Distance Time Speed Practice Problems

**Time distance speed problems with solutions pdf**

The total distance traveled is 2 miles plus 3 miles, which equals 5 miles. And the total time is equal to 10 minutes plus 20 minutes, which equals 30 minutes. But speeds are usually measured in miles per hour, not miles per minute, so instead of using 30 minutes, let's call it 0.5 hours, which is half an hour.
