Eighty years have passed since Mustafa Kemal Ataturk founded the Turkish Republic out of the ruins of the Ottoman Empire and set it on the path of modernisation. He was determined that his country should be accepted as a member of the family of civilised nations. Today Turkey is a rapidly developing country, an emergent market and a medium-sized regional power with the second strongest army in NATO. It is an open country which attracts millions of tourists, thousands of foreign businessmen and hundreds of researchers. They enjoy Turkish hospitality and experience its rich landscape and history, but many find it hard to form an overall picture of the country. In this sequel to his acclaimed biography of Ataturk, Andrew Mango provides such an overall portrait, tracing the republic's development since the death of its founder and bringing to life the Turkish people and their vibrant society. The Turks Today interprets the latest academic research for a broader audience, making this highly readable book the authoritative work on modern Turkey.

This poignant philosophy about the human capacity for love in the face of tragedy from the New York Times–bestselling author is as relevant today as it was when it was first broadcast. Transcribed from a series of recorded conversations streamed over German public radio in 1970, the profound ideas and thoughts collected in this volume represent a lifetime of the renowned psychoanalyst and social philosopher's explorations into human emotion and behavior throughout the twentieth century. Insightful and provocative, Erich Fromm meditates on the preoccupations that drive human action or inaction, interweaving related ideas from such profound thinkers as Sigmund Freud, Albert Camus, and Karl Marx. Here, Fromm recognizes the links between rising contemptuous boredom and overwhelming overabundance. He unravels the confusing mysteries of religious doctrines by examining the causes and motives behind our aggressive tendencies and revealing how

dreams connect us all as a universal language. Fromm's perspective offers a vivid portrait of our ever-evolving social history and the difficulty of experiencing personal growth in a world driven by "manufactured needs." Despite all of modern life's trials, For the Love of Life celebrates Fromm's belief in the human spirit to rise above tragedy and trauma through the bonds of family, friendship, and the transcendent power of love. Includes a preface by Hans Jürgen Schultz.

The beguiling, never-before-translated dream diary of Georges Perec In La Boutique Obscure Perec once again revolutionized literary form, creating the world's first "nocturnal autobiography." From 1968 until 1972—the period when he wrote his most well-known works—the beloved French stylist recorded his dreams. But as you might expect, his approach was far from orthodox. Avoiding the hazy psychoanalysis of most dream journals, he challenged himself to translate his visions and subconscious churnings directly into prose. In laying down the nonsensical leaps of the imagination, he finds new ways to express the texture and ambiguity of dreams—those qualities that prove so elusive. Beyond capturing a universal experience for the first time and being a fine document of literary invention, La Boutique Obscure contains the seeds of some of Perec's most famous books. It is also an intimate portrait of one of the great innovators of modern literature.

La Boutique Obscure Melville House From Anthony Barnett, the creator and former editor-in-chief of openDemocracy, comes this blazing response to the confrontation between Trumpism and Biden in America, that sets out how the future of humankind is at stake. On 6 January 2021, Donald Trump tried to seize the US

presidency by force. His aim: to consolidate his nativist rule. He was, and still is, supported by tens of millions of Americans. In response, Joe Biden's administration promises a massive economic shift while a decisive contest unfolds over voter suppression. This contest is of epochal importance. As the future of humankind passes through the prism of the most powerful country in the world, Barnett reflects on the stark, limited spectrum of possible outcomes. He shows that the frustration of Trumpism is thanks to the decades long resistance to market fundamentalism. But it remains divided and incoherent. It is time for the left to embrace an open, ecological politics or the world will be subordinated to the regimes of the Iron Men and their successors.

Istanbul is a city of a million cells, and every cell is an Istanbul unto itself. After a military coup, four prisoners – the doctor, Demirtay the student, Kamo the barber and Uncle K ü hey lan – sit below the ancient streets of Istanbul awaiting their turn at the hands of their wardens. Between violent interrogations, the condemned share parables and riddles about their beloved city to pass the time. From their retelling of stories, both real and imagined, emerges a picture of a city that is many things to many different people. Their fears and laughter show us that there is as much hope and suffering in the city above as there is in the cells below. Istanbul, Istanbul is a poignant and uplifting novel about the power of human imagination in the face of adversity. 'A profoundly moving story about the transformative power of words in times of desperation' Ece Temelkuran, author of The Insane and the Melancholy 'A harrowing, riveting novel, as unforgettable as it is inescapable.' Dale Peck, author of Visions and Revisions 'A wrenching love poem to Istanbul told between torture sessions by four prisoners in their cell beneath the city. An ode to pain in which Dostoevsky meets The Decameron.' John Ralston Saul, author of On Equilibrium; former president, PEN International 'Ten days, ten stories and ten chapters, like Boccaccio's Decameron ... This novel will, I predict, itself become a classic.' Rosie Goldsmith

