Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. The purpose of this manual is to document methodology and to serve as a reference for the laboratory analyst. The standard methods described in this SSIR No. 42, Soil Survey Laboratory Methods Manual, Version 4.0 replaces as a methods reference all earlier versions of the SSIR No. 42 (1989, 1992, and 1996, respectively) and SSIR No. 1, Procedures for Collecting Soil Samples and Methods of Analysis for Soil Survey (1972, 1982, and 1984). All SSL methods are performed with methodologies appropriate for the specific purpose. The SSL SOP's are standard methods, peer-recognized methods, SSL-developed methods, and/or specified methods in soil taxonomy (Soil Survey Staff, 1999). An earlier version of this manual (1996) also served as the primary document from which a companion manual, Soil Survey Laboratory Information Manual (SSIR No. 45, 1995), was developed. The SSIR No. 45 describes in greater detail the application of SSL data. Trade names are used in the manual solely for the purpose of providing specific information. Whether offering up the lighter side of an emergency room trip or taking a few jolly jabs at the task of sewing, humorist Dorothy Monroe is just the antidote for all of us who are familiar with life's many little catastrophes. Cobwebs on the Chandelier serves up a collection of 37 essays that span a fifty-year marriage, each finding the frequently hidden laugh in dealing with mute teenagers, escalating home repair bills, never-ending science fairs, and more than one fender bender. Was it getting married on April Fools' Day that set the tone for a family life infused with plenty of mishaps and just as much mirth? With droll wit and warm heart, this canny, clear-eyed writer pens and sends up, a life endured, survived—and, above all, enjoyed. Cobwebs on the

Chandelier will delight readers with its wry recollections of an action-packed family life with four kids, a procession of pets, and a series of misadventures that are likely to plague anyone charged with juggling roles as household mechanic, resident psychologist, weather forecaster, construction foreman, dispute resolution mediator, and more. A family train trip turns into a sick bed on wheels. A last minute attempt to clean a chandelier for a dinner party puts the hostess under the table before the party begins. A preachy attitude toward a teenaged son's driving comes crashing down on the writer's own driving confidence. As Monroe relives decades of household hijinks, battles with the elements, and more, her comic relief comes to the rescue for her husband, her four children, and her. There is no situation that Monroe can't get a rise out of. Throughout, this modern-day Erma Bombeck shares a host of revelations that always ring true, while they frequently coax an irrepressible grin. For example, a bird on the wing is worth two in the cage, and the time it takes to assemble a do-it-yourself project can be divined by the size of the instruction page. Engaging, uplifting, and teeming with good fun, essays, covering a fifty-year-span, not only depict the funny side of life, they also affirm the essential goodness of marriage and family. All in all, Cobwebs on the Chandelier offers side-splitting proof that anything that does not kill you, just might make you chuckle. It's certain to resonate and tickle anyone who has slogged through a pile of laundry or two, yet still adores her family.

The U.S. Public Land Survey System (USPLSS) was born in 1785 and has been evolving ever since. The General Land Office (GLO) and, later, the Bureau of Land Management's (BLM) system of laying out our sections, townships and ranges has been refined, changed, modified, improved, and, of course, has benefited from improvements in equipment and advances in technology. There have been eight editions of USPLSS instructions published from 1785 - 2009 by either the GLO or the BLM. The results are regional differences in the USPLSS across our United States. from Ohio (where our System began with its initial field surveys) to Alaska (where surveying work continues). And, there are differences in the USPLSS from state to state as legislatures have enacted statutes pertaining to the System in their state, and each state's courts have interpreted the statutes, or, established a resurvey legal principle through case law. While the broad view of the USPLSS is similar, each state will have its own peculiarities, specific to only that state. Textbooks and reference manuals about the USPLSS in general and about generic resurvey procedures on the System are available. Textbooks or reference manuals about the USPLSS which are state-specific and cover the original GLO instructions, resurvey procedures and applicable state statutes and case law are not available. Until now...for Missouri. This book is a complete synthesis of the USPLSS for Missouri. Briefly, it contains: The early history of the System, from 1785 - 1815; The French and Spanish in Pre-America Missouri; The "shaping" of Missouri...its boundaries; Laying out the original GLO surveys; GLO protraction and platting; Missouri court decisions relative to the USPLSS; Historical review of Missouri statute law relative to the USPLSS (1814 to date); "Best practices" for reestablishing lost and restoring obliterated corners of the USPLSS; Example calculation problems applying coordinate geometry to lost corner reestablishment; Example GLO plats with notes. This comprehensive coverage of the USPLSS for Missouri will provide the surveying student, educator and practitioner (and those preparing for licensure as a Professional Surveyor in Missouri) with a single book that will fill the reference void that existed in the past. The book has seven chapters, three tables, twenty-eight figures, forty-eight protraction and example problems, eighty-nine example GLO plats, four appendices and a Glossary and "Further Reading" list.

John Podlaski's Vietnam War novel brings back John (' Polack ') Kowalski, the central character in ' Cherries ', and introduces us to Louis (' LG ') Gladwell, his irrepressible black friend. Polack and LG are a ' Salt and Pepper ' team, best buddies and brothers in a way that only those who have fought side-by-side in a war can ever truly understand. The year is 1970, and the story follows the two soldiers - impressionable Detroit teenagers - during their long night in a Listening Post (' LP '), some 500 meters beyond the bunker line of the new firebase. Their assignment as a "human early warning system", is to listen for enemy activity and forewarn the base of any potential dangers. As they were new to the " Iron Triangle " and its reputation, little did they know that units before them lost dozens of soldiers in this nightly high-risk task and referred to those assigned as "bait for the enemy" and "sacrificial lambs". Sitting in the pitch black tropical jungle - with visibility at less than two feet - John's imagination takes hold throughout the agonizing night, and at times, transports him back to some of his most vivid childhood memories - innocent, but equally terrifying at the time. As kids, we instinctively run as fast as we can to escape imaginary or perceived danger, but as soldiers, men are trained to conquer their fears and develop the confidence to stand their ground and fight. Running is not an option. In 'When Can I Stop Running?' the author juxtaposes his nightmarish hours in the bush with some of his most heart-pounding childhood escapades. Readers will relate to the humorous childish antics with amusement; military veterans will find themselves relating to both of the entertaining and compelling recollections.

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic.
