Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, Baseball Haiku reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does Baseball Haiku evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, Baseball Haiku is an extraordinary treasure for any true baseball fan.

Encompassing Amazonian rainforests, Andean peaks, coastal lowlands, and the Galápagos Islands, Ecuador's geography is notably diverse. So too are its history, culture, and politics, all of which are examined from many perspectives in The Ecuador Reader. Spanning the years before the arrival of the Spanish in the early 1500s to the present, this rich anthology addresses colonialism, independence, the nation's integration into the world economy, and its tumultuous twentieth century. Interspersed among forty-eight written selections are more than three dozen images. The voices and creations of Ecuadorian politicians, writers, artists, scholars, activists, and journalists fill the Reader, from José María Velasco Ibarra, the nation's ultimate populist and five-time president, to Pancho Jaime, a political satirist; from Julio Jaramillo, a popular twentieth-century singer, to anonymous indigenous women artists who produced ceramics in the 1500s; and from the poems of Afro-Ecuadorians, to the fiction of the vanguardist Pablo Palacio, to a recipe for traditional Quiteño-style shrimp. The Reader includes an interview with Nina Pacari, the first indigenous woman elected to Ecuador's national assembly, and a reflection on how to balance tourism with the protection of the Galápagos Islands' magnificent ecosystem. Complementing selections by Ecuadorians, many never published in English, are samples of some of the best writing on Ecuador by outsiders, including an account of how an indigenous group with non-Inca origins came to see themselves as definitively Incan, an exploration of the fascination with the Andes from the 1700s to the present, chronicles of the less-than-exemplary behavior of U.S. corporations in Ecuador, an examination of Ecuadorians' overseas migration, and a look at the controversy surrounding the selection

of the first black Miss Ecuador.

They enjoyed tremendous notoriety during the period we call the Middle Ages. While the popular assortment of sins is not directly from scripture, they have been the subject of many a sermon, lecture, writing and art. In his book The Seven Deadly Sins: And Why We Love Them, Steinbacher examines each in detail. He gives examples of how they effect us and how we conduct ourselves in this world.