Peter and Rebecca Harris: mid-forties denizens of Manhattan's SoHo, nearing the apogee of committed careers in the arts—he a dealer, she an editor. With a spacious loft, a college-age daughter in Boston, and lively friends, they are admirable, enviable contemporary urbanites with every reason, it seems, to be happy. Then Rebecca's much younger look-alike brother, Ethan (known in the family as Mizzy, "the mistake"), shows up for a visit. A beautiful, beguiling twenty-three-year-old with a history of drug problems, Mizzy is wayward, at loose ends, looking for direction. And in his presence, Peter finds himself questioning his artists, their work, his career—the entire world he has so carefully constructed. Like his legendary, Pulitzer Prize – winning novel, *The Hours*, Michael Cunningham's masterly new novel is a heartbreaking look at the way we live now. Full of shocks and aftershocks, it makes us think and feel deeply about the uses and meaning of beauty and the place of love in our lives.

When Tom Brodzinski finally decides to give up smoking during a family holiday in a weird, unnamed land, a moment's inattention becomes his undoing. Flipping the butt of his last cigarette off the balcony of the holiday apartment, it lands on the head of the elderly Reggie Lincoln, and burns him. Despite Brodzinski's liberal attitudes and good intentions, the local authorities treat his action as an assault. Soon the full weight of the courts and tribal custom is brought to bear. What follows is a journey through a fantastically distorted world, a country that is part Australia, part Iraq and entirely the heart of distinctively modern darkness.

Tracking the decline and fall of the Ottoman empire, Ahmet Altan ’ s Ottoman Quartet spans fifty years from the end of the nineteenth century to the post-WWI rise of Atatürk as leader of the new Turkey. In Like a Sword Wound, a modern-day resident of Istanbul is visited by the ghosts of his ancestors, finally free to tell their stories “ under the broad, dark wings of death. ” Among the characters who come to life are an Ottoman army officer; the Sultan ’ s personal doctor; a scion of the royal house whose Western education brings him into conflict with his family ’ s legacy; and a beguiling Turkish aristocrat who, while fond of her emancipated life in Paris, finds herself drawn to a conservative Muslim spiritual leader. As their stories of intimate desire and personal betrayal unfold, the society that spawned them is transforming and the sublime empire disintegrating. Here is a Turkish saga reminiscent of War and Peace, written in lively, contemporary prose that traces not only the social currents of the time but also the erotic and emotional lives of its characters. “ An engrossing novel of obsessive love and oppressive tyranny, a tale of collapse that dramatizes the fateful moments of an empire and its subjects. ” —Publishers Weekly (starred review) Nietzsche on His Balcony Penguin UK Seventeen-year-old Çaglar is just another apathetic teenager--except when it comes to his sister, Çigdem, who he believes is the world's most beautiful and brilliant nine-year-old. After all, who wouldn't want to watch a child doing the moonwalk against the backdrop of political unrest? But as Çaglar strives to showcase his sister, he finds himself pulled into the heart of the uprising and discovers that he may just have talent of his own. S BEL ORAL Istanbul, Istanbul Simon and Schuster In 2011, an elite group of US Navy SEALs stormed an enclosure in the Pakistani city of Abbottabad and killed Osama bin Laden, the man the United States had begun chasing before the devastating attacks of 9/11. The news did much to boost President Obama's first term and played a major part in his reelection victory of the following year. But much of the story of that night, as presented to the world, was incomplete, or a lie. The evidence of what actually went on remains hidden. At the same time, the full story of the United States' involvement in the Syrian civil war has been kept behind a diplomatic curtain, concealed by doublespeak. It is a policy of obfuscation that has compelled the White House to turn a blind eye to Turkey's involvement in supporting ISIS and its predecessors in Syria. This investigation, which began as a series of essays in the London Review of Books, has ignited a firestorm of controversy in the world media. In his introduction, Hersh asks what will be the legacy of Obama's time in office. Was it an era of "change we can believe in" or a season of lies and compromises that continued George W. Bush's misconceived War on Terror? How did he lose the confidence of the general in charge of America's forces who acted in direct contradiction to the White House? What else do we not know? Taking Control Simon and Schuster The author recounts his adventures traveling through Turkey in search of the history of the fez, using it as a key to understanding the country's history and culture.
