InfoWorld Packt Publishing Ltd Using examples from his work with Disney and as a senior-level hospital executive, author Fred Lee challenges the assumptions that have defined customer service in healthcare. In this unique book, he focuses on the similarities between Disney and hospitals--both provide an "experience," not just a service. It shows how hospitals can emulate the strategies that earn Disney the trust and loyalty of their guests and employees. The book explains why standard service excellence initiatives in healthcare have not led to high patient satisfaction and loyalty, and it provides 9 1 / 2 principles that will help hospitals gain the competitive advantage that comes from being seen as "the best" by their own employees, consumers, and community.

distinguished career with Disney theme parks, designing everything from live-entertainment experiences to customer service training programs through the Disney Institute in Orlando, Florida. At only twelve years old, he began working in California as a stage, film, and television actor and would go on to appear in movies, sitcoms, and over thirty-five national television commercials. In 1987, Gravance was offered a summer job with one of the entertainment industry's most successful providers of "magical" customer experiences, Disney theme parks, beginning as a comic at Disneyland in Anaheim, California and soon thereafter embarking on a nearly three-decade adventure at the Walt Disney World Resort in Orlando, Florida. Following his hugely effective tenure in Orlando, Gravance left Disney to pursue other opportunities and soon amassed even more success working as a consultant, customer service speaker, and corporate culture guru. Louie has designed multimillion-dollar service campaigns for companies such as Bank of America, ING Financial, Choice Hotels, Nikon, and The American Council of Independent Laboratories. Gravance is the recipient of the Disney Partners in Excellence Award and the Spirit of Disney Award and has been recognized internationally as a leading keynote speaker on the topic of customer service and employee engagement.

our careers, our organizations, and our lives is simple: outstanding leadership—the kind that inspires employees, delights customers, and achieves extraordinary business results. No one knows more about this kind of leadership than Lee Cockerell, the man who ran Walt Disney World® Resort operations for over a decade. And in *Creating Magic*, he shares the leadership principles that not only guided his own journey from a poor farm boy in Oklahoma to the head of operations for a multibillion dollar enterprise, but that also soon came to form the cultural bedrock of the world's number one vacation destination. But as Lee demonstrates, great leadership isn't about mastering impossibly complex management theories. We can all become outstanding leaders by following the ten practical, common sense strategies outlined in this remarkable book. As straightforward as they are profound, these leadership lessons include: Everyone is important. Make your people your brand. Burn the free fuel: appreciation, recognition, and encouragement. Give people a purpose, not just a job. Combining surprising business wisdom with insightful and entertaining stories from Lee's four decades on the front lines of some of the world's best-run companies, *Creating Magic* shows all of us – from small business owners to managers at every level – how to become better leaders by infusing quality, character, courage, enthusiasm, and integrity into our workplace and into our lives.

**#1 NEW YORK TIMES BESTSELLER** • A memoir of leadership and success: The executive chairman of Disney, *Time*'s 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one

of the world's most beloved companies and inspiring the people who bring the magic to life. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR** Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including:

- Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming.
- Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity.
- Decisiveness. All decisions, no

matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale. • Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It ' s also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. “ The ideas in this book strike me as universal ” Iger writes. “ Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives. ”
