"Revelatory, terrifying, but, ultimately, hopeful."
-Elizabeth Kolbert, Pulitzer

Prize-winning author of THE SIXTH EXTINCTION
From the author of Junkyard Planet, a journey into the surprising afterlives of our former possessions.
Downsizing. Decluttering. Discarding.
Sooner or later, all of us are faced with things we no longer need or want.
But when we drop our old clothes and other items off at a local donation

center, where do they go?
Sometimes across the country-or even halfway across the world-to people and places who find value in what we leave behind. In Secondhand, journalist Adam Minter takes us on an unexpected adventure into the often-hidden, multibillion-dollar industry of reuse: thrift stores in the American Southwest to vintage shops in Tokyo,

flea markets in Southeast Asia to used-goods enterprises in Ghana, and more. Along the way, Minter meets the fascinating people who handle-and profit from-our rising tide of discarded stuff, and asks a pressing question: In a world that craves shiny and new, is there room for it all? Secondhand offers hopeful answers and

hard truths. A build a history of the stuff we've used and a contemplation of why we keep buying more, it also reveals the marketing practices, design failures, and racial prejudices that push used items into landfills instead of new homes. Secondhand shows us that it doesn't have to be this way, and what really needs to change to

sustainable future free of excess stuff. *Laptop Repair Complete Guide* Computing McGraw-Hill InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

A+ Guide to Managing/Maintaining Your PC Enhanced-Itt (Spl) Emereo Publishing
If you have plenty of life experience, but not as much computer experience, this is your perfect Windows 8 PC guidebook!
Paul McFedries explains all the basics in a friendly, relaxed tone that makes you feel at home, without ever patronizing you. Larger print and

clear zoomed-in images help you quickly find what you're looking for, and get to the point immediately. Planning to buy a new computer? McFedries' easy, up-to-date Buyer's Guide will help you choose the right equipment at the right price. Already have your new computer? You'll find dozens of simple tips, tricks, and shortcuts for

every aspect of living with it. Step by step, McFedries shows you how to easily organize and manage all your digital photos, music, and movies. You'll learn great new ways to work, learn, and play online... how to safely use Facebook and other social networks... and how to keep your computer secure and private. McFedries even teaches simple PC tro

ubleshooting skills that could someday save you hundreds of dollars in repair costs! Why should kids have all the fun? Paul McFedries, president of Logophilia Limited, is a technical writer, passionate computer tinkerer, and Windows expert. He has authored or co-authored more than 70 computer books, selling more than 4 million

copies worldwide. His most recent books include *Using iPhone*, *Using the Microsoft Office Web Apps*, *My Office 2013 RT*, and *Windows 8 In Depth*. He also runs wordspy.com, a website that tracks new words and phrases entering the English language. *Occupational Outlook Handbook* John Wiley & Sons The latest knowledge for all those dealing with

BUILD IT. FIX it. OWN IT. A Beginner's Guide to Building and Upgrading a PC Build It. Fix It. Own It. is the ultimate beginner's guide to building and fixing your own PC. With a friendly, knowledgeable tone, this book shows the beginning PC builder everything

he or she needs to know to build a computer or upgrade an existing one. We step you through the parts that lurk inside a PC, from the motherboard and power supply to the CPU, memory, hard drive, video card, sound card, and networking hardware. In each case, you will learn how the hardware works, what it does, what types of hardware are available, and what to look for when buying the hardware. Then we walk you step-by-step through a series of PC building projects. We show you how to build five different types of PC: a basic business PC, a home theater PC, a high-performance PC, a killer gaming PC, and a budget PC. And if you are building a new PC from scratch isn't in your budget, we show you how to resurrect an old PC by swapping out a few key components. When you have your PC built and running, we show you how to set up a wireless network and the BIOS and maintain your new rig. Build It. Fix It. Own It. is
