Digital Photography For Dummies Quick Reference Lulu Press, Inc

This thorough, concise, and easy-to-use guide to capturing digital photographs provides an entire step-by-step course for budding digital photographers. All concepts are fully illustrated with sample work by internationally renowned professionals, representing editorial work, photojournalism, and everything in between. Topics covered include essential information for both film and digital photography, such as exposure controls and shutter speed, as well as digital-specific information on image editing, printing methods, and even file storage. The first digital textbook by legendary photography teacher Henry Horenstein, **Digital Photography** is the best guide yet for aspiring digital photographers, essential both for photographers transitioning from film to digital and those learning the art of photography for the first time.

Kids' Guide to Digital Photography Time Home Entertainment

For digital camera and smartphone users, this easy how-to guide, written by an experienced National Geographic photographer, imparts the essentials of taking great pictures. This entertaining book from beloved National Geographic photographer and Photo Ark founder Joel Sartore shows aspiring photographers how to take great pictures, from framing and F-stops to editing and archiving. Whether you're using your phone or a DSLR camera, you'll learn the fundamentals of photography--and how to put them to work every day. In a series of short lessons, Sartore explains the basics, from choosing a camera and gear to understanding focus, exposure, composition, and lighting. Using examples from his own work, he applies the basic rules of photography to family, pet, travel, nature, and street photos, and how to get a great shot with the camera on your smartphone. Throughout the book you'll find pro tips, quick assignments, and the behind-the-camera stories of great photographers; helpful notes clarify how to use every piece of advice with your smartphone camera. Fun and informative, this practical book will be your gateway to taking great pictures.

**TIME 100 Photographs** National Geographic Books

Make digital photography an important part of your early childhood program! Young children love to investigate the natural world, and they love to take photographs. **Picture Science** will help you go beyond just documenting class projects. It will show you how to use digital photography to make each step in the scientific process—from posing a question, to gathering data, to showing your findings—concrete and fun for children. Keyed throughout to early learning standards, **Picture Science** provides inspiring examples that will stimulate you to design your own lesson plans. Technical advice and tips for buying a camera for your center or family child care business are included as well. **Picture Science** won the prestigious 2007 Directors' Choice Award and Judges' Selection Award from Early Childhood News  
**The Better Photo Guide to Digital Nature Photography** Sterling Publishing Company  
The author conveys techniques for achieving successful photographs with point-and-shoot digital cameras, including helpful hints from his bystanding muse, Bob the Big Red Ball.

*Digital Photography for Children's and Family Portraiture* Amphoto Books

From leading photography expert Me Ra Koh, "The Photo Mom," comes the book for parents with little to no photography experience who want to capture better portraits and photos of their families using any camera. What parent doesn't want to capture the perfectly imperfect joy of family life through photos? From holidays and vacations to portraits and shared moments, celebrated photographer (and mom) Me Ra Koh not only helps moms and dads take better photos, but inspires them to discover photography as a way to connect with, cherish, and celebrate their family. With

forty beautiful "photo recipes" anyone can follow—with any camera—preserving your family's story has never been easier!

**Photography and Camera: Learning for Kids** Wiley

The top-rated and top-selling photography ebook since 2012 and the first ever Gold Honoree of the Benjamin Franklin Digital Award, gives you five innovations no other book offers: Free video training. 9+ HOURS of video training integrated into the book's content (requires Internet access). Travel around the world with Tony and Chelsea as they teach you hands-on. Appendix A lists the videos so you can use the book like an inexpensive video course. Classroom-style teacher and peer help. After buying the book, you get access to the private forums on this site, as well as the private Stunning Digital Photography Readers group on Facebook where you can ask the questions and post pictures for feedback from Tony, Chelsea, and other readers. It's like being able to raise your hand in class and ask a question! Instructions are in the introduction. Lifetime updates. This book is regularly updated with new content (including additional videos) that existing owners receive for free. Updates are added based on reader feedback and questions, as well as changing photography trends and new camera equipment. This is the last photography book you'll ever need. Hands-on practices. Complete the practices at the end of every chapter to get the real world experience you need. 500+ high resolution, original pictures. Detailed example pictures taken by the author in fifteen countries demonstrate both good and bad technique. Many pictures include links to the full-size image so you can zoom in to see every pixel. Most photography books use stock photography, which means the author didn't even take them. If an author can't take his own pictures, how can he teach you? In this book, Tony Northrup (award-winning author of more than 30 how-to books and a professional portrait, wildlife, and landscape photographer) teaches the art and science of creating stunning pictures. First, beginner photographers will master:

Composition Exposure Shutter speed Aperture Depth-of-field (blurring the background) ISO Natural light Flash Troubleshooting blurry, dark, and bad pictures Pet photography Wildlife photography (mammals, birds, insects, fish, and more) Sunrises and sunsets Landscapes Cityscapes Flowers Forests, waterfalls, and rivers Night photography Fireworks Raw files HDR Macro/close-up photography Advanced photographers can skip forward to learn the pro's secrets for: Posing men and women. including corrective posing (checklists provided) Portraits (candid, casual, formal, and underwater) Remotely triggering flashes Using bounce flash and flash modifiers Using studio lighting on any budget Building a temporary or permanent studio at home Shooting your first wedding High speed photography Location scouting/finding the best spots and times Planning shoots around the sun and moon Star trails (via long exposure and image stacking) Light painting Eliminating noise Focus stacking for infinite depth-of-field Underwater photography Getting close to wildlife Using electronic shutter triggers Photographing moving cars Photographing architecture and real estate

**Go Photo!** Dog Ear Publishing

"Digital photography opens up a whole new world of communication within early childhood settings, giving scope for devising more effective ways of engaging children, producing resources and encouraging interaction with parents. Kim Walters shares her journey of discovery in 'Capture the moment: Using digital photography in early childhood settings'. Kim outlines how implementing her ideas has led to positive outcomes for children and parents, through the use of such materials as: digital portfolios; storybooks featuring photos of children in the group (a powerful tool for emergent literacy); games, puzzles and charts created with input from children; resources which encourage independence; resources to enhance communication with families." --back cover.

Since its inception, TIME magazine has been synonymous not just with outstanding journalism, but also with outstanding photography. Now, to mark the 175th anniversary of photography and the birth of photojournalism, the Editors of TIME magazine are publishing this companion book to the groundbreaking digital celebration of photography that TIME.com will be mounting online, displaying the most influential photographs of all time. While they may not be the most famous or well-known photographs, each one is unique for the way in which it changed, influenced, or commemorated a particular world event. From the first sports photograph to ever win the Pulitzer Prize - that of Babe Ruth at Yankee Stadium to the photograph of Student Neda Agha-Soltan's death during Iran's 2009 election protests, each of the photographs in 100 Photographs: The Most Influential Images of All Time is significant in how it forever changed how we live, learn, communicate, and in many cases, view the world.

#### Photographing Children Photo Workshop Glitterati
