Arabic-English-Arabic Legal Translation provides a groundbreaking

investigation of the issues found in legal translation between Arabic and English. Drawing on a contrastive-comparative approach, it analyses parallel authentic legal documents in both Arabic and English to examine the features of legal discourse in both languages and uncover the different translation techniques used. In so doing, it addresses the following questions: What are the features of English and Arabic legal texts? What are the similarities and differences of English and Arabic legal texts? What are the difficult areas of legal translation between English and Arabic legal texts? What are the techniques for translating these difficult areas on the lexical and syntactic levels? Features include: A thorough description of the features of legal translation in both English and Arabic, drawing on empirical new research, corpus data analysis and strategic two-way comparisons between source texts and target texts Coverage of a broad range of topics including an outline of the chosen framework for data analysis, a historical survey of

legal discourse developments in both Arabic and English and detailed analyses of legal literature at both the lexical and syntactic levels Attention to common areas of difficulty such as Shariah Law terms, archaic terms and model auxiliaries Many examples and excerpts from a wide selection of authentic legal documents, reinforced by practical discussion points, exercises and practice drills to encourage active engagement with the material and opportunities for hands-on learning. Wide-ranging, scholarly and thought-provoking, this will be a valuable resource for advanced undergraduates and postgraduates on Arabic, Translation Studies and Comparative Linguistics courses. It will also be essential reading for translation professionals and researchers working in the field.

Learning to speak French is not a daunting task. It should be a pleasurable effort and one that could bring you enormous rewards. One of the main reasons for which French is an easy language to learn is because it is well

organised. This book is dedicated to help you construct the French language from building blocks that I will provide for you. It will also demonstrate how you can "train" your brain to speak French such as a toddler would, and how it is not necessary for you to attend any course to learn to speak the language. The most fun you will have with learning French is perhaps when you speak to yourself. In fact, I recommend that you do so, on a regular basis. Getting used to the pronunciation of every word is one of the most important things that you can do when learning this language. Besides which, your brain needs to familiarize itself with the sounds of the French language. This "training" is a type of immersion, but one that you can do easily at home in your own time. Therefore, this book will provide you with the guidelines and assistance that you will need to make your journey into the learning of the language a lot easier and much more effective. I have perfected and used this self-immersion training system for over 20 years while tutoring English students of various ages in Canada and abroad.

For fans of Alice Munro, Anne Enright, and William Trevor comes a stunning debut collection from a deeply original writer and observer of love, betrayal, and turning points in ordinary peoples' lives. In a raw seacoast cabin, a young woman watches her boyfriend

---

go out with his brother, late one night, on a mysterious job she realizes she isn't supposed to know about. A man gets a call at work from his sister-in-law, saying that his wife and his daughter never made it to nursery school that day. A mother learns that her teenage daughter has told a teacher about problems in her parents' marriage that were meant to be private—problems the mother herself tries to ignore. McLaughlin conveys these characters so vividly that readers will feel they are experiencing real life. Often the stories turn on a single, fantastic moment of clarity—after which nothing can be the same. Danielle McLaughlin is a writer of unparalleled precision and uncommon imagination. In her deft hands, ordinary people are transformed and surprising truths are suddenly understood. Praise for *Dinosaurs on Other Planets* "Dinosaurs [on Other Planets] marks the stateside debut (in book form, at least—a number of these already have appeared in *The New Yorker*) of Danielle McLaughlin, a writer of exceptionally deep empathy in the naturalistic tradition of John McGahern and Claire Keegan but with a knack for keen, and often disturbing, observation all her own."—LitHub "McLaughlin's immersive first collection casts a stern eye on individuals, couples, and families caught in nets of their own making, where even the mildest passion can lead to death, and journeys home with new lovers can reveal grim secret lives. . . .

