Photographer's Guide to the Nikon Coolpix P900 IGI Global

This book, by Alexander S. White, is a complete, clearly written guide to the operation of the Nikon Coolpix P900 digital camera. The book explains all shooting modes, menus, functions, and controls of this superzoom camera, accompanied by more than 350 full-color illustrations and sample photographs. The guide shows beginning and intermediate photographers how to use the camera's many options to get the results they want. The book explains topics such as autofocus, manual focus, HDR (High Dynamic Range) photography, ISO, memory cards, and flash modes. It includes a discussion of techniques for using the P900's phenomenal zoom lens, with a maximum optical

focal length of 2000mm, to full advantage. The book also discusses the camera's features for image transfer and remote control through the P900's built-in Wi-Fi network, as well as its features for adding location data to images. The book includes sample images taken with the creative settings of the camera, including the Picture Control options, which alter the color processing of images; the Scene and Special Effects shooting modes, with settings optimized for subjects such as landscapes, birds, pets, sunsets, and action shots; and the camera's features for burst shooting and time-lapse photography. In addition, the book provides introductions to topics such as infrared photography, street photography, and macro photography. The book also explains the video features of the P900, which can shoot HD video with stereo sound and can record high-speed video at

rates up to 4 times normal speed. In addition, the book describes procedures for playing back images and videos in the camera and for using the Filter Effects option to add special effects to images after they have been captured. In three appendices, the book discusses accessories for the Coolpix P900, including cases, external flash units, and charging and power options. The appendices include a list of useful web sites and other resources, as well as a section with “quick tips” to help users take advantage of the camera’s features in the most efficient ways possible.

In my opinion, unless you're a total introvert, agoraphobic, disabled or too lazy to leave the house, your best bet to buy most things you need is locally. Go to the Yellow Pages, read your local newspapers, drive

around the shopping areas, go to local free ad websites and talk to people you know about what you need. I generally buy most of my stuff from the big department stores but if I need something like furniture, I'll check out the furniture stores on the poor side of the town because the prices for the same goods are often much cheaper than a store in the higher class part of town plus you can often haggle with the owner on a cash deal. By shopping on the poor side of town at supermarkets for food, you can often save several dollars on a load of groceries. Beyond that, I generally go to the thrift stores a few times a year to buy t-shirts, clothes and anything else that strikes my fancy as I look around.
