Read Jeff Alexander's posts on the Penguin Blog. A couch potato's book of wisdom— 100% commercial free! Some say that entire generations of Americans are being raised by the television...like that's a bad thing. Not so, says author Jeff Alexander, long-time television writer, advocate of education by television, and recapper for the popular website Television Without Pity. Here, he offers the ultimate in life lessons as seen on TV. Topics include: • Saved by the Bell: School on TV • Somebody Save Me: Super Powers and Magic Spells • Tell Me Why I Love You Like I Do: Relationships on TV • Making A Living: The Workplace • And more With a smart, snarky style, Alexander guides readers through important lessons gleaned from years of TV reviewing (now in convenient book form!), freeing up a whole new generation to learn other things, like how to cure cancer or solve world hunger...or anything more useful than watching TV (Author's note: Just joking... there is no such thing). In 1888, Thomas Edison announced that he was experimenting on "an instrument which does for the eye what the phonograph does for the ear, which is the recording and reproduction of things in motion." Just as Edison's investigations were framed in terms of the known technologies of the phonograph and the microscope, the essays in this collection address the contexts of innovation and reception that have framed the development of moving images in the last 100 years. Three concerns are of particular interest: the contexts of innovation and reception for moving image technologies; the role of the observer, whose vision and cognitive processes define some of the limits of inquiry and epistemological insight; and the role of new media, which, engaging with the domestic sphere as cultural interface, are transforming our understanding of public and private spheres. The 17 previously unpublished essays in Moving Images represent the best of current research in the history of this field. They make a timely and stimulating contribution to debates concerning the impact of new media on the history of cinema. Contributors include: William Boddy, Carlos Bustamante, Warren Buckland, Valeria Camporesi, Bent Fausing, Oliver Gaycken, Alison Griffiths, Christopher Hales, Jan Holmberg, Solveig J  lich, Frank Kessler, Jay Moman, Sheila C. Murphy, Pelle Snickars, Paul C. Spehr, Bj  rn Thuresson, and   ke Walldius.

The evolution of technology has set the stage for the rapid growth of the video Web: broadband Internet access is ubiquitous, and streaming media protocols, systems, and encoding standards are mature. In addition to Web video delivery, users can easily contribute content captured on low cost camera phones and other consumer products. The media and entertainment industry no longer views these developments as a threat to their established business practices, but as an opportunity to provide services for more viewers in a wider range of consumption contexts. The emergence of IPTV and mobile video services offers unprecedented access to an ever growing number of broadcast channels and provides the flexibility to deliver new, more personalized video services. Highly capable portable media players allow us to take this personalized content with us, and to consume it even in places where the network does not reach. Video search engines enable users to take advantage of these emerging video resources for a wide variety of applications including entertainment, education and communications. However, the task of information extr- tion from video for retrieval applications is challenging, providing opp- tunities for innovation. This book aims to first describe the current state of video search engine technology and second to inform those with the req- site technical skills of the opportunities to contribute to the development of this field. Today's Web search engines have greatly improved the accessibility and therefore the value of the Web.

Hundreds of Crossword Puzzles from the TV Guide Archives! Routledge 2014 marks the 40th anniversary of the publication of Stephen King's first novel Carrie in April 1974. Rescued from the rubbish by his wife Tabitha, the novel launched the Maine schoolteacher on a prolific and extraordinarily successful career. His name has become synonymous with horror and suspense through over fifty works, including The Dark Tower, a retelling of Byron's Childe Harold to the Dark Tower Came. Simpson traces the writer's life from his difficult childhood ? his father went out to the shops and never came back ? through his initial books under the pseudonym Richard Bachman to the success of Carrie, Salem's Lot and The Shining in the 1970s, and beyond. He examines how King's writing was affected by the accident that nearly killed him in 1999 and how his battles with alcohol and addiction to medication have been reflected in his stories. The guide will also take a look at the very many adaptation's of King's work in movies, on television and radio, and in comic books.

A Novel! Cambridge University Press

The Clinton presidency faced a basic set of public questions at the outset regarding its real intentions, strategies, and competence. Would the administration be able to develop and implement policies that were constructive in intent, fair in formulation, and successful in result? Would President Clinton be able to govern as successfully as he campaigned? Would there be a productive fit between Clinton's leadership style and the needs of the public? Additional questions arise about Clinton personally. Many admire him; others distrust him. What realistic basis is there for either view? This book explores these questions and develops an initial appraisal of the Clinton presidency. The chapters herein are framed by theories of political leadership and psychology. They draw on a diverse body of theories, including psychological theories of character and personality, cognitive psychology and communication theory, theories of presidential leadership and performance, and theories of public psychology. The goal is to examine the many facets of leadership and governing that constitute the modern presidency and to locate Bill Clinton's emerging presidency within that framework. Bill Clinton is and likely will remain a controversial president. One objective of this analysis is to provide a clearer, more objective framework in which to evaluate both the man and his approach to political leadership and executive power and the consequences of his approach for public psychology and policy.

Be ready the next time the spotlight is on you! She ' s interviewed " glamazons, " watched stars shine (Sharon Stone in a Gap T-shirt at the Oscars) and bomb (Jennifer Aniston in dreadlocks, Cher in an Egyptian headdress), and witnessed many a celebrity rise to the top only to come crashing down a mere year later. And she ' s both reveled in kudos and despaired over criticism of herself. As the daughter of Joan Rivers and with years of face time with the Hollywood elite, Melissa has learned far more than your average person about what it takes to be a star—not just on the red carpet, but in life. For the first time, she shares the lessons she ' s learned along the way and teaches you how to embrace your big moments, be it a graduation, a first date, a job interview, a prom, or a wedding. Pulling from inspirational and humorous tales from her probing chats with red-carpet royalty and episodes in her own life, she lays out nine essential rules to seize momentous times with graciousness, fun, preparedness, confidence—and, of course, drop-dead gorgeous style that flatters you. (Hint: It ' s not always the top designer brand that ' ll scream stardom.) The walk down the red carpet, as Rivers so colorfully relates, can teach us all some basic but essential lessons in fashion and in life. With miles of red carpet under her belt, Melissa Rivers has seen it all, from the biggest oops! moments to those unforgettable times when a star truly did shine. She knows exactly what it takes to be a star—both on the red carpet and in life. Based on her insider knowledge and her personal experience under Hollywood ' s glare, Melissa shares tips and techniques for embracing your momentous times and being at your best when the focus is on you, including:

- The simple trick to being the hit of every party
- How to escape from a date that ' s become a train wreck
- The celebrity secret to looking radiant, rain or shine
- A success strategy that beats pure talent every time
- The one rule about people even the superstars are afraid to break
- How to apologize or run into your ex and keep your cool
