What is a keto diet? - BBC Good Food
In the UK, current 2016 NHS diabetes diet advice is that there is no special diet for people with diabetes. Many people with diabetes focus on the carbohydrate content of their meals and prefer a low-carb diet for tight blood glucose level control. The NHS (and Diabetes UK) recommend a healthy, balanced diet that is low in fat, sugar and salt and contain a high level of fresh fruit and vegetables.

The Beginner's Guide To Diet, Nutrition & Healthy Eating

The amount of carbohydrates most often recommended per day is typically in the area of 50% of your total calorie intake (most recommendations range from 40-60 percent). 1 gram of carbs contains 4 calories. So, let's say an example person is consuming 2000 calories per day. 50% of 2000 is 1000 calories.
