" Salvator Rosa (1615 – 1673) was a colorful and controversial Italian painter, talented musician, a notable comic actor, a prolific correspondent, and a successful satirist and poet. His paintings, especially his rugged landscapes and their evocation of the sublime, appealed to Romantic writers, and his work was highly influential on several generations of European writers. James S. Patty analyzes Rosa ' s tremendous influence on French writers, chiefly those of the nineteenth century, such as Stendhal, Honor é de Balzac, Victor Hugo, George Sand, and Th é ophile Gautier. Arranged in chronological order, with numerous quotations from French fiction, poetry, drama, art criticism, art history, literary history, and reference works, Salvator Rosa in French Literature forms a narrative account of the reception of Rosa ' s life and work in the world of French letters. "The commodification of Islamic antiques intensified in the late Ottoman Empire, an age of domestic reform and increased European interference following the Tanzimat (reorganisation) of 1839. Mercedes Volait examines the social life of typical objects moving from Cairo and Damascus to Paris, London, and beyond, uncovers the range of agencies and subjectivities involved in the trade of architectural salvage and historic handicraft, and traces impacts on private interiors, through creative reuse and Revival design, in Egypt, Europe and America. By devoting attention to both local and global engagements with Middle Eastern tangible heritage, the present volume invites to look anew at Orientalism in art and interior design, the canon of Islamic architecture and the translocation of historic works of art"--

This book examines a range of visual images of military recruitment to explore changing notions of glory, or of gloire, during the French Revolution. It raises questions about how this event re-

orientated notions of ' citizenship ' and of service to ' la Patrie ' . The opening lines of the Marseillaise are grandly declamatory: Allons enfants de la Patrie/le jour de gloire est arriv é ! or, in English: Arise, children of the Homeland/The day of glory has arrived! What do these words mean in their later eighteenth-century French context? What was gloire and how was it changed by the revolutionary process? This military song, later adopted as the national anthem, represents a deceptively unifying moment of collective engagement in the making of the modern French nation. Valerie Mainz questions this through a close study of visual imagery dealing with the issue of military recruitment. From neoclassical painting to popular prints, such images typically dealt with the shift from civilian to soldier, focusing on how men, and not women, were called to serve the Homeland.

Narrative Discourse Discovering French Nouveau Bleu 1

From the New York Times bestselling author of My Paris Kitchen and L'Appart, a deliciously funny, offbeat, and irreverent look at the city of lights, cheese, chocolate, and other confections. Like so many others, David Lebovitz dreamed about living in Paris ever since he first visited the city and after a nearly two-decade career as a pastry chef and cookbook author, he finally moved to Paris to start a new life. Having crammed all his worldly belongings into three suitcases, he arrived, hopes high, at his new apartment in the lively Bastille neighborhood. But he soon discovered it's a different world en France. From learning the ironclad rules of social conduct to the mysteries of men's footwear, from shopkeepers who work so hard not to sell you anything to the etiquette of working the right way around the cheese plate, here is David's story of how he came to fall in love with—and even understand—this glorious, yet sometimes maddening, city. When did he realize he had morphed into un vrai parisien? It might have been when he found himself considering a purchase of men's dress socks with cartoon characters on them. Or perhaps the time he went to a bank with 135 euros in hand to make a 134-euro payment, was told the bank had no change that day, and thought it was completely normal. Or when he found himself dressing up to take out the garbage because he had come to accept that in Paris appearances and image mean everything. Once you stop laughing, the more than fifty original recipes, for dishes both savory and sweet, such as Pork Loin with Brown Sugar – Bourbon Glaze, Braised Turkey in Beaujolais Nouveau with Prunes, Bacon and Bleu Cheese Cake, Chocolate-Coconut Marshmallows, Chocolate Spice Bread, Lemon-Glazed Madeleines, and Mocha – Cr è me Fra î che Cake, will have you running to the kitchen for your own taste of Parisian living.

The Cambridge Companion to Medieval Women's Writing seeks to recover the lives and particular experiences of medieval women by concentrating on various kinds of texts: the texts they wrote themselves as well as texts that attempted to shape, limit, or expand their lives. The first section investigates the roles traditionally assigned to medieval women (as virgins, widows, and wives); it also considers female childhood and relations between women. The second section explores social spaces, including textuality itself: for every surviving medieval manuscript bespeaks collaborative effort. It considers women as authors, as anchoresses 'dead to the world', and as preachers and teachers in the world staking claims to authority without entering a pulpit. The final section considers the lives and writings of remarkable women, including Marie de France, Heloise, Joan of Arc, Julian of Norwich, Margery Kempe, and female lyricists and romancers whose names are lost, but whose texts survive.

The main objective of À votre tour! is to advance students to a level at which they can comfortably express

themselves on a variety of French and francophone topics. Avoiding the excessive rigor of most intermediate texts, *À votre tour!* immerses students in authentic language and cultural contexts to achieve three key objectives: to build and reinforce oral and written communicative skills, to develop reading skills and cultural awareness, and to forge a strong linguistic base. New! *Tête à tête* communicative activities require one student to use communicative skills to elicit unknown details from another student in order to complete a task, with basic vocabulary and grammar structures recycled to reinforce previously learned material. New! Integrated video correlates to the *Français Pratique* section of each unit and to corresponding video activities provided in the Student Activities Manual. New! Updated cultural material highlights recent cultural trends, such as prices expressed in euros, French phone numbers with appropriate area codes; reflects the current political realities; and offers many entry points for further development of cultural awareness, grammar, and lexical points. A broad introduction to French and Francophone cultures provides authentic language and cultural contexts without an intense grammar curriculum—adapted for students who might take French as a minor, rather than a major. Accessible presentation enables students with basic conversational and grammar skills to achieve success through careful pacing, cyclical review and re-entry of structures and vocabulary, and engaging conversational material. Solid grammar review builds a framework by first covering basic structures and expressions, then adding more advanced concepts to expand students' linguistic abilities.

Karen Offen offers a magisterial reconstruction and analysis of the debates around relations between women and men, how they are constructed, and how they should be organized, that raged in France and its French-speaking neighbors from 1870 to 1920. The 'woman question' encompassed subjects from maternity and childbirth, and the upbringing and education of girls to marriage practices and property law, the organization of households, the distribution of work inside and outside the household, intimate sexual relations, religious beliefs and moral concerns, government-sanctioned prostitution, economic and political citizenship, and the politics of population growth. The book shows how the expansion of economic opportunities for women and the drop in the birth rate further exacerbated the debates over their status, roles, and possibilities. With the onset of the First World War, these debates were temporarily placed on hold, but they would be revived by 1916 and gain momentum during France's post-war recovery.

Genette uses Proust's *Remembrance of Things Past* as a work to identify and name the basic constituents and techniques of narrative. Genette illustrates the examples by referring to other literary works. His systemic theory of narrative deals with the structure of fiction, including fictional devices that go unnoticed and whose implications fulfill the Western narrative tradition.