The title story, which opens up into an ambiguous ending rather than tying its strands up neatly, show[s] the ample bag of tricks McLaughlin has at her disposal."—Publishers Weekly "Danielle McLaughlin's short story collection *Dinosaurs on Other Planets* is a near perfect, enormously promising debut. . . . McLaughlin's subject matter and themes are serious, undercut brilliantly by a sly strain of pitch-black humor. . . . A brilliant, quietly disturbing debut story collection [that] portrays Irish characters in the uncertain wake of the recent financial crisis."—Shelf Awareness "In her collection, [McLaughlin] focuses on fraught relationships and those sudden, illuminating moments that can light up ordinary lives."—Library Journal "This is not a debut in the usual sense, a promise of greater things to come. There is no need to ask what Danielle McLaughlin will do next—she has done it already. This book has arrived. I think it will stay with us for a long time."—Anne Enright, Man Booker Prize-winning author of *The Green Road* "Danielle McLaughlin's stories seethe, beneath elegant prose, with unfamiliar insights and entirely original observations. Only an author who loves what human beings are can so compassionately reveal them in all their flawed, gorgeous contradictions and communicate unmistakable joy while doing so. How glad I am to read this impressive new writer! Her fiction is a gift we need."—Robin Black, author of *Life Drawing*

**Fluent in French** Cambridge English A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book *A Mind for Numbers* A Mind for Numbers and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains: Why sometimes letting your mind wander is an important part of the learning process How to avoid "rut think" in order to think outside the box Why having a poor memory can be a good thing The value of metaphors in developing understanding A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another

step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

A story of transportation and life in a new world from Australia's Children's Laureate At the tender age of eight, chimney sweep Tom Appleby is convicted of stealing and sentenced to deportation to Botany Bay. As one of the members of the First Fleet, he arrives in a country that seemingly has little to offer - or little that the English are used to, anyway. Luckily, not long after tom's arrival in the colony, the fair and kind Sergeant Stanley decides to take on tom as a servant. Together Tom, Sergeant Stanley and his son, Rob, build a house, set up an orchard and a vegetable garden for themselves - and thrive, unlike many others in the new colony. Jackie French weaves Tom's story in with the story of the development of Australia. She tells of a colony that, despite its natural abundance, cannot offer what the colonists want - familiarity. While the people's health is better than it ever was in England, their morale is low as they wait for news from home. PRAISE FOR NANBERRY: BLACK BROTHER WHITE 'For really, really good

Australian young-adult (and middle-grade) historical fiction, Jackie French has always been a winner ... With Nanberry: Black Brother White she delivers an excellent fictionalised account of the First Fleet's settlement at Sydney Cove ... a powerful novel' -- Australian Bookseller & Publisher, 5 stars 'She is one of few masters who can embed historic characters in rattling good tales, and her meticulous research is seamlessly inserted so that you live the detail rather than learn it. Even if you are not into history, Nanberry will hook you in ... Irresistible for history buffs of any age' -- Good Reading Magazine, 5 stars 'I've been telling all my friends to read this book, and to give it to their kids to read. It's absolutely engrossing' -- Herald Sun

acquisition (SLA) and pronunciation and examines topical issues and challenges that relate to formal and informal assessments of second language (L2) speech in classroom, research and real-world contexts. It showcases insights from assessing other skills (e.g. listening and writing) and highlights perspectives from research in speech sciences, SLA, psycholinguistics and sociolinguistics, including lingua franca communication, with concrete implications for pronunciation assessment. This collection will help to establish commonalities across research areas and facilitate greater consensus about key issues, terminology and best practice in L2 pronunciation research and assessment. Due to its interdisciplinary nature, this book will appeal to a mixed audience of researchers, graduate students, teacher-educators and exam board staff with varying levels of expertise in pronunciation and assessment and wide-ranging interests in applied linguistics.

This book provides a path for resolving challenges related to access, diversity, equity, and other issues facing higher education admissions. It illuminates current higher education admissions practices in a global context, highlighting common obstacles. The chapters outline decision-making models used in college admissions, details those assessments commonly employed in admissions, and provides innovative perspectives on the future of

admissions. The book's multidisciplinary approach defines much-needed changes in admissions brought about by shifts in the makeup of student populations and in higher education itself. Rationales for moving away from traditional assessments used in admissions and expanding the criteria used to ensure a student's academic success are discussed. Readers will come away with an understanding of the current issues, philosophies, and historical circumstances facing higher education admissions across the globe and will be equipped to contemplate and react to future possibilities and opportunities.
