Spencer

Quinn's first

original e-short

story reveals

how everyone's

favorite detective

duo—Chet the

Dog and P.I.

Bernie

Little—came to meet before their first big case in Dog On It. As fans know, Chet first met Bernie on that fateful day when he flunked out of K-9 police school. The details of that day though have always remained a little vague (like so much in Chet's doggy brain). All we know is that Chet had been the best leaper in his K-9 class, but for some reason he failed his final leaping test...and that a cat was involved...and that there was

some blood. But whose? The test, the cat, the blood—all pieces of a puzzle that, when solved, will bring down a dangerous gang of thieves—and signal the start of a beautiful friendship. This fateful day has been alluded to in every book in the series, and now fans of Chet and Bernie will finally get to find out what actually happened. For these two beloved characters, it was something like love at first sight—and, for Chet, at first

—RT Book Reviews, 4 stars
Under the Volcano National Geographic Books
In this landmark book, Seven Stories Press presents a powerful collection of literary, philosophical, and political writings of the masked Zapatista spokesperson, Subcomandante Insurgente Marcos.

Introduced by Nobel Prize winner Jos é Saramago, and illustrated with beautiful black and white photographs, Our Word Is Our Weapon crystallizes "the passion of a rebel, the poetry of a movement, and the literary genius of indigenous Mexico." Marcos first captured world attention on January 1, 1994, when he and an indigenous guerrilla group calling themselves "Zapatistas" revolted against the Mexican government and seized key towns in Mexico's southernmost state

of Chiapas. In the six years that have passed since their uprising, Marcos has altered the course of Mexican politics and emerged an international symbol of grassroots movement-building, rebellion, and democracy. The prolific stream of poetic political writings, tales, and traditional myths that Marcos has penned since January 1, 1994 fill more than four volumes. Our Word Is Our Weapon presents the best of these writings, many of which have never

been published before in English. Throughout this remarkable book we hear the uncompromising voice of indigenous communities living in resistance, expressing through manifestos and myths the universal human urge for dignity, democracy, and liberation. It is the voice of a people refusing to be forgotten the voice of Mexico in transition, the voice of a people struggling for democracy by using their word as their only weapon.

Geoffrey
Firmin, a
former British
consul, has
come to
Quauhnahuac,

Mexico. His debilitating malaise is drinking, an activity that has overshadowed his life. On the most fateful day of the consul's life--the Day of the Dead, 1938--his wife, Yvonne, arrives in Quauhnahuac, inspired by a vision of life together away from Mexico and the circumstances that have driven their relationship to the brink of collapse. She is

determined to rescue Firmin and their failing marriage, but her mission is further complicated by the presence of Hugh, the consul's half brother, and Jacques, a childhood friend. The events of this one significant day unfold against an unforgettable backdrop of a Mexico at once magical and diabolical. Under the Volcano remains one of literature's most powerful

and lyrical statements on the human condition, and a brilliant portrayal of one man's constant struggle against the elemental forces that threaten to destroy him.

Eye Press LLC A pet-care tycoon is felled by a pair of grooming shears in this cozy mystery set in a small Pennsylvania town. Professional pet sitter Daphne Templeton loves the holidays in Sylvan Creek, Pennsylvania. And nothing gets her into the spirit more than the town's annual Bark the Halls Ball. The whole community will be there to wag their tails, especially this year's special guest—Celeste

“ CeeCee ” French, founder of a national chain of pet care franchises, who's returning home to announce plans for a bright new flagship store. But not everyone's celebrating CeeCee's homecoming. Daphne's friend Moxie Bloom, owner of Spa and Paw, a unique salon for people and their pets, has plenty to growl about. So when CeeCee is found face down under Sylvan Creek's town Christmas tree, stabbed with a distinctive

pair of professional-grade pet shears, suspicion lands squarely on Moxie. Despite Daphne's promises to Detective Jonathan Black, she quickly reprises her role as amateur sleuth. Ably assisted by her basset hound sidekick, Socrates, she must hurry to prove her friend's innocence before a killer barks again . . . Includes recipes for homemade pet treats!
“Doggone charming from start to finish!”

