Discovering Life Skills National Association for the Education of Young Children

A skills-based program that helps build a foundation for independent living Everyday Life Skills is a comprehensive, career development program for high school students making the transition to postsecondary life. This full-color, easy-to-read textbook and video series focus on the important "how to live and work" issues not always covered by regular curricular materials. From maintaining a healthy body and a safe home to finding and keeping a job, Everyday Life Skills prepares young adults for a successful life after high school. Lexile Level 820 Reading Level 3-4 Interest Level 8-12

[A History of the World](#) McGraw-Hill Education

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Teacher's guide. Grade 2 Scholastic Inc.

Social and emotional skills children need.

Life Skills Education for Youth McGraw-Hill Education

Creative Living Skills is a major revision of Creative Living that repositions the program to appeal to a wider audience. It is still the book for comprehensive courses at grades 10-12, but

is also appropriate for management or independent living courses. This edition places additional emphasis on personal development, interpersonal skills and relationships, parenting, resource management, consumer skills, and daily choices related to food, clothing, housing, and transportation. When used with upper-level students or independent living classes, pair Creative Living Skills with the new worktext, LIFE On Your Own, 0-07-861584-4. This worktext presents real-life situations students will encounter and provides practice dealing with them. Students work through this consumable book and then keep it for future reference. LIFE On Your Own can also be used as the primary text for a semester independent living course.

For use with Grades K-2."

Education for a Civil Society John Wiley & Sons

Discovering Life Skills is an exploratory overview of Family and Consumer Sciences designed for middle school use. Discovering Life Skills can be used for a six-week, nine-week, or semester course. The 25 chapters correlate to the FACS modules sold by a variety of vendors. See the Module Crosswalk in the Teacher Resource Guide. The content of Discovering Life Skills may be used along with popular modules often used in middle schools. Career Choices pages provide information about four careers related to the chapter, along with activities that link career choices to school and the workplace. Discover pages offer students an opportunity to apply their learning to a practical life skill by developing and implementing a plan and evaluating the result. Closer Look provides students an in-depth view of need-to-know topics such as how to say "NO", handling stress, organizing your closet, and practicing good citizenship skills. Internet Activities encourage students to search for information on the Internet related to the content of each chapter. Making Connections provides the curriculum links between Family and Consumer Sciences to Math, Science and Social Studies.

Life Skills Classroom Complete Press

A modern and energetically designed encyclopedia of DIY with everything you need to know to roll up your sleeves and cook it, build it, sew it, clean it, or repair it yourself. In other words, everything you would have learned from your shop and home ec teachers, if you'd had them. The Useful Book features 138 practical projects and how-tos, with step-by-step instructions and illustrations, relevant charts, sidebars, lists, and handy toolboxes. There's a kitchen crash course, including the must-haves for a well-stocked pantry; how to boil an egg (and peel it frustration-free); how to grill, steam, sauté, and roast vegetables. There's Sewing 101, plus how to fold a fitted sheet, tie a tie, mop a floor, make a bed, and set the table for a formal dinner. Next up: a 21st-century shop class. The tools that everyone should have, and dozens of cool projects that teach fundamental techniques. Practice measuring, cutting, and nailing by building a birdhouse. Make a bookshelf or a riveted metal picture frame. Plus: do-it-yourself plumbing; car repair basics; and home maintenance, from priming and painting to refinishing wood floors.
