Thinking Things Through, second edition Springer Science & Business Media

The groundbreaking study of the new religion, Eckankar and its founder Paul Twitchell. Written forty years ago by a then a young college student, The Making of A Spiritual Movement showed for the first time how the founder of Eckankar had attempted to hide his past and create a new biography replete with mythic characters such as Sudar Singh and Rebazar Tarzs. Paul Twitchell was also a plagiarist of the first rank and copied verbatim whole pages from the work of Julian P. Johnson and others. Many Eckists who read this book in its earlier editions chose to leave the movement and became harsh critics of Eckankar's persistent cover-up of its founder and his questionable activities. The Making of a Spiritual Movement caused such a tremendous uproar within the membership of the group that Eckankar issued a "Special Notice to All Eck Chelas," dated December 27, 1979, attempting to squelch the persisting controversy surrounding Lane's findings. The following excerpt reveals in a nutshell Eckankar's of ficial opinion of this book and its findings: "It does not tell the straight story. . . was not completely researched and is untrue. These people [David Lane, Mark Albrecht, et al.] are being used by the Kal [Negative] forces to dismantle Eckankar and are referred to by Sri Paul Twitchell in a private tape he made. . . shortly before he translated. Paul said: . . '[These] pagans and heathens are in a conspiracy to destroy Eckankar, not only in the physical but in the psychic worlds. . . those who are bracketed within the category of these people are actually against us. They have been-

since the beginning of mankind or the formation of the lower worlds. All these people are under the Kal forces. . Sn' Darwin [Second Living Eck Master] asks that [Lane's research as found in the 1979 SCP Journal] be destroyed. . . ." Obviously, Eckankar does not agree with Lane's findings. However, as Dr. J. Gordon Melton notes, "The evidence that David Lane uncovered of Twitchell's creating a false history of his rise to leadership of Eckankar indicates extensive corruption. That the leadership has done nothing to correct Twitchell's false claims, yea, have perpetuated them, indicates a significant problem at the heart of that organization." This particular edition is based primarily on the 1978, 1983, and 1993 versions and thus reflects what was then known about Eckankar and its history. Excerpt from the prefatory section, "A number of researchers have discovered that Paul Twitchell's plagiarism was much more extensive and widespread than I even first imagined since it turns out that he had appropriated complete sentences and paragraphs from a variety of books outside of Radhasoami and Sant Mat circles. In light of the Internet and sophisticated scanning applications, it is now possible to track down most of Twitchell's sources word by word. Twitchell wrote at a time when he most likely did suspect that his massive plagiarisms would be discovered, but today it is relatively easy to see where the founder of Eckankar got his inspirations and where he indulged in literary piracy. Moreover, Twitchell's attempt to hide his past has come undone, with new documents and information showing that he never traveled to Europe or Paris at the times he claimed. Despite Twitchell's duplicity there are many who feel that he was a "master compiler" and a spiritual "smash up" artist before his time. As for myself, I find Paul Twitchell to be one of the most interesting religious leaders to have emerged from the 1960s.

Essential reading for all Catholics! Bestselling author, Scott Hahn illuminates a fresh and enlightening perspective on Mary, Mother of God, and her central importance in the Christian faith. In *The Lamb's Supper*, Hahn explored the relationship between the Book of Revelation and the Roman Catholic Mass, deftly clarifying the most subtle of theological points with analogies and anecdotes from everyday life. In *Hail, Holy Queen*, he employs the same accessible, entertaining style to demonstrate Mary's essential role in Christianity's redemptive message. Most Christians know that the life of Jesus is foreshadowed throughout the Old Testament. Through a close examination of the Bible, as well as the work of both Catholic and Protestant scholars and clergy, Hahn brings to light the small but significant details showing that just as Jesus is the "New Adam," so Mary is the "New Eve." He unveils the Marian mystery at the heart of the Book of Revelation and reveals how it is foretold in the very first pages of the Book of Genesis and in the story of King David's monarchy, which speaks of a privileged place for the mother of the king. Building on these scriptural and historical

foundations, Hahn presents a new look at the Marian doctrines: Her Immaculate Conception, Perpetual Virginity, Assumption, and Coronation. As he guides modern-day readers through passages filled with mysteries and poetry, Hahn helps them rediscover the ancient art and science of reading the Scriptures and gain a more profound understanding of their truthfulness and relevance to faith and the practice of religion in the contemporary world.

Inside the Gender Jihad Simon and Schuster
In *A History of Philosophy in the Twentieth Century*, Christian Delacampagne reviews the discipline's divergent and dramatic course and shows that its greatest figures, even the most unworldly among them, were deeply affected by events of their time. From Ludwig Wittgenstein, whose famous *Tractatus* was actually composed in the trenches during World War I, to Edmund Husserl and Martin Heidegger—one who found himself barred from public life with Hitler's coming to power, the other a member of the Nazi party who later refused to repudiate German war crimes. From Bertrand Russell, whose lifelong pacifism led him to turn from logic and mathematics to social and moral questions, and Jean-Paul Sartre, who made philosophy an occasion for direct and personal political engagement, to Rudolf Carnap, a committed socialist, and Karl Popper, a resolute opponent of Communism. From the Vienna Circle and the Frankfurt School to the contemporary work of philosophers as variously minded as Jacques Derrida, Jürgen Habermas, and Hilary Putnam. The thinking of these philosophers, and scores of others, cannot be understood without being placed in the context of the times in which they lived.

Aimed at students of classics and of philosophy who would like a taste of the subject before being committed to a full course and at those who have already started and need to find their bearings in what may seem at first a complex maze of names and schools, "Introducing Greek Philosophy" is a

concise, lively, philosophically aware introduction to ancient Greek philosophy. The book begins with the Milesians in Asia Minor before moving over to the developments in the western Greek world, then focusing on Socrates, Plato and Aristotle in Athens, finishing with the Hellenistic schools and their arrival in Rome, where the main ideas are set out in the Latin poetry of Lucretius and the prose of Cicero. The book eschews the method of most histories of ancient philosophy of addressing one thinker after another through the centuries. Instead, after a basic mapping of the territory, it takes the great themes that the Greeks were engaged in from the earliest times, and looks at them individually, their development in argument and counter-argument, from the beginnings of recorded Greek history, through the various upheavals of tyrannies, democracies, oligarchies and kingships, to their introduction into Rome in the first century BC.

Lesson Study has been actively introduced from Japan to various parts of the world, starting with the US. Such introduction is heavily connected with a focus on mathematics education and there is a strong misconception that Lesson Study is only for mathematics or science. The introduction is usually done at the departmental or form level and there has

been a strong question about its sustainability in schools. This book comprehensively explores the idea of Lesson Study for Learning Community (LSLC) and suggests that reform for the culture of the school is needed in order to change learning levels among the children, teachers and even parents. In order for this to happen, the ways of management and leadership are also included as objectives of LSLC, as are practices at the classroom level. It argues that LSLC is a comprehensive vision and framework of school reform and needs to be taken up in a holistic way across disciplines. Chapters include: How to Create Time How to Build the Team How to Promote Reform How to Reform Daily Lessons How to Conduct a Research Lesson How to Discuss Observed Lessons How to Sustain School Reform based on LSLC Strong interest in LSLC is already prevalent in Asian countries, such as Japan, China, Korea, Taiwan, Indonesia, Vietnam and Singapore and is now being introduced more in the west. This book will be of great interest to those involved in education policy and reform, and for practitioners of education at all levels.