—Cleo Coyle, New York Times bestselling author on *Death by Chocolate Lab* Iberia Ballantine Books
Lola was a buckshot-riddled stray, lost on a Memphis highway. Cody was rejected from seven different homes. Ace had been sprayed with mace and left for dead on a train track. They were deemed unadoptable. Untrainable. Unsalvageable. These would become the same dogs

America relied on when its worst disasters hit. In 1995, Wilma Melville volunteered as a canine search-and-rescue (SAR) handler with her Black Labrador Murphy in the aftermath of the Oklahoma City bombing. At the time, there were only fifteen FEMA certified SAR dogs in the United States. Believing in the value of these remarkable animals to help save lives, Wilma knew many more were needed in the event of future major disasters.

She made a vow to help 168 dogs receive search-and-rescue training in her lifetime—one for every Oklahoma City victim. Wilma singlehandedly established the National Disaster Search Dog Foundation (SDF) to meet this challenge. The first canine candidates—Ana, Dusty, and Harley—were a trio of golden retrievers with behavioral problems so severe the dogs were considered irredeemable and unadoptable. But with patience,

discipline, and love applied during training, they proved to have the ability, agility, and stamina to graduate as SARs. Paired with a trio of firefighters, they were among the first responders searching the ruins of the World Trade Center following 9/11—setting the standard for the more than 168 of the SDF’s search-and-rescue dogs that followed. Beautiful and heart-wrenching, Hero Dogs is the story of one woman’s dream brought to

fruition by dedicated volunteers and firefighters—and the bonds they forged with the incredible rescued-turned-rescuer dogs to create one of America’s most vital resources in disaster response. Paparazzi Princess Simon and Schuster A guide to the philosophy and techniques for working with fearful, shy or anxious dogs, the book dispels common myths and misinformation regarding fear based behaviors. It provides, in easy to

understand language, the most effective and humane ways to handle dogs with fear based behavior challenges. Very useful information and full of resources for shelters, foster care givers, rescue organizations and veterinarians. A Cat Was Involved ReadHowYouWant.com "If I say so myself, I am muy foxy!" When novice P.I. Geri Sullivan first heard her adopted Chihuahua talk, she thought she'd gone barking mad. But it turns out Pepe is a savvy sleuth--and if he has his way,

he'll soon be a bone-a-fido celebrity, too, as Pepe and Geri are Hollywood-bound to star in the reality show Dancing With Dogs. So far, so bueno. Then Nigel St. Nigel, the judge everyone loves to hate, becomes the judge someone wanted dead. Pepe and Geri are hot on a killer's heels but between perfecting the paso doble and protecting Pepe's Pomeranian lady love, both have their paws full. If Pepe's new status as a Beverly Hills Chihuahua goes to his head, it may be the last waltz for Geri's crime-biting compadre. . "Pepe is one cool

P.I." --Leslie Meier Praise for Dial C for Chihuahua "A fun and breezy mystery." – Jennie Bentley "A fun twist on the typical P.I. partnership." --Simon Wood "Readers will sit up and beg for more." --Sushi the Shih Tzu, canine star of the Trash 'n' Treasures mysteries by Barbara Allan The Big Chihuahua Kensington Books A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation.

The winning entry? English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom." Why does grammar make everyone so nervous? Probably because English teachers, for decades – no, for centuries – have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy. Happily, you don't have to learn all those technical terms of English grammar – and you certainly don't have to diagram sentences – in order to speak and write correct English. So rest assured – English Grammar For Dummies will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With English Grammar For Dummies, you won't have to memorize a long list of

meaningless rules (well, maybe a couple in the punctuation chapter!), because when you understand the reason for a particular word choice, you'll pick the correct word automatically. English Grammar For Dummies covers many other topics as well, such as the following: Verbs, adjectives, and adverbs – oh my! Preposition propositions and pronoun pr

onouncements
Punctuation:
The lowdown on periods, commas, colons, and all those other squiggly marks
Possession: It's nine-tenths of grammatical law
Avoiding those double negative vibes
How to spice up really boring sentences (like this one)
Top Ten lists on improving your proofreading skills and ways to learn better grammar
Just think how improving your speaking and writing skills

will help you in everyday situations, such as writing a paper for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!

