Hi, I have a dishlex global 300 dishwasher and it has been great until now! I've had it for about 7 or 8 years. But now...whilst going through a cycle it stops suddenly and the 'fast' program lights starts flashing.

I've misplaced my manual and was looking on the 'net and found this forum, so I hope someone can help me please.

300 and it is about 7 years old. It has been working well until one day it decided it didn't want to wash anymore. I was hoping someone could assist with fault finding/resolution. Symptoms are: 1) Washer fills and goes through pre-rinse cycle etc, and then stop at the wash cycle. 2) Water level is correct.

Hi people. I have a Dishlex Global 300 and im having issues. when i turn it on, the pump makes the noise like

normal to empty but no water comes out the drain. after a set time, the valve opens to fill the machine for a split second then the whole machine turns off with no lights flashing to tell me what is faulty. any ideas or estimated repair costs would be muchly appreciated
