A 2019 Pura Belpré Honor Book for Illustration Every kid in Lola's school was from somewhere else. Hers was a school of faraway places. So when Lola's teacher asks the students to draw a picture of where their families immigrated from, all the kids are excited. Except Lola. She can't remember The Island—she left when she was just a baby. But with the help of her family and friends, and their memories—joyous, fantastical, heartbreaking, and frightening—Lola's

As she draws closer to the heart of her family's story, Lola comes to understand the truth of her abuela's words: “Just because you don't remember a place doesn't mean it's not in you.” Gloriously illustrated and lyrically written, *Islandborn* is a celebration of creativity, diversity, and our imagination's boundless ability to connect us—to our families, to our past and to ourselves.

Inside Stories of CBI Missions

Do the police owe a duty to protect citizens from criminal attack? This book explains why, in most of the United States, the answer is "no." In most cases the law does

---

not even require the police to respond to emergency 911 calls. This compact paperback devotes one short chapter to each of the 50 states, Puerto Rico, the Virgin Islands, the District of Columbia and Canada, to show how statutes and court decisions consistently hold that the police generally have "no duty" to protect individual citizens. Most chapters reveal the true stories, taken from published court opinions, that describe the plight of citizens who relied solely upon their telephone and police response for emergency help against a violent criminal. Not only did those crime victims not get help, the local government and police escaped legal responsibility for failing to help those victims. Highlighting the importance of personal and family defense, the book also retells 45 stories about people who successfully defended themselves long before any police could help. Footnotes provide full citations to primary and secondary legal sources for all laws and case decisions. 271 pages; footnotes.

In his thirty-seven years of service, Neeraj Kumar neutralized several terror modules and decimated insidious organized crime syndicates spanning continents, working closely with Interpol, FBI, Scotland Yard and several national and international agencies. Much decorated and feted, he hung up his boots in 2013, after his last calling as Delhi ' s police commissioner. He has now decided that the inside details of what have been some of the most fascinating crime stories of our times must not go unheard and untold. The War that Saved My Life Speak

As a journalist on the crime beat, the author has spent long hours talking to those in uniform, those in the underworld and those in the grey zone — people who work as police informers. Much of what he has seen, heard and observed in over a decade of covering crime has found its way into print. But there ' s a lot that ' s spoken of in hushed tones, or buried in underworld lore. The underworld speaks its own language, and words are invented on the spur of the moment. A shooter is referred to as an " artist " , an informer is simply " zero dial " , Dubai is " Delhi " , while arrest is " get admitted " . Most of these are aimed at sending the police or adversaries on a wild goose chase. It ' s a world that thrives on the spirit of enterprise, actively courts power and danger, and has conquered fear. The rules are straight and the ethics sacrosanct. The principles of ' dhanda ' apply equally here — risk, profit and competition are at the very core. An informer will think nothing of selling precious information on a rival if it can earn him extra bucks

or goodwill from the police.
