How big media uses technology and the law to lock down culture and control creativity. ""Free Culture is an entertaining and important look at the past and future of the cold war between the media industry and new technologies."" - Marc Andreessen, cofounder of Netscape. ""Free Culture goes beyond illuminating the catastrophe to our culture of increasing regulation to show examples of how we can make a different future. These new-style heroes and examples are rooted in the traditions of the founding fathers in ways that seem obvious after reading this book. Recommended reading to those trying to unravel the shrill hype around 'intellectual property.'"" - Brewster Kahle, founder of the Internet Archive. The curious history of magic and the powers of the occult, witchcraft, ritual, and the imagination, from their earliest appearances to modern times From the days of the earliest Paleolithic cave rituals, magic has gripped the imagination. Magic and magicians appear in early Babylonian texts, the Bible, Judaism, and Islam. Secret words, spells, and incantations lie at the heart of nearly every mythological tradition. But for every genuine magus there is an impostor. During the Middle Ages, religion, science, and magic were difficult to set apart. The Middle Ages also saw the pursuit of alchemy—the magical transformation of base materials—which led to a fascination with the occult, Freemasonry, and Rosicrucianism. The turn of the twentieth century witnessed a return to earlier magical traditions, and today, magic means many things: contemporary Wicca is practiced widely as a modern pagan religion in Europe and the US; "magic" also stretches to include the nonspiritual, rapid-fire sleight of hand performed by slick stage magicians who fill vast arenas. The Occult, Witchcraft and Magic is packed with authoritative text and a huge and inspired selection of images, some chosen from unusual sources, including some of the best-known representations of magic and the occult from around the world spanning ancient to modern times.

It's a new era of business and consumerism—and you play a role in defining it Today's biggest trends—the mobile web, social media, real-time—have produced a new consumer landscape. The End of Business As Usual explores this complex information revolution, how it has changed the future of business, media, and culture, and what you can do about it. "To be successful in business, you need to see what others don't. Start with this book. Someone's going to do it, why not you?" —Mark Cuban, owner of the Dallas Mavericks and Chairman of HDNet "Innovation has always changed the business landscape. People expect to access information anywhere, anytime, and on any device. Collaborative, cloud, and video technologies are leading this change. As Mr. Solis correctly writes, companies have to lead this change, not follow." —John Chambers, CEO of Cisco Systems, Inc. "Winning the hearts and minds of customers with new media experiences will turn them into your most valuable sales force. Solis's book is the map to unleash this treasure." —Peter Guber, author of Tell to Win: Connect, Persuade, and Triumph with the Hidden Power of Story "Your customers will share their experiences both good and bad. Now that everyone is connected, it's amplified and incredibly influential. This book will help you rethink your vision and mission to survive in a new era of digital Darwinism." —Mark Burnett, Television Executive Producer

The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
