Bioprocess Technology combines concepts and ideas from biology, engineering, materials science, and clinical processes. The industrial use of biological processes utilising living cells or their components to achieve desired substrate transformations is known as bioprocess technology. Bioprocesses provide several benefits over standard chemical processes, including the need for moderate reaction conditions, increased specificity and efficiency, and the production of renewable by-products (biomass). Bioprocesses' potential has been broadened and extended thanks to the introduction of recombinant DNA technology. Bioprocesses are now widely employed in a variety of commercial biotechnology disciplines, including the synthesis of enzymes (used in food processing and waste management, for example) and antibiotics. Bioprocesses may find applications in other sectors where chemical processes are now applied as methodologies and equipment improve. Many of biotechnology's potential applications are created through laboratory processes that yield very modest quantities of valuable chemicals. As bioprocess technology advances, particularly separation and purification techniques, commercial firms will be able to produce these substances in large quantities at a low cost, allowing them to be used in medical research, food processing, agriculture, pharmaceutical development, waste management, and a variety of other fields of science and industry.

In the heart of Lutyens' Delhi sits Jehangir Rangoonwalla, enlightened dispenser of tea, wisdom, and second-hand books. Among his customers are Brighu, a postmodern Ibn Batuta looking for obscure collectibles and a love life; Digital Dutta who lives mostly in his head, torn between Karl Marx and an HI-B visa; and the newly-married Shintu, looking for the ultimate aphrodisiac in the seedy by-lanes of old Delhi. Played out in the corridors of Connaught Place and Calcutta, the story captures the alienation and fragmented reality of urban life through an imaginative alchemy of text and image.

Son of a famous father. Father of a famous son. I am the hyphen between them. Only, Rishi Kapoor was and is so much more. Few actors in Hindi cinema have had this sort of a career arc: from the gawky adolescent pining for his schoolteacher (*Mera Naam Joker*, 1970) to the naughty ninety-year-old (Kapoor & Sons, 2016), Rishi Kapoor has regaled audiences for close to fifty years. He won a National Award for his debut, became an overnight sensation with his first film as a leading man (*Bobby*, 1973), and carved a niche for himself with a string of romantic musical blockbusters in an era known for its angst-ridden films. He was the youth icon that is still the toast of the satellite TV circuit. The songs he lip-synced are the bread and butter of all radio stations even today. Then there was the second coming after a brief hiatus in the 1990s - as one of the finest actors in mainstream Hindi cinema with powerhouse performances in films like *Do Dooni Chaar*, *D-Day*, *Agneepath* and others. Characteristically candid, Rishi Kapoor brings Punjabi brio to the writing of *Khullam Khulla*. This is as up close and personal a biography as any fan could have hoped for. He writes about growing up in the shadow of a legendary father, skipping school to act in *Mera Naam Joker*, the workings of the musical hits of the era, an encounter with Dawood Ibrahim, his heroines (their working relationship, the gossip and the frisson that was sometimes real), his approach to his craft, his tryst with clinical depression, and more. A foreword

by Ranbir Kapoor and a stirring afterword by Neetu Singh bookend the warmest, most dil se biography an Indian star has ever penned.

Kolar Gold Fields is a small mining town in the erstwhile Mysore State (now known as Karnataka) in India. It was owned by the John Taylor and Sons Company, a British Mining Firm for more than a century. It was well known for its Colonial ambience and was called Little England due to its British and Anglo-Indian population. It was one of India's earliest industrialized towns and was unique for its secular and egalitarian society. Aptly named Kolar Gold Fields Down Memory Lane the book undertakes a nostalgic journey right from the days of the origins of the Kolar Gold Mines, its historical and mythological connections, its golden progress through the years under the John Taylor and Sons Company, its gradual decline, and the final closure of the once prosperous Kolar Gold Mining Company in 2003. Thus ending a golden chapter in History, which now lies buried in the annals of time. It then moves on to the Anglo-Indian Community (a living legacy of the British Raj) in the early days of KGF. It brings out vividly the glorious and cosmopolitan life led by that tiny vibrant community in KGF who lived in sprawling bungalows with beautiful gardens and domestic helpers at their beck and call. It recalls the grand Christmas Balls and Dances held at the Skating Rink and the Jam Sessions and Pound Parties in Buffalo Lodge. It finally focuses on the author's childhood memories of growing up in KGF in the 1950s and 60s. It reminds one of life's many simple pleasures home, family, school, playmates, entertainments, games, etc. It recalls memories of old familiar haunts and landmarks of KGF and the people who were an indispensable part of life in those days. It succeeds in preserving the nuances of a bygone era.

In *The Forgotten Cities of Delhi*, book two of the *Where Stones Speak* trilogy covers historical trails in Siri, Jahanpanah, Tughlaqabad, Firozabad, Din Panah, Shergarh and Hazrat Nizamuddin Basti. In her trademark style, Rana Safvi combines narrative history with Sufi couplets and takes you on a walk across the first city of Mehrauli and Firozabad. This period was a major step towards integration of two distinct cultures towards a culture called Indo-Islamic by many historians. In the latter half of this volume, she tells us stories from an area and an era that's perhaps the richest in Delhi's archaeological history - Shahjahanabad and Firozabad on one end, and Jahanpanah and Siri on the other - a stretch that's today dotted with tombs, dargahs and the ruins of the Purana Qila. This area also houses the famous Humayun's tomb and the center of Delhi's spiritual trail: the Hazrat Nizamuddin Dargah.
