The Ben cao gang mu, compiled in the second half of the sixteenth century by a team led by the physician Li Shizhen (1518 – 1593) on the basis of previously published books and contemporary knowledge, is the largest encyclopedia of natural history in a long tradition of Chinese materia medica works. Its description of almost 1,900 pharmaceutically used natural and man-made substances marks the apex of the development of premodern Chinese pharmaceutical knowledge. The Ben cao gang mu dictionary offers access to this impressive work of 1,600,000 characters. This first book in a three-volume series analyzes the meaning of 4,500 historical illness terms.

Vampires, werewolves, shapeshifters, false goddesses, fairies, goblins; Soul Singer Lyric feared none of them. On the day he cast his Soul Song into the Verge to tie forever to one of the mysterious and powerful Vergers, something entirely unique occurred. For the first time in history, a Soul Singer cast so far through the Verge his Song landed in Hell itself and tied him to the very thing he'd pledged his life to fight. Now he has a year to find a way to sever a bond that is supposed to be eternal and unbreakable, if he doesn't, the Guild will consider him fallen and treat him like any other demon. As if this wasn't enough, Lyric, the demoness Acheron and the mysterious swordswoman, Cadence, learn of a prophecy that leads to them becoming inextricably tied up in the first supernatural war the earth has seen in centuries. From Boston to Louisiana to California, the Soul Singer and his companions are driven all the way to the second-sight city of Markhato, where free will kicks destiny in the teeth.

The Homilies of S. John Chrysostom, Archbishop of Constantinople, on the Epistle of S. Paul the Apostle to the Romans Mohr Siebeck
In this study, Michael J. Morris examines aspects of synoptic gospel demonology; specifically, human responses to demonic evil. It is clear that early Christian demonology can be more fully understood against the background of early Jewish traditions. In the Dead Sea Scrolls, for instance, there are two fundamental ways by which protection against demons is sought. The first anti-demonic method is "exorcism," and the second is characterized by its preventative nature and is typically referred to as "apotropaism." Although many contributions have been made on the topic of exorcism in the gospels, less attention has been paid to the presence of apotropaic features in the gospel texts. Therefore, Michael J. Morris offers a timely examination of apotropaic tradition in early Judaism and its significance for demonological material in the synoptic gospels.

Dictionary of the Ben cao gang mu, Volume 1 All India Radio, Bombay

Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a "filler" in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.

Ancient Palestine served as a land bridge between the continents of Asia, Africa, and Europe, and as a result, the ancient Israelites frequently interacted with speakers of non-Semitic languages, including Egyptian, Greek, Hittite and Luwian, Hurrian, Old Indic, and Old Iranian. This linguistic contact led the ancient Israelites to adopt non-Semitic words, many of which appear in the Hebrew Bible. Benjamin J. Noonan explores this process in *Non-Semitic Loanwords in the Hebrew Bible*, which presents a comprehensive, up-to-date, and linguistically informed analysis of the Hebrew Bible's non-Semitic terminology. In this volume, Noonan identifies all the Hebrew Bible's foreign loanwords and presents them in the form of an annotated lexicon. An appendix to the book analyzes words commonly proposed to be non-Semitic that are, in fact, Semitic, along with the reason for considering them as such. Noonan's study enriches our understanding of the lexical semantics of the Hebrew Bible's non-Semitic terminology, which leads to better translation and exegesis of the biblical text. It also enhances our linguistic understanding of the ancient world, in that the linguistic features it

discusses provide significant insight into the phonology, orthography, and morphology of the languages of the ancient Near East. Finally, by tying together linguistic evidence with textual and archaeological data, this work extends our picture of ancient Israel's interactions with non-Semitic peoples. A valuable resource for biblical scholars, historians, archaeologists, and others interested in linguistic and cultural contact between the ancient Israelites and non-Semitic peoples, this book provides significant insight into foreign contact in ancient Israel.

Judit M. Blair challenges the common view that azazel, lilith, deber, qeteb and reshef are names of 'demons' in the Hebrew Bible, claiming that major works on the subject proceed from the assumption that these terms were demons in the ancient Near East and /or later, or that they were deities who became 'demonised' by the authors of the Hebrew Bible. Without questioning the validity of traditional methods she supplements the existing works by making an exegesis based on a close reading of all the relevant texts of the Hebrew Bible in which these five terms occur. Close attention is paid to the linguistic, semantic, and structural levels of the texts. The emphasis is on a close examination of the immediate context in order to determine the function of each term. The author notes different signals within the texts, especially the use of the various poetical/rhetorical devices: personification, parallelism, similes, irony, and mythological elements.
