Die for You by Lisa Unger - Alibris

Lisa Unger is a fabulous and talented writer. I read Black Out a while back and really enjoyed it, so

I was happy to find a few other books by her recently. Die For You was riveting. I enjoy Unger's ability to breathe life into her characters, who are replete with all their flaws and glories. She makes the people who populate her books seem very real.

Gripping and suspenseful - praise for Lisa Unger! Die For You is about Isabel who is suddenly and unexpectedly betrayed by the person she trusts the most. The writing is beautiful but the best thing about this is the way the characters draw you in. Unger does a fantastic job of developing both Isabel and her sister and I found the plot thrilling and well written.

Die for You by Lisa Unger - Goodreads

The basic plot of DIE FOR

YOU --- a woman learns that her husband is not who she trusted him to be --- probably sounds like nothing new. In Lisa Unger's capable hands, however, this plot line goes far beyond mere thriller territory and into somewhere excitingly different.

Lisa Unger tantalizes us in the opening prologue of Die For You. An American woman lies on the ground in Prague, staring up at a man approaching her with a gun. She knows him - "He is impervious, his face expressionless, as

"Unger has proved herself to be a master of pacing and suspense and DIE FOR YOU is no exception; in fact, it is the most nerve-wracking, hand-wringing book I've read by her to date. This truly is edge-of-your-seat action and my whole body was tense while I read.

Die for you; Lisa Unger I

loved this book. It gives the reader a sense of how life can really be. It has many side stories that create suspense. I wouldn't recommend this book for readers who don't like flowery writing. Lisa Unger doesn't just get to the point. It's a very thick book but very interesting.
