In the 1720s and 1730s, Jean-Baptiste Oudry established himself as the preeminent painter in France of hunts, animals, still lifes, and landscapes. Oudry's Painted Menagerie focuses on a suite of eleven life-size portraits of exotic animals from the royal menagerie at Versailles, painted by Oudry between 1739 and 1752. These paintings eventually found their way into the ducal collection in Schwerin,

Germany. Among them is the magnificent portrait of Clara, an Indian rhinoceros who became a celebrity in mid-eighteenth-century Europe. Her portrait has been out of public view for more than a century, and it is presented here in its newly conserved state.

Getting someone to tell the truth is an essential skill that very few people possess. In the boardroom, classroom, or our own homes, every day we interact with others and try to get the truth from them.

People are often untruthful out of fear of negative consequences associated with divulging information. But if a person is made to forget the long-term outcomes of lying, he or she can be influenced to disclose sensitive information

that's being withheld. The aim is to encourage the person to remain in short-term thinking mode, shifting focus away from the long-term ramifications of telling the truth. As former CIA agents and bestselling authors of *Spy the Lie*, Philip Houston, Mike Floyd, and Susan Carnicero are among the world's best at detecting deceptive behavior and eliciting the truth from even the most accomplished liars. *Get the Truth* is a step-by-step guide that empowers readers to elicit the truth from others. It also chronicles the fascinating story of how the authors used a methodology Houston developed to elicit the truth in

the counterterrorism and criminal investigation realms, and how these techniques can be applied to our daily lives. Using thrilling anecdotes from their careers in counterintelligence, and with easy-to-follow instructions, the authors provide a foolproof means of getting absolutely anybody to give an honest answer. *Get the Truth* is the easy and effective way to learn how to get the truth every time. Why do we forget about people when we talk about innovation? Innovation has

been a popular subject for the last years. Bruce Nussbaum, perhaps exaggerating, said "Innovation died in 2008, killed off by overuse, misuse, narrowness, incrementalism and failure to evolve. It was done by CEOs, consultants, marketers, advertisers and business journalists who degraded and devalued the idea by conflating it with change, technology, design, globalization, trendiness, and anything new. It was done by an obsession with measurement, metrics and maths and a demand for

predictability in an unpredictable world.” If so, why another book on innovation? Because it is not one more book on the subject! It is a book that does not talk about innovation, but about people. Is there anything as important as people when innovating? This book describes how to create a true culture of innovation, a culture where innovation is not an objective, but a consequence.

Flourishing from A.D. 1 to 700, the Recuay inhabited lands in

northern Peru just below the imposing glaciers of the highest mountain chain in the tropics. Thriving on an economy of high-altitude crops and camelid herding, they left behind finely made artworks and grand palatial buildings with an unprecedented aesthetic and a high degree of technical sophistication. In this first in-depth study of these peoples, George Lau situates the Recuay within the great diversification of cultural styles associated with the Early Intermediate Period, provides new and significant evidence to evaluate models of social complexity, and offers fresh theories about life, settlement,

art, and cosmology in the high Andes. Lau crafts a nuanced social and historical model in order to evaluate the record of Recuay developments as part of a wider Andean prehistory. He analyzes the rise and decline of Recuay groups as well as their special interactions with the Andean landscape. Their coherence was expressed as shared culture, community, and corporate identity, but Lau also reveals its diversity through time and space in order to challenge the monolithic characterizations of Recuay society pervasive in the literature today. Many of the innovations in Recuay culture,

revealed for the first time in this landmark volume, left a lasting impact on Andean history and continue to have relevance today. The author highlights the ways that material things intervened in ancient social and political life, rather than being merely passive reflections of historical change, to show that Recuay public art, exchange, technological innovations, warfare, and religion offer key insights into the emergence of social hierarchy and chiefly leadership and the formation, interaction, and later dissolution of large discrete polities. By presenting Recuay artifacts as fundamentally

social in the sense of creating and negotiating relations among persons, places, and things, he recognizes in the complexities of the past an enduring order and intelligence that shape the contours of history.

PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the

complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

Knowledge Management (KM) is the art and science of utilizing knowledge as the most important resource towards gaining competitive advantage in today's

business environment. Despite the huge and growing interest in KM, there has been no serious attempt to bridge theory and practice, the practices of East and West, the soft side (organizational capabilities) with the hard side (information technology), or the practices of large companies with start-ups. Until now. Written by the Dean of Hitotsubashi Business School in Tokyo, the world's leading centre of KM, and featuring contributions from thought leaders around the world,

this book will provide a synthesis towards the emerging field of KM. It brings together the latest trends in the field and re-ignites the debate on the future form of knowledge management.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through

the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40

minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with

spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. *Disciple IV* St. Martin's Press The ideal way to try Collins Big Cat, to plug gaps and to refresh your reading resources at unbeatable prices.
