadership, yet few specific methodologies have been developed. This book examines the friendship of God with humanity, and the leadership of Jesus with his disciples, to whom he declared, "I no longer call you servants . . . Instead, I have called you friends" (John 15:15). In response to this enduring example of the Divine bringing together both friendship and leadership, this book presents an unexplored model of leadership for the Christian practitioner: Friendship Leadership. The authors of Friendship Leadership share research, historical examples, and their personal experiences with this leadership model, as they describe both the trials and triumphs. Through this process, the book addresses the primary barriers a leader might experience when utilizing the Friendship Leadership model. Finally, the authors offer a guide for how to incorporate friendship into their leadership, strengthening others as they follow the example of our great Leader. The result is a transformational way of leading that nurtures relationships.

There has been renewed interest in the concept of friendship in contemporary philosophy. Many of the existing treatments of the topic have been limited to Western notions of friendship, yet there is a far wider perspective available to us through an examination of a more extended cultural examination of the topic. Cultures other than those in Christian Europe have had important and interesting observations to make on the nature of friendship, and in this collection there is treatment not only of Greek and Christian ideas of friendship, but also of Islamic, Jewish, Chinese, Japanese and Indian perspectives. A rich and extended view of the concept of friendship results from these various examinations.

While raising my three children, I have often tried to find books to help reinforce the spiritual concepts I was teaching them. Aside from colorful picture books for younger children, there was very little in the self-help genre readily available for bright youngsters seeking a special kind of knowledge to read on their own until now. Truth Works dismantles the negative life lessons our kids are taught by many adults in their lives. Reading, writing, and arithmetic aren't the only things they learn in school. There are detrimental messages they hear on a daily basis from television, music, friends, and others. People unknowingly drop their false-belief bombs that can become ingrained into our children's subconscious when they hear age-old, traditional sayings like "money is the root of all evil," "life is not fair," or "you have to struggle to get ahead." The premise for Truth Works is to undo this harmful programming at a young age, ensuring the subconscious belief system for our children is optimistic, safe, and secure. When we address these destructive beliefs in childhood and expose their false nature, they cannot reside in our subconscious minds for a lifetime as the basis for our beliefs. We are left with the pure, positive, and absolute spiritual truth. Presentational Speaking for a Changing World, Fourth Edition Yale University Press

This book explores the question of justification of law. It examines some perennial jurisprudential debates and suggests that law must

find its justification in morality. Drawing upon the Aristotelian inspiration that friends have no need for justice - in (ideal) friendship, we behave justly - Seow Hon Tan develops a theory of law based on the universal phenomenon of friendship. Friendships and legal relations attract rights and obligations by virtue of the manner in which parties are situated. Friendship teaches us that how parties are situated gives rise to legitimate expectations; it attests to the intrinsic worth of each person. The methodology for deciphering norms within, and moral lessons from, friendship can be transposed to law, resulting in an inter-subjectively agreeable and rich conception of justice. In determining the content of legal rights and obligations, we can and should draw upon such determination in friendship. Justice as Friendship aims to provide a vision for law's development and invites the practitioner to advance its central claims in their area of expertise. In dealing with selected legal doctrines, the book draws upon illustrative cases from the United States, the United Kingdom, and the Commonwealth. The book traverses the fields of jurisprudence, philosophy, ethics, political theory, contract law, and tort law.

One measure of happiness is the quality of one's personal relationships. No one relates perfectly, and even those who relate well can see from time to time they need to improve. In this book, Rev. Msgr. Philip D. Halfacre offers

insights to help the reader to do precisely that. In all interpersonal relationships—especially in the family—there is an environment or a culture. Ideally, a culture of love is created—one wherein each person has the experience of being loved, acceptance, and forgiveness. Friendship entails more than warm feelings and personal sharing; sustaining such relationships and fulfilling the expectations that occur naturally requires real strength of character, especially to persevere through the years.
