ancient Israelites frequently interacted with speakers of non-Semitic languages, including Egyptian, Greek, Hittite and Luwian, Hurrian, Old Indic, and Old Iranian. This linguistic contact led the ancient Israelites to adopt non-Semitic words, many of which appear in the Hebrew Bible. Benjamin J. Noonan explores this process in *Non-Semitic Loanwords in the Hebrew Bible*, which presents a comprehensive, up-to-date, and linguistically informed analysis of the Hebrew Bible's non-Semitic terminology. In this volume, Noonan identifies all the Hebrew Bible's foreign loanwords and presents them in the form of an annotated

lexicon. An appendix to the book analyzes words commonly proposed to be non-Semitic that are, in fact, Semitic, along with the reason for considering them as such. Noonan's study enriches our understanding of the lexical semantics of the Hebrew Bible's non-Semitic terminology, which leads to better translation and exegesis of the biblical text. It also enhances our linguistic understanding of the ancient world, in that the linguistic features it discusses provide significant insight into the phonology, orthography, and morphology of the languages of the ancient Near East. Finally, by tying together linguistic

evidence with textual and archaeological data, this work extends our picture of ancient Israel's interactions with non-Semitic peoples. A valuable resource for biblical scholars, historians, archaeologists, and others interested in linguistic and cultural contact between the ancient Israelites and non-Semitic peoples, this book provides significant insight into foreign contact in ancient Israel.

Ecology and Evolution of Cancer is a timely work outlining ideas that not only represent a substantial and original contribution to the fields of evolution, ecology, and cancer, but also goes beyond by connecting the interfaces of these disciplines. This work engages the expertise of a multidisciplinary research team to collate and review the latest knowledge and developments in this exciting research field. The evolutionary perspective of cancer has gained significant international recognition and interest, which is fully understandable given

that somatic cellular selection and evolution are elegant explanations for carcinogenesis. Cancer is now generally accepted to be an evolutionary and ecological process with complex interactions between tumor cells and their environment sharing many similarities with organismal evolution. As a critical contribution to this field of research the book is important and relevant for the applications of evolutionary biology to understand the origin of cancers, to control neoplastic progression, and to prevent therapeutic failures. Covers all

aspects of the evolution of cancer, appealing to researchers seeking to understand its origins and effects of treatments on its progression, as well as to lecturers in evolutionary medicine Functions as both an introduction to cancer and evolution and a review of the current research on this burgeoning, exciting field, presented by an international group of leading editors and contributors Improves understanding of the origin and the evolution of cancer, aiding efforts to determine how this disease interferes with biotic interactions

that govern ecosystems Highlights research that intends to apply evolutionary principles to help predict emergence and metastatic progression with the aim of improving therapies Down By the River Lehigh University Press As baby boomers gray, cinematic depictions of aging and the aged are on the rise. In the horror genre, fears of growing old take on fantastic proportions. Elderly characters are portrayed as either eccentric harbingers of doom--the crone who stops at nothing to restore her youth, the ancient ancestor

who haunts the living--or as frail victims. This collection of new essays explores how various filmic portrayals of aging, as an inescapable horror destined to overtake us all, reflect our complex attitudes toward growing old, along with its social, psychological and economic consequences. Theatre in Dublin, 1745 – 1820 Benjamin-Cummings Publishing Company Seduction is a complicated concept that is a part of the general human experience. Despite the prevalence of

seduction in our personal lives as well as within popular culture, the concept has not been widely discussed and researched as an academic field. Seduction in Popular Culture, Psychology, and Philosophy explores the concept of seduction and the many ways it can be understood, either as a social and individual practice, a psychological trait, or a schema for manipulation. Taking a cross-disciplinary approach, this publication features research-based

chapters relevant to sociologists, media professionals, psychologists, philosophers, advertising professionals, researchers, and graduate level students studying in related areas. Identifies the many ways in which unexpected outcomes are endemic to international relations due to the complexity of world politics. In this comprehensive and unique theory-practice study, Ofer Israeli examines complex effects of international relations relating to various indirect—intended and unintended—consequences of intentional human action. These effects

may be desirable or undesirable, overt or covert, anticipated or surprising, foreseeable but unanticipated, and anticipated but simultaneously neglected or discounted. Israeli focuses on six case studies from the Middle East, analyzing the unexpected and accidental results of interventions in this region by the United States, the United Kingdom, and other Western powers during the Cold War. From this research, he develops a complex-causal mechanism or practical tool that countries may use to implement foreign policy, with the goal of reducing the number of conflicts and wars globally, especially in the Middle East. Ofer Israeli is a Lecturer at the Interdisciplinary

Center in Herzliya and a Senior Lecturer at Ashkelon Academic College. He also teaches at the Israel Defense Forces Academy for Strategic Commanders, the Israeli Air Force Academy, and the Israeli Naval Academy. His books include International Relations Theory of War. Giving the Devil his Due Crown (Book). In this comprehensive artist-by-artist listing, you'll find the more than 2,300 artists and 17,800 songs that debuted on Billboard's country singles charts from 1944-2005. Not only does it cover the complete chart careers of legendary country greats such as Johnny Cash,

Tammy Wynette, Merle Haggard, Alan Jackson, and Reba McEntire, it also introduces fresh country voices like Gretchen Wilson, Bobby Pinson, Keith Anderson and others. This unique country compilation is a priceless gold mine of stats and facts, all presented in a handy, easy-to-use format!

A theologian explores the holidays and rituals

of his wife ' s Jewish faith in an " accessible and engaging " memoir told " with humor and a scholar ' s insight " (Los Angeles Times). As a member of an interfaith household, eminent Christian theologian, and religion scholar, National Book Award finalist Harvey Cox has had ample opportunity to reflect upon the essence of Judaism and its complex relationship to Christianity. Organized around the Jewish calendar from Rosh

Hashanah to Yom ha-Atzma í ut, Common Prayers illuminates the meanings of Jewish holidays as well as traditions surrounding milestone events such as death and marriage. Describing in elegant, accessible language the holidays ' personal, historical, and spiritual significance and the lessons they offer us, Cox " is instructive and enlightening, revealing the depth and passion of his religious thought and practice " (Boston Herald). As seen through his

eyes, the Jewish holidays offer a wellspring of discovery and reflection for every reader, Jewish and non-Jewish alike.

“ Cox not only provides a clear guide to Judaism for ‘ perplexed gentiles ’ but convincingly argues that ‘ appreciating Judaism, both its history and its present manifestation, is essential to a full understanding of Christianity ’ . . .

An important new book by a major theologian; highly recommended. ”

—Library Journal

“ Cox ’ s insights into Judaism and

Christianity, as both an insider and an outsider, are dazzling. ”
