In "The Extraordinary Adventures of Ars è ne Lupin, Gentleman-Burglar," Maurice Leblanc crafts a captivating collection of short stories that showcases the cunning escapades of his notorious protagonist, Ars è ne Lupin. Blending elements of mystery, crime, and humor, Leblanc employs a vibrant narrative style that intersperses thrilling plots with clever dialogues, inviting readers into a world where the lines between heroism and villainy blur. Set against the backdrop of early 20th-century France, the stories reflect the socio-political climate of the time, inviting comparisons to contemporaneous literary figures and exploring themes of class and social mobility. Maurice Leblanc, born in 1864, grew up in a region steeped in storytelling tradition. His rich experiences as a journalist and playwright, coupled with a keen interest in the criminal mind, informed his portrayal of Lupin as not just a thief but a man of principles, echoing the author's own beliefs about justice and morality.

Leblanc's writing was also influenced by the burgeoning detective genre, particularly the works of Arthur Conan Doyle, leading him to create a character who could outwit even the most astute detectives. This book is a must-read for fans of detective fiction and anyone intrigued by charismatic anti-heroes. Its delightful blend of sophistication and escapism offers both entertainment and insight, making it an essential addition to any literary collection. Dive into Ars è ne Lupin's world and experience the thrilling charm of a master thief at the height of his powers.

With an introduction by award-winning novelist Barbara Kingsolver In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummelled its people and set up a ruthless regime that would reduce the population by half. . While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. Winner of the Duff Cooper Prize in 1999, King Leopold ' s Ghost is the true and haunting account of this man ' s brutal regime and its lasting effect on a ruined nation. It is also the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity.

This jacketed and linen-bound gift edition of *The Mastery of Love* features two-colour printing and a silk ribbon bookmark. In the Toltec tradition, three fundamental masteries guide us to our true nature, which is happiness, freedom, and love. The first is the Mastery of Awareness. This mastery teaches us to be aware of what we really are. It is the first step toward freedom, because we cannot be free if we don't know what we are, or what kind of freedom we are looking for. The Toltec said, 'Let us see ourselves with truth,' and they created a mastery just for awareness. The second is the Mastery of Transformation, which teaches us how to become spiritual warriors, and stalk our actions and reactions so we can break free of the knowledge that enslaves us. This mastery shows us how to change the dream of our life by changing our agreements and beliefs. The Mastery of Love is the result of the first two masteries. From the Toltec perspective, everything is made of love. Love is Life itself. When we master love, we align with the Spirit of Life passing through us. We are no longer the body, or the mind, or the soul, we are Love. Then every action we take is an expression of love, and love in action can only produce happiness. When we master Awareness, Transformation, and Love, we reclaim our divinity and become one with God. This is the goal of the Toltec. In the *Mastery of Love*, don Miguel Ruiz illuminates the fear-based beliefs and assumption that undermine love and lead to suffering and drama in relationships. Using insightful stories to bring his message to life, Ruiz shows us how to heal our emotional wounds, recover the freedom and joy that are our birthright, and restore the spirit of playfulness that is vital to loving relationships. The *Mastery of Love* includes - Why 'domestication' and the 'image of perfection' lead to self-rejection The war of control that slowly destroys most relationships Why we hunt for love in others, and how to capture the love inside us How to finally accept and forgive ourselves and others 'Happiness can only come from inside of you and is the result of your love. When you are aware that no one else can make you happy, and that happiness is the result of your love, this becomes the greatest mastery of the Toltecs- the Mastery of Love.' - From the book

Studies, she refuses to hand over Gödel's precious records. Anna Roth is given the difficult task of befriending Adele and retrieving the documents from her.