This book will
tell all you
need to know
about British
English
spelling. It's a
reference work
intended for
anyone
interested in
the English
language,
especially
those who
teach it,
whatever the
age or mother
tongue of their
students. It
will be
particularly
useful to those
wishing to
produce well-
designed

materials for
teaching initial
literacy via
phonics, for
teaching
English as a
foreign or
second
language, and
for teacher
training.
English spelling
is notoriously
complicated
and difficult to
learn; it is
correctly
described as
much less
regular and
predictable
than any other
alphabetic
orthography.
However, there
is more
regularity in
the English

spelling system
than is
generally
appreciated.
This book
provides, for
the first time, a
thorough
account of the
whole complex
system. It does
so by
describing how
phonemes
relate to
graphemes and
vice versa. It
enables
searches for
particular
words, so that
one can easily
find, not the
meanings or
pronunciations
of words, but
the other
words with

which those with unusual phoneme-grapheme/phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single

letters in non-final syllables. Hero Dogs Triumph Books Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a.

Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a

15,500 Words
Dial C for Chihuahua
Oxford University Press, USA
Learn to communicate with your dog—using their language
“ Good reading for dog lovers and an immensely useful manual for dog owners. ” —The Washington Post
An Applied Animal Behaviorist and dog trainer with more than twenty years ’ experience, Dr. Patricia McConnell

reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “ man ’ s best friend ” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual

evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

How you can get your dog to come when called by acting less like a primate and more like a dog

- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why

most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships. [Oblivion \(The Gatekeepers #5\)](#) Routledge "A work of enormous breadth, likely to pleasantly

surprise both general readers and experts."—New York Times Book Review
This revolutionary book provides fresh answers to long-standing questions of human origins and consciousness. Drawing on his breakthrough research in comparative neuroscience, Terrence Deacon offers a wealth of insights into the significance of symbolic thinking: from

the co-evolutionary exchange between language and brains over two million years of hominid evolution to the ethical repercussions that followed man's newfound access to other people's thoughts and emotions. Informing these insights is a new understanding of how Darwinian processes underlie the brain's development

and function as well as its evolution. In contrast to much contemporary neuroscience that treats the brain as no more or less than a computer, Deacon provides a new clarity of vision into the mechanism of mind. It injects a renewed sense of adventure into the experience of being human. Accelerando Kensington Cozies Brand new stories by: G.

M. Ford, Skye Moody, R. Barri Flowers, Thomas P. Hopp, Patricia Harrington, Bharti Kirchner, Kathleen Alcal, Simon Wood, Brian Thornton, Lou Kemp, Curt Colbert, Robert Lopresti, Paul S. Piper, and Stephan Magcosta. Early Seattle was a hardscrabble seaport filled with merchant sailors, longshoremen, lumberjacks, rowdy saloons, and a rough-and-tumble police force not immune to corruption and graft. By the mid-50s, the town had added Boeing to its claim to fame, but was still a mostly blue-collar burg that was infamously described as "a cultural dustbin" by the Seattle Symphony's first conductor. Present-day Seattle has become a pricey, cosmopolitan center, home to Microsoft and Starbucks. The city is famous as the birthplace of grunge music, and possesses a flourishing art, theatre, and club scene that many would have thought improbable just a few decades ago. But some things never change--crime being one of them. Seattle's evolution to high-finance and high-tech has simply provided even greater opportunity and reward to those who might be ethically, morally, or economically challenged (crooks, in other words). But most crooks are just ordinary people, not professional thieves or crime bosses--they might be your pleasant neighbor, your wife or lover,
