Technology is changing the way we do business, the way we communicate with each other, and the way we learn. This new edition is intended to help technical writers, graphic artists, engineers, and others who are charged with producing product documentation in the rapidly changing technological world. While preserving the basic guidelines for developing manuals and warnings presented in the previous edition, this new edition offers new material as well, including a much-expanded section on hazard analysis. Features Provides more explicit guidance on conducting a hazard analysis, including methods and documentation Offers in-depth discussion of digital platforms, including video, animations, and even virtual

reality, to provide users with operating instructions and safety information
Incorporates current research into effective cross-cultural communication—essential in today's global economy
Explains new US and international standards for warning labels and product instructions Presents expanded material on user analysis, including addressing generational differences in experience and preferred learning styles
Writing and Designing Manuals and Warnings, Fifth Edition explores how emerging technologies are changing the world of product documentation from videos to virtual reality and all points in between.

Popular Mechanics

For decades, Gusty's Café has been a beloved staple in Maiden Rock, Maine. Quinnie Boyd's dad runs the café, just like Quinnie's granddad before him. But the family business has new competition when a bad-boy chef from Boston opens his own place in the small vacation town. The new restaurant takes fancy

dining to the extreme. Still, that's not a crime . . . but when things start to go wrong at Gusty's, Quinnie suspects foul play. Are the people behind Restaurant Hubert trying to squash the Boyds' family café? Quinnie is about to find out if it is a coincidence--or sabotage.
