Much of the discussion surrounding the definition of the Sustainable Development Goals (SDGs) and the post-2015 global development agenda has contextualized sustainable development within the framework of 'transformation', specifically prioritizing concepts such as equity, security, justice, and rights. While these debates correctly discussed power imbalances and relational obstacles to human development they have remained abstract because they focused only on the international level. In this regard, discussions have not adequately examined mechanisms that facilitate or block the emergence of sustainable development as a political priority, nor do they address specific policy proposals to link environmental justice to human development strategies. This book contends

that human and environmental security should be framed in terms of transnational discussions rather than being limited to general international debates in order to examine both governance challenges and potential policy mechanisms that can effectively address environmental security issues that cross national boundaries. The chapters in this volume undertake an empirical examination of the relationships between human and environmental security, cross-border exchanges, and regional integration. They address the relationships between international norms, transnational human and environmental security issues, and the regionalization of governance in different parts of the world as the book includes comparative analyses as well as case studies from Europe, Asia and the Americas. The chapters originally published as a special issue in Globalizations.

Pleasure is biologically desirable and good for physical and mental health. In *The Pursuit of Pleasure*, Lionel Tiger explores this aspect of human nature by focusing on the origins and forms of pleasure. Medical science has perfected a host of often astonishingly

impressive methods for preventing, alleviating, or recovering from pain. Its opposite, pleasure, has not had such a well-funded and fully justified constituency. In fact, those committed to the understanding and pursuit of pleasure, are rarely accorded respect and a sense of significance. People have objected to the notion of pleasure for a variety of reasons. The most complex derive from religious convictions that the most morally admirable human life is marked by abstemiousness, suffering, even martyrdom. There is also a corresponding fear that people may pursue pleasure too avidly and with too strong a sense of entitlement, and the world's work will not get done. But just as there have been suspicions of the dangers of pleasure, there have also been its supporters who assert its vital and joyful centrality to human experience. The Pursuit of Pleasure favors an agnostic approach borrowed from natural science. In lively, witty, and eminently readable prose, Tiger identifies major forms of pleasure and explores their variations, now and in the past. Pleasure, says Tiger, is not a luxury but an evolutionary entitlement that deserves to be taken seriously. As we acknowledge our need for enjoyment, we understand the need to establish balance in our lives-our need for the pursuit of pleasure.

David Vann has loved boats all his life. So when his academic career seems to be stuck in the doldrums, he leaps at the opportunity to start an educational charter business, teaching creative writing workshops aboard a sailboat. But a trip to Turkey seems him dreaming bigger - and before he knows it, he is at the helm of his own ninety-foot boat, running charters along the Turkish coast. And here his troubles begin. Sinking deep into debt, and encountering everything from a lost rudder to freak storms, Vann is on the verge of losing everything - including his life. Part high-seas adventure, part journey of self-discovery, *A Mile Down* is a gripping and unforgettable story of struggle and redemption, by a writer at the top of his game.

From the author of *Persepolis*, comes this illustrated fairy tale. Rose is one of three daughters of a rich merchant who always brings gifts for his girls from the market. One day Rose asks for the seed of a blue bean, but he fails to find one for her. She lets out a sigh in resignation, and her sigh attracts the Sigh, a mysterious being that brings the

seed she desired to the merchant. But every debt has to be paid, and every gift has a price, and the Sigh returns a year later to take the merchant's daughter to a secret and distant palace.

"This comprehensive textbook covers predictive and persuasive writing and legal research, and is written in an informal style intended to appeal to today's law students. The book walks students through the writing process in short, easily understood chapters and stresses the importance of understanding the underlying principles of legal research rather than discussing the specific mechanics of ever-changing research resources. In addition to the standard topics covered in legal writing and research texts, the book offers chapters on reading, the ethics of writing, overcoming writer's block, and oral argument, and emphasizes at all points a client-based

approach to lawyering skills"--Unedited summary from book cover.

Annotation New edition of a reference that presents the values of properties typical for the most common alloy processing conditions, thus providing a starting point in the search for a suitable material that will allow, with proper use, all the necessary design limitations to be met (strength, toughness, corrosion resistance and electronic properties, etc.) The data is arranged alphabetically and contains information on the manufacturer, the properties of the alloy, and in some cases its use. The volume includes 32 tables that present such information as densities, chemical elements and symbols, physical constants, conversion factors, specification requirements, and compositions of various alloys and metals. Also contains a section on manufacturer listings with contact information. Edited by Frick, a professional engineering consultant. Annotation c. Book News, Inc., Portland, OR (booknews.com).

Disability Law and Policy provides an overview of the major themes and insights in disability law. It is also a compelling compendium of stories about how our legal system has responded to the needs of impacted individuals. Peter Blanck is University Professor & Chairman of the Burton Blatt Institute at Syracuse University. The year 2020 marks the thirtieth anniversary of the Americans with Disabilities Act. During the past three decades, disability law and policy, including the law of the ADA itself, have evolved dramatically in the United States and internationally. Walls of inaccessibility, exclusion, segregation, stigma, and discrimination have been torn down, often

brick-by-brick. But the work continues, many times led by advocates who have never known a world without the ADA and are now building on the efforts of those who came before them. Lex Frieden, former Chairperson of the National Council on Disability, writes in the book's Foreword: "In 1967, I survived a head-on car crash. When I woke up, I was paralyzed from the shoulders down. . . . My story is one of many in the modern disability rights movement. In *Disability Law and Policy*, Peter Blanck retells my story, and the personal experiences of many others living with disabilities, in a master tour of the area. Peter is a world-renowned teacher, researcher, lawyer, and advocate. He has been central to the modern sea change in disability civil rights . . . *Disability Law and Policy* should be read by all of us--people with the lived experience of disability and their advocates, parents, family members, and friends."

In its first Spanish edition, Herbert Klein's *A Concise History of Bolivia* won immediate

acceptance within Bolivia as the new standard history of this important nation. Surveying Bolivia's economic, social, cultural and political evolution from the arrival of early man in the Andes to the present, this current version brings the history of this society up to the present day, covering the fundamental changes that have occurred since the National Revolution of 1952 and the return of democracy in 1982. These changes have included the introduction of universal education and the rise of the mestizos and Indian populations to political power for the first time in national history. This second edition brings this story through the first administration of the first self-proclaimed Indian president in national history and the major changes that the government of Evo Morales has introduced in Bolivian society, politics and economics.

This textbook introduces students to the important concepts of global marketing today, and their managerial implications. Designed to be shorter than many other textbooks, Global Marketing focuses on getting to the point faster. Increasingly, marketing activities must be integrated at a global level. Yet, the enduring influence of culture requires marketers to adapt local strategies in light of cultural differences. Global Marketing takes a similar strategic approach, recognizing the need to address both the forces of globalization and those of localization. Other key features include: Coverage of often overlooked topics, such as the competitive rise of China's state-owned enterprises; the importance of

diasporas as target markets; and the emerging threat to legitimate marketers from transnational criminal organizations A chapter dedicated to understanding global and local competitors, setting the stage for ongoing discussion of both buyers and competitors in an increasingly competitive global marketplace Extensive real-life examples and cases from developed and emerging markets, including insights into the often-overlooked markets of Africa, Latin America, and the Middle East Written in a student-friendly style, previous editions have received praise from both students and instructors. This edition continues to build on this strong foundation, making this the book of choice for students of global marketing classes.
