Merely said, the Dissolution Of Marriage is universally compatible gone any devices to read.

Florida Divorce Handbook Lexis Pub

Since 1970, all the states adopted no-fault divorce statutes, which have had the unexpected effect of producing dire financial conditions for many divorced women and their children. In this important study, economist and lawyer Allen Parkman shows how no-fault divorce has systematically operated against the interests of these women and children. With rare economic and legal insight, Parkman argues that by changing the grounds for divorce without changing the laws that define and allocate property at divorce, the legal system created substantial injustices. The key mistake, he suggests, was in accepting a definition of property that did not include the income-earning capacity--human capital--of the individuals involved. Using human capital theory, Parkman criticizes current divorce law and presents a framework for reform that would reduce the injustices introduced by no-fault divorce. He concludes that a thorough reform, however, may require the changing of the grounds for divorce to mutual consent. This book is essential reading for scholars, professionals, and, indeed, for anyone interested in the health and future of the family and the well-being of women in contemporary U.S. society.

LGBTQ Divorce and Relationship Dissolution

University of Chicago Press

This updated sixth edition reflects the most recent changes in family law in Florida. It offers an overview of the divorce process, introduces the basic

vocabulary and legal concepts associated with divorce, and familiarizes you with what to expect if you are planning to divorce in Florida or if you are already divorced and have questions about your rights. Property division and child custody are outlined in separate chapters. Special topics include the mediation process, financial affidavit preparation and tax aspects of divorce. This book also covers the simplified dissolution of marriage procedure, which allows couples who have no children or property disputes to file for divorce without an attorney.

Cohabitation, Marriage, Marital Dissolution, and Remarriage Rowman & Littlefield

Conflict and controversy usually accompany major social changes in America. Such issues as civil rights, abortion, and the proposed Equal Rights Amendment provoke strong and divisive reactions, attract extensive media coverage, and generate heated legislative debate. Some theorists even claim that only mobilization and publicity can stimulate significant legislative change. How is it possible, then, that a wholesale revamping of American divorce law occurred with scarcely a whisper of controversy and without any national debate? This is the central question posed—and authoritatively answered—in Herbert Jacob's Silent Revolution. Since 1966, divorce laws in the United States have undergone a radical transformation. No-fault divorce is now universally available. Alimony functions simply as a brief transitional payment to help a dependent spouse become independent. Most states divide assets at divorce according to a community property scheme, and, whenever possible, many courts prefer to award custody of children to the mother and the father jointly. These changes in policy represent a profound departure from traditional American values, and yet the legislation by which they were enacted was treated as a technical correction of minor problems. No-fault divorce, for example, was a response to the increasing number of fraudulent divorce petitions. Since couples were often forced to manufacture the evidence of guilt that many states required, and since judges frequently looked

the other way, legal reformers sought no more than to bring divorce statutes into line with current practice. On the basis of such observations, Jacob formulates a new theory of routine—as opposed to conflictual—policy-making processes. Many potentially controversial policies—divorce law reforms among them—pass unnoticed in America because legislators treat them as matters of routine. Jacob's is indeed the most plausible account of the enormous number and steady flow of policy decisions made by state legislatures. It also explains why no attention was paid to the effect divorce reform would have on divorced women and their children, a subject that has become increasingly controversial and that, consequently, is not likely to be handled by the routine policy-making process in the future.

No-fault Divorce LexisNexis/Matthew Bender

Almost no one goes into a marriage expecting to get divorced. But if you find yourself on the brink of parting ways with your spouse, it's best to be prepared. Based on sociological and economic analysis, *Good Intentions Gone Awry* presents valuable new insights into the impact of divorce on American society. Rather than blaming the deterioration in the quality of family life on the decline in so-called "family values," lawyer and economist Parkman argues that adults are responding to the incentives created by new opportunities and legal rules. Allen M. Parkman discusses the issues surrounding this sociological phenomena, proposes a reform program in response, and suggests steps that adults can take to create a durable and constructive family until such reforms occur.

This Handbook presents up-to-date scholarship on the causes and predictors, processes, and consequences of divorce and relationship dissolution. Featuring contributions from multiple disciplines, this Handbook reviews relationship termination, including variations depending on legal status, race/ethnicity, and sexual orientation. The Handbook focuses on the often-neglected processes involved as the relationship unfolds, such as infidelity, hurt, and remarriage. It also covers the legal and policy aspects, the demographics, and the historical aspects of divorce. Intended for researchers, practitioners, counselors, clinicians, and advanced students in psychology, sociology, family studies, communication, and nursing, the book serves as a text in courses on divorce, marriage and the family, and close relationships.

**Florida Divorce Handbook** Sphinx Publishing

The fifth edition of the Florida Divorce Handbook reflects the most recent changes in family law in Florida. It offers an overview of the divorce process, introduces the basic vocabulary and legal concepts associated with divorce, and familiarizes you with what to expect if you are planning to divorce in Florida or if you are already divorced and have questions about your rights. Dissolution is a new word for divorce. In *Dissolution*, Riane Eisler discusses the fundamental societal and litigious changes of divorce from an action that was until recently an unacceptable social phenomenon to what is now commonplace. The book compares the old divorce laws based on marital fault with new "no-fault" divorce laws, an analysis of the laws and

---

institutions of marriage and divorce, and alternatives (social and litigious) to marriage and divorce. Quotes about Dissolution: "Dissolution is must reading for every woman...whether she already believes in equal rights for all beings or belongs to the Phyllis Schlafly school of thought. Riane Eisler's work is the most definitive yet on the female species and her rights." – Rona Barrett, Good Morning America, ABC-TV "Only those of us who have gone through divorce without your book can fully appreciate its value. Its factual information gives strength. Its innate empathy comforts. Its totality is an integral part of the body of great feminist writings." – Frances Lear, President, Lear Purvis Walker & Co.

Divorce and Dissolution of Marriage Laws of the United States

Carbondale, IL : Nova Publishing Company, Legal Publications

What unique challenges face LGBTQ individuals in relationships or who are separating or divorcing, especially now that same-sex couples may marry? What issues might complicate the ending of relationships when children, multiple partners, or multiple parents are present? How do gender, gender transition, ethnicity, immigration status, economic status, geography, and other characteristics shape the experiences of divorcing or separating LGBTQ people? Finally, how can therapists and lawyers most effectively assist LGBTQ people whose relationships and families are dissolving? LGBTQ Divorce and Relationship Dissolution: Psychological and Legal Perspectives and Implications for Practice brings together social science and legal perspectives to examine the timely topic of relationship dissolution and divorce among sexual and gender minorities. The first edited book to tackle this topic in an informed, comprehensive, and interdisciplinary matter, this volume gathers and expands current knowledge on topics such as LGBTQ people's relationship and dissolution patterns; the divorce and child custody rules and processes that now apply to many LGBTQ families; and the surrounding political and cultural environment in the United States. It will also address practical issues such as mediation with same-sex couples who are separating or divorcing, financial planning, and family therapy for sexual minority parents and their children in the context of divorce/dissolution. With chapters contributed by leading scholars and practitioners from law, political science, psychology, sociology, and other disciplines, LGBTQ Divorce and Relationship Dissolution will be an invaluable resource for academics, practitioners, policymakers, and LGBTQ people. It will also be of interest to students in psychology, counseling, law, and LGBTQ and gender studies.
