She's Yours For The Taking: A Man's Guide to the Seduction and Sexual Enchantment of Women goes beyond the juvenile notion of just "picking up women". It's a complete Dating and Mating Handbook that a man can refer to at every step along the way to seduction: from how to first engage a woman in a manner that makes an intriguing impression on her... to guiding her straight into his arms by feeding her the proper romantic signals that she craves at every step along the way. And it's all done with paint-by-numbers ease! To begin, SYFT presents a very low-pressure cold-meeting move called Pull Tabbing. This easy-going, casual socializing technique will equip you with a solid plan of social action that can be stored away in your head all ready to spring into action. It's especially effective for making hay with those sudden "gotcha" chances to meet women that happen when you least expect them... at the mall, in school or even out on the street. Pull Tabbing shows you how

to flirt in an appropriate and friendly manner that can capture a woman's immediate interest -- and without having to hang your Ego out to dry in the process! Pulling a phone number will seem like a natural extension of the flirt, rather than an awkward intrusion into her life. Then you'll learn about the Three Date Master Seduction: Action, Connection and Romantic-style get together that appeal to her deepest romantic instincts like a lock-and-key. Understanding this correct approach to her heart can quickly forge that elusive bond of "chemistry" that is often lacking on first dates that fizzle. She's Yours then completes the journey in the bedroom with a galaxy of erotic moves that are designed to send her straight into orgasmic orbit... while turning YOU into her favorite new addiction! No matter what your current level of social or romantic skill, SYFT will show you how to take it to the next level and turn any girl that you've got your eye on into the girl of your dreams.

From the mid-nineteenth century on, America and Japan were caught in an extraordinary political, military and economic duel. This clash was characterised by a cultural incompatibility that was to haunt the negotiations of their two leaders, Emperor Hirohito and General MacArthur. Hirohito was a remarkable man. Diffident, uncharismatic and apparently obtuse, he survived as god-ruler of Japan for six decades through internal strife, war, defeat, occupation and economic victory. But Hirohito met his equal in MacArthur. Brash and domineering, MacArthur merited the honorary Japanese epithet shogun or 'army leader' for his almost single-handed six year rule over Japan. In this absorbing dual biography Robert Harvey traces their tense and complex relationship. His broad scope encompasses two great nations in war and peace - a momentous period of history which provides illuminating insight into American actions across the world today.

As the Sex Pistols were breaking up, Britain was entering a new era. Punk's filth and fury had burned brightly and briefly; soon a new underground offered a more sustained and constructive challenge. As future-focused, independently released singles appeared in the wake of the Sex Pistols, there were high hopes in magazines like NME and the DIY fanzine media spawned by punk. *Post-Punk, Politics and Pleasure in Britain* explores how post-punk's politics developed into the 1980s. Illustrating that the movement's monochrome gloom was illuminated by residual flickers of countercultural utopianism, it situates post-punk in the ideological crossfire of a key political struggle of the era: a battle over pleasure and freedom between emerging Thatcherism and libertarian, feminist and countercultural movements dating back to the post-war New Left. Case studies on bands including Gang of

Four, The Fall and the Slits and labels like Rough Trade move sensitively between close reading, historical context and analysis of who made post-punk and how it was produced and mediated. The book examines, too, how the struggles of post-punk resonate down to the present.

David Bordwell's new book is at once a history of film criticism, an analysis of how critics interpret film, and a proposal for an alternative program for film studies. It is an anatomy of film criticism meant to reset the agenda for film scholarship. As such *Making Meaning* should be a landmark book, a focus for debate from which future film study will evolve. Bordwell systematically maps different strategies for interpreting films and making meaning, illustrating his points with a vast array of examples from Western film criticism. Following an introductory chapter that sets out the terms and scope of the argument, Bordwell goes on to show how critical institutions constrain and contain the very practices they promote, and how the interpretation of texts has become a central preoccupation of the humanities. He gives lucid accounts of the development of film criticism in France, Britain, and the United States since World War II; analyzes this development through two important types of criticism, thematic-explicatory and symptomatic; and shows that both types, usually seen as antithetical, in fact have much in common. These diverse and even warring schools of criticism share conventional, rhetorical, and problem-solving techniques--a point that has broad-ranging implications for the way critics practice their art. The book concludes with a survey of the alternatives to criticism based on interpretation and, finally, with the proposal that a historical poetics of cinema offers the most fruitful framework for film analysis.

Beginning with the spectacle of hysteria, moving through the perversions of fetishism, masochism, and sadism, and ending with paranoia and psychosis, this book explores the ways that conflicts with the Oedipal law erupt on the body and in language in Chaucer's Canterbury Tales, for Chaucer's tales are rife with issues of mastery and control that emerge as conflicts not only between authority and experience but also between power and knowledge, word and flesh, rule books and reason, man and woman, same and other - conflicts that erupt in a macabre sprawl of broken bones, dismembered bodies, cut throats, and decapitations. Like the macabre sprawl of conflict in the Canterbury Tales, this book brings together a number of conflicting modes of thinking and writing through the surprising and perhaps disconcerting use of "shadow" chapters that speak to or against the four "central" chapters, creating both dialogue and interruption.

Why and how do contemporary questions of culture so readily become highly charged questions of identity? The question of cultural identity lies at the heart of current debates in cultural studies and social theory. At issue is whether those identities which defined the social and cultural world of modern societies for so long - distinctive identities of gender, sexuality, race, class and nationality - are in decline, giving rise to new forms of identification and fragmenting the modern individual as a unified subject. Questions of Cultural Identity offers a wide-ranging exploration of this issue. Stuart Hall firstly outlines the reasons why the question of identity is so compelling and yet so problematic. The cast of outstanding contributors then interrogate different dimensions of the crisis of identity; in so doing, they provide both theoretical and substantive insights into different approaches to understanding identity.
