Educational Reform and International Baccalaureate in the

Asia-Pacific Kogan Page Limited

A unique and comprehensive exploration of global education for the current and future generations The world is constantly evolving, continuing globalization creating a globally mobile workforce and their families who are international both in outlook and in their educational needs. Schools are growing exponentially and parents are seeking the best international learning opportunities for their children. Many schools are similarly recognizing that old practices are not sufficient to create the 21st century learners, or learning, that the world seeks. But how do you make international mindedness a central purpose of your teaching and philosophy? The international contributors to this book offer a multitude of new and original thoughts on international mindedness, including practical ideas ready to adapt to different situations as well as the theoretical philosophies which underpin key practice. These leading practitioners inspire the reader with their real-life experiences and their reflective thinking, each contributor providing connections between key concepts, and provide a wealth of knowledge and advice from global view to local classroom.

This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

The Postsecondary Experiences of CPS Students in the International Baccalaureate Diploma Programme

John Catt Educational Ltd

The International Baccalaureate (IB) is a respected qualification gaining increasing currency around the world, and which has been adopted by a wide variety of schools, both public and private. In the UK, growing dissatisfaction with the A-level system has led to an intense debate about alternative qualifications, and in many schools IB courses have been introduced alongside conventional A-level courses. This practical introduction to the IB takes a balanced look at the pros and cons and features a wealth of advice from those actually involved in teaching and implementing it in schools. Providing comparative material on how IB courses differ from A-levels and a subject-by-subject account of best practice in teaching the IB, this book offers a rich source of practical advice for teachers, school leaders or managers involved in teaching or implementing the IB programmes.

Generally, there are several ways to get a high school diploma: Going to school regularly during the day. Going to school at night then taking a GED test. Taking mail order/ internet high school courses. Studying on your own and taking the GED test. Take a high school equivalency test through a high school or local board of education and pass it. These are offered at some online high schools. Proving to college administrators that you have life experience and skills learned at work via taking tests which give you credits for college. As an adult, you can possibly enroll in high school with normal students, take night classes, correspondence courses at home or simply study on your own and take the GED tests. Check with the Continuing Education Office of your local Department of Education. A little known way to get your high school diploma is through the National External Diploma Program which doesn't involve any direct instruction.
