She had three great reasons to make it to the top. Love, Sex, and Money. What more does life hold and how can anyone woman have it all? It begins on graduation day in Berkeley: the story of three women, friends for life, whose passions and ambitions are fueled by love, sex, and money, and whose dreams are shaped by the torrent of history that changed women's lives forever. Pam dreams about what no woman has ever achieved-creating new buildings in that city of buildings, New York. Escaping from the poverty of her youth, Pam races east across the continent to join her father, already a real estate giant, but she is stunned by his rejection. Alone, with no resources but her unique beauty and brilliant mind, she must make a detour in her plans through the world of high-fashion modeling. A torrid affair with a dangerous and powerful man from the world of organized crime threatens to destroy her, but the city-building dream remains her guiding star. The friendship of her classmates is the one constant in her turbulent life. Trish, born into a conservative Southern California family, is drawn by her artistic gift to the "love culture" that still exists in Northern California. Her uncontrollable passion for a seductive art professor and a degrading interlude with drugs trap her in a profound despair from which she struggles to

return to her artistic vision. Hillary, who discovers domestic fulfillment in an early marriage, is content to watch her friends succeed professionally, until a desire to protect her family and a love for environmental justice whet her appetite for a political career. Three women, three dreams, three destinies-love, sex, and money form the tapestry of their lives, but friendship remains the loom in this unforgettable tale of pleasure, passion,

and power.

The Change Process in Psychotherapy During Troubling Times invites readers to consider what it is psychotherapists do that leads to change. The book highlights different theoretical approaches, questions old

paradigms, and illustrates the change process when working with people facing a range of life challenges such as the survivors of childhood trauma, refugees, and people dealing with traumatic loss. Moving between consideration of micro-moments when working with individual clients and bigger questions about how to promote change in the face of current world problems, it addresses issues that touch us all. At the same time, the book acknowledges the unprecedented challenges in today ' s world such as the pace of change, the thousands of displaced people who seek refuge in other countries, the illness and loss caused by the coronavirus pandemic, and the impact of climate change on
