Featuring more than 250 photographs and 50 anatomical drawings, this revised edition of Deep Tissue Massage is the standard guide to the essentials of touch, biomechanics, and positioning options for a multitude of strategies to treat all major conditions encountered in a bodywork practice. The book is divided into three sections. “Fundamentals” covers basic skills of palpation, explaining the deeper layers of the body and presenting detailed instruction on working with these layers to release tension. This section gives clear information on the proper use of knuckles, fist, forearms, and elbows in preventing injury to the therapist. “Strategies” offers more precise protocols and treatment plans for the entire body with emphasis on client positioning options to stretch muscles rather than just kneading tissues. “Caveats” details areas in which the practitioner needs to exercise caution. Deep Tissue Massage presents a wealth of information in a way the therapist can immediately utilize. This new edition has been thoroughly revised and includes a preface to the new edition, a foreword, an index, a Suggested Reading list, and extended sections on integrating deep-tissue massage into bodywork practice and the psychology of treating injuries.

Simo HŠyhŠ (1905 Ð 2002) is the most famous sniper in the world. During the Winter War fought between Russia and Finland in 1939 Ð 1940 he had 542 confirmed kills with iron sights, a record that still stands today. He has been a role model for snipers all over the world and paved the way for them by demonstrating their significance on the battlefield. Simo HŠyhŠ was a man of action who spoke very little, but he was hugely respected by his men and his superiors and given many difficult missions, including taking out specific targets. Able to move silently and swiftly through the landscape, melting into the snowbound surroundings in his white camouflage fatigues, his aim was deadly and his quarry rarely escaped. The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire. He was promoted from corporal to second lieutenant and he was awarded the Cross of Kollaa. For sniping Simo HŠyhŠ only ever used his own m/28-30 rifle. Eventually his luck ran out and Simo received a serious head wound on March 6 1940, though he subsequently recovered. After the war Simo HŠyhŠ lead a quiet, unassuming life in farming and forestry. His roots were deep in the Finnish soil and he loved life in rural Finland. A true patriot, he epitomized the traits of a professional soldier, performing his duty and setting an example of bravery that personified the Finnish spirit when confronted by the Russian onslaught. The White Sniper fully explores Simo HŠyhŠŐs life, his exploits in the Winter War, the secrets behind his success including character and technique, and also includes a detailed look at his rifle itself. There are appendices on the basics of shooting, the impact of fire on the battlefield, battles on the Kollaa Front during the Winter War and a list of ranked snipers of the world.
