Turned (Book #1 in the Vampire Journals) Morgan Rice

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, The Secret of Our Success explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

*Fated (Book #11 in the Vampire Journals) Morgan Rice*

Indiana, 1818. Moonlight falls through the dense woods that surround a one-room cabin, where a nine-year-old Abraham Lincoln kneels at his suffering mother's bedside. She's been stricken with something the old-timers call "Milk Sickness." "My baby boy..." she whispers before dying. Only later will the grieving Abe learn that his mother's fatal affliction was actually the work of a vampire. When the truth becomes known to young Lincoln, he writes in his journal, "henceforth my life shall be one of rigorous study and devotion. I shall become a master of mind and body. And this mastery shall have but one purpose..." Gifted with his legendary height, strength, and skill with an ax, Abe sets out on a path of vengeance that will lead him all the way to the White House. While Abraham Lincoln is widely lauded for saving a Union and freeing millions of slaves, his valiant fight against the forces of the undead has remained in the shadows for hundreds of years. That is, until Seth Grahame-Smith stumbled upon The Secret Journal of Abraham Lincoln, and became the first living person to lay eyes on it in more than 140 years. Using the journal as his guide and writing in the grand biographical style of Doris Kearns Goodwin and David McCullough, Seth has reconstructed the true life story of our greatest president for the first time—all while revealing the hidden history behind the Civil War and uncovering the role vampires played in the birth, growth, and near-death of our nation.

According to the Bible, Eve was the first to heed Satan's advice to eat the forbidden fruit and thus responsible for all of humanity's subsequent miseries. The notion of woman as the Devil's accomplice is prominent throughout Christian history and has been used to legitimize the subordination of wives and daughters. In the nineteenth century, rebellious females performed counter-readings of this misogynist tradition. Lucifer was reconceptualized as a feminist liberator of womankind, and Eve became a heroine. In these reimaginings, Satan is an ally in the struggle against a tyrannical patriarchy supported by God the Father and his male priests. Per Faxneld shows how this Satanic feminism was expressed in a wide variety of nineteenth-century literary texts, autobiographies, pamphlets, newspaper articles, paintings, sculptures, and even artifacts of consumer culture like jewelry. He details how colorful figures like the suffragette Elizabeth Cady Stanton, gender-bending Theosophist H. P. Blavatsky, author Aino Kallas, actress Sarah Bernhardt, anti-clerical witch enthusiast Matilda Joslyn Gage, decadent marchioness Luisa Casati, and the Luciferian lesbian poetess Renée Vivien embraced these reimaginings. By exploring the connections between esotericism, literature, art and the political realm, Satanic Feminism sheds new light on neglected aspects of the intellectual history of feminism, Satanism, and revisionary mythmaking.
