A landmark book, *Results-Based Leadership* challenges the conventional wisdom surrounding leadership. Authors Ulrich, Zenger, and Smallwood--world-renowned experts in human resources and training--argue that it is not enough to gauge leaders by personal traits such as character, style, and values. Rather, effective leaders know how to connect these leadership attributes with results. *Results-Based Leadership* shows executives how to deliver results in four specific areas: results for employees, for the organization, for its customers, and for its investors. The authors provide action-oriented guidelines that readers can follow to develop and hone their own results-based leadership skills. By shifting our focus to the connection between the attributes and the results of leadership, this perceptive new guide fundamentally improves our understanding of effective leadership. *Results-Based Leadership* brings a refreshing clarity and directness to the leadership discussion, providing a hands-on program to help executives succeed with their leadership challenges.
