Recent pressures on undergraduate education have led to major—but often untutored—attempts to revitalize curricula. This comprehensive handbook is designed to aid faculty, administrators, and students engaged in curriculum reform at the undergraduate level. The emphasis throughout is on planning. Professor Conrad proposes a systems model for curriculum planning

and examines four major areas: general and liberal education, area concentration, experiential learning, and calendar and degree programs. In each of these areas he identifies key issues, discusses the strengths and weaknesses of different approaches, provides a historical context, outlines major trends, and describes a variety of innovations that institutions might adopt. The result is a practical, usable book.

In this

inspirational and unflinchingly honest memoir, acclaimed author Reyna Grande describes her childhood torn between the United States and Mexico, and shines a light on the experiences, fears, and hopes of those who choose to make the harrowing journey across the border. Reyna Grande vividly brings to life her tumultuous early years in this "compelling...unvarnished, resonant" (BookPage) story of a childhood spent torn between two parents and two countries. As her parents make the dangerous trek across the Mexican border to "El Otro Lado" (The Other Side) in pursuit of the American dream, Reyna and her siblings are forced into the already overburdened household of their stern grandmother. When their mother at last returns, Reyna prepares for her own journey to "El Otro Lado" to live with the man who has haunted her imagination for years, her long-absent father. Funny, heartbreaking, and lyrical, *The Distance Between Us* poignantly captures the confusion and contradictions of childhood, reminding us that the joys and sorrows we experience are imprinted on the heart forever, calling out to us of those places we first called home. A WASHINGTON POST
NOTABLE BOOK OF THE
YEAR • The slings

outrageous fortune
keep hitting
beleaguered English
professor Jason
Fitger right
between the eyes in
this hilarious and
eagerly awaited

sequel to the cult classic of anhedonic academe, the Thurber Prize- winning Dear Committee Members. Once more into the breach... Now is the fall of his discontent, as Jason Fitger, newly appointed chair of the English Department of Payne University, takes arms against a sea of troubles, personal and institutional. His ex-wife is sleeping with the dean who must approve whatever modest initiatives he undertakes. The fearsome department secretary Fran clearly runs the	show (when not taking in rescue parrots and dogs) and holds plenty of secrets she's not sharing. The lavishly funded Econ Department keeps siphoning off English's meager resources and has taken aim at its remaining office space. And Fitger's attempt to get a mossbacked and antediluvian Shakespeare scholar to retire backfires spectacularly when the press concludes that the Bard is being kicked to the curricular curb. Lord, what fools these mortals be! Julie Schumacher proves the point

and makes the most of it in this delicious romp of satire. Don't miss Julie Schumacher's new novel, *The English Experience*, coming soon.

Discourse about water and power in the modern era have largely focused on human power over water: who gets to own and control a limited resource that has incredible economic potential. As a result, discussion of water, even in the humanities, has

traditionally focused on fresh water for human use. Today, climate extremes from drought to flooding are forcing humanities scholars to reimagine water discourse. This volume exemplifies how interdisciplinary cultural approaches can transform water conversations. The manuscript is organized into three emergent themes in water studies: agency of water, fluid identities, and cultural currencies. The first section deals with the properties of water and the ways in which water challenges human plans for control. The second section explores how water (or lack of it) shapes human collective and individual identities. The third engages notions of value and

circulation to think about how water has been managed and employed for local, national, and international gains. Contributions come from preeminent as well as emerging voices across humanities fields including history, art history, philosophy, and science and technology studies. Part of a bigger goal for shaping the environmental humanities, the book broadens the concept of water to include not just water in oceans and rivers but also in pipes, ice floes, marshes, bottles, dams, and more. Each piece shows how humanities scholarship has world-changing potential to achieve more just water futures.

Eddy Okubo lies about his age and joins the army in his hometown of Honolulu only weeks before the Japanese bomb Pearl Harbor. Suddenly Americans see him as the enemy—even the U.S. Army doubts the loyalty of Japanese American soldiers. Then the army sends Eddy and a small band of Japanese American soldiers on a secret mission to a small island off the coast of Mississippi. Here they are given a special job, one that only they can do. Eddy's going to

help train attack dogs. He's going to be the bait.

"A tale of diversity within our damaged landscapes, The Mushroom at the End of the World

follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism.

Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive

human destruction." --Publisher's description.
