Born and raised in the culinary capital of Milan, Italy, it was destiny that Luca inherited his passion for food and culinary exploration in his homeland. Luca's interest and passion for food commenced with his Mom and Nonna when he was just eight years old, taking his first few steps with them in the direction of becoming a chef. One of today's most successful chefs and food consultants in the world, this is Luca's journey from Milan, Italy to Australia and beyond, and how his food journey has made him one of the most sought after chefs. From what he learned as the basics from his mother and grandmother, to life in a different time growing up in Milan and holidays at Lake Como, to moving to London to establish himself to be one of the most credible chefs on Italian cuisine.

Who was Robin Hood? Romantic legend casts him as outlaw, archer, and hero of the people, living in Sherwood Forest with Friar Tuck, Little John and Maid Marian, stealing from the rich to give to the poor - but there is no historical proof to back this up. The early ballads portray a quite different figure: impulsive, violent, vengeful, with no concern

---

for the needy, no merry band, and no Maid Marian. Hodd provides a possible answer to this famous question, in the form of a medieval document rescued from a ruined church on the Somme, and translated from the original Latin. The testimony of an anonymous monk, it describes his time as a boy in the greenwood with a half-crazed bandit called Robert Hodd - who, following the thirteenth-century principles of the 'heresy of the Free Spirit', believes himself above God and beyond sin. Hodd and his crimes would have been forgotten without the boy's minstrel skills, and it is the old monk's cruel fate to know that not only has he given himself up to apostasy and shame, but that his ballads were responsible for turning a murderous felon into the most popular outlaw hero and folk legend of England, Robin Hood. Written with his characteristic depth and subtlety, his sure understanding of folklore, his precise command of detail, Adam Thorpe's ninth novel is both a thrilling re-examination of myth and a moving reminder of how human innocence and frailty fix and harden into history.

Managing Customers as Investments Walter de Gruyter

Introducing the global mind-set changing the way we do business. In this fascinating book, global entrepreneurship expert Daniel Isenberg presents a completely novel way to approach business building—with the insights and lessons learned from a worldwide cast of entrepreneurial characters. Not bound by a western, Silicon Valley stereotype, this group of courageous and energetic doers has created a global and diverse mix of companies destined to become tomorrow ' s leading organizations.

Worthless, Impossible, and Stupid is about how enterprising individuals from around the world see hidden value in situations where others do not, use that perception to develop products and services that people initially don ' t think they want, and ultimately go on to realize extraordinary value for themselves, their customers, and society as a whole. What these business builders have in common is a contrarian mind-set that allows them to create opportunities and succeed where others see nothing. Amazingly, this process repeats itself in one form or another countless times a day all over the world. From Albuquerque to Islamabad, you will travel with Isenberg to discover unusual yet practical insights that you can use in your own business. Meet the founders of Grameenphone in Bangladesh, PACIV in Puerto Rico, Sea to Table in New York, Actavis
