Disenchantment is a foundational myth of the new human sciences that emerged during the nineteenth century. By treating magic and religion as anachronisms, anthropology and sociology reinforced the myth of disenchantment, while promoting their own claim to scientific status. A taboo invites its own subversion.

DISENCHANTMENT, RATIONALITY AND THE MODERNITY OF MAX WEBER 133. wishes, one could learn it at any time. Hence, it means that principally there are no mysterious incalculable forces that come into play, but rather that one can, in principle, master all things by calculation. This means that the world is disenchanted.

Disenchantment and Modernity: The Mirror of Technique

Definitions and Characteristics of Modernity : Since the term "Modern" is used to describe a wide range of periods, any definition of modernity must account for the context in question. Modern can mean all of post-medieval European history, in the context of dividing history into three large epochs: Antiquity, Medieval, and Modern.

Disenchantment, rationality and the modernity of Max Weber

Disenchantment, in philosophy and sociology, the supposed condition of the world once science and the Enlightenment have eroded the sway of religion and superstition. The concept of disenchantment, so defined, emphasizes the opposed roles of science and religion in modern society.

Disenchantment, Rationality, and the Modernity of ... - CORE

In social science, disenchantment is the cultural rationalization and devaluation of religion apparent in modern society. The term was borrowed from Friedrich Schiller by Max Weber to describe the character of modernized, bureaucratic, secularized Western society, where scientific understanding is more highly valued than belief, and where processes are oriented toward rational goals, as opposed to traditional society, where for Weber, "the world remains a great enchanted garden".
