As the world becomes more diverse and more integrated, examining how racial, political, and food diversity influences individuals' consumption, behaviors, and health becomes more paramount than ever before. The United States grows more racially diverse with large racial and ethnic shifts on

the horizon regarding the proportion of the population. With the U.S. population expected to become more diverse, individuals' political affiliation becoming more prevalent to personal identity, and food security becoming more problematic; we examine how racial, political, and food diversity influences individuals' consumption and preferences with the intent to understand what changes in health and preferences may occur. These essays contribute to the literature in a novel way by understanding how the local racial, political, and food environments impact individual consumption and behavior choices. Additionally, these papers novel approaches yield strong evidence that these

different measures of diversity play an important and larger role in individuals' daily lives then realized. We utilize a cutting edge propensity score matching technique to understand the impact of the food access program WIC (Women, Infants, and Children Supplemental Health Program) in "WIC Participation and Relative Quality of Household Food Purchases: Evidence from FoodAPS" essay. In this essay, we show the health benefits participants in WIC receive when participating in the program. Second, we leverage a special type of survey called a List Experiment to understand respondents' social desirability bias given their political environment in the essay titled "Social

Desirability Bias and Polling Errors in the 2016 Presidential Election." In this essay, we show that people respond differently to the question of whether they support a particular presidential candidate when they are given the opportunity to directly or indirectly express this support. Lastly, we explore how local racial diversity directly impacts an individual's healthy food consumption in the essay titled "Diversity and Health: Exploring Local Racial Diversity's Impact on Health Through Food Consumption". This final essay attempts to ascertain the associative effects of racial diversity on an individual's healthy food consumption. This result shows the dramatic impact racial diversity has on healthy food consumption by improving individuals' food intake, but concentrated on certain races. Overall, this dissertation shows the dramatic influence social and environmental context has on individual outcomes via health and preferences.

Close to one billion women will enter the global workforce by 2020, but these women are likely to drop out or get stuck in dead-end jobs. Gender equality is a human rights issue, but engaging women in the workforce is primarily an economic

issue-diverse leaders drive bottom-line growth and high-level innovation for global corporations. This book isn't only for women, chief inclusion officers or HR practitioners. It offers insight and case studies from global leaders on why it's a priority for everyone in an organization. To attract, retain and promote women, the best companies worldwide have made inclusion part of their entire culture, not just their hiring processes. Diversity in the workplace isn't just the "right" thing to do-it's a financially savvy strategy in today's hyper-competitive digital marketplace.

"Blackness is an art, not a science. It is a paradox: intangible and visceral; a situation and a story. It is the thread that connects these essays, but its significance as an experience emerges randomly, unpredictably. . . . Race is the story of my life, and therefore black is the body of this book." In these twelve deeply personal, connected essays, Bernard details the experience of growing up black in the south with a family name inherited from a white man, surviving a random stabbing at a New Haven coffee shop, marrying a white man from the North and bringing him home to her family, adopting two children from Ethiopia, and living and teaching in a primarily white New England college town. Each of these essays sets out to discover a new way of talking about race

and of telling the truth as the author has lived it. "Black Is the Body is one of the most beautiful, elegant memoirs I've ever read. It's about race, it's about womanhood, it's about friendship, it's about a life of the mind, and also a life of the body. But more than anything, it's about love. I can't praise Emily Bernard enough for what she has created in these pages." --Elizabeth Gilbert WINNER OF THE CHRISTOPHER ISHERWOOD PRIZE FOR AUTOBIOGRAPHICAL PROSE NAMED A BEST BOOK OF THE YEAR BY NPR AND KIRKUS REVIEWS ONE OF MAUREEN CORRIGAN'S 10 UNPUTDOWNABLE READS OF THE YEAR

The essays in this book originate from a joint project between the National University of Singapore (NUS) and University of California in Los Angeles (UCLA) on the theme of Chinese emigration and settlement, with reference to the process of adaptation. The papers here feature the Chinese immigrants in Indonesia, Malaysia, and Singapore--the problems they faced in the Western colonies; their social, cultural, and economic activities; and their attempts to adjust to the new environment especially

after these colonies became independent. The process of change and adaptation is reflected in their communities and their literature.

" Michaels has written a bracing polemic that should quicken the debate over what diversity really means, or should mean, in academia and beyond. " —The New York Review of Books If there's one thing Americans agree on, it's the value of diversity. Our corporations vie for slots in the Diversity Top 50, our universities brag about minority recruiting, and every month is Somebody's History Month. But in this " eloquent " (Chicago Tribune) and " captivating " (Los Angeles Times) book, Walter Benn Michaels argues that our enthusiastic celebration of " difference " masks our neglect of America's vast and growing economic divide. When it was first published in 2006, *The Trouble with Diversity* provoked a firestorm of praise and condemnation—not only hailed as

" genius " (The Economist), " cogent " (The New Yorker), and " impossible to disagree with " (The Washington Post) it was excoriated as a " wildly implausible " product of " the ' shock and awe ' school of political argument " (Slate) and " Seething, misplaced, amnesiac resentment " (The Nation). Now, a decade later, Michaels offers a new afterword on how our regime of equal-opportunity exploitation has only intensified. Magnificently iconoclastic, he demonstrates that commitments to diversity fail to offer a premise for social justice and in fact legitimize the economic forces that drive inequality rather than offering a resistance or even a critique. Most importantly, he makes the case that we should pay less attention to the illusory distinction of culture, and more attention to the real discrepancies of class and wealth. *Beyond the Traditional Essay: Increasing Student Agency in a Diverse Classroom with Nondisposable Assignments* New York : Harper & Row *Writing about Diversity: An Argument Reader and Guide* has the dual purpose of linking instruction in argumentation and critical thinking with readings concerned with timely and controversial

topic of multiculturalism. An important premise of this book continues to be that students write more effective argumentative essays when the topic is linked, at least initially, with their own experience. This text emphasizes that writing about any issue originates with the self and that it is difficult for students to formulate an opinion and develop a convincing these about a topic unless they first explore their own perspective on it. Although, *Writing About Diversity* also stress the importance of expanding student understanding by reading material from a variety of information sources -- magazines, journals, books, and material obtained over the Internet. An entire chapter is devoted to helping students develop effective strategies for reading and evaluating outside sources. With the skills they develop in writing essays about difficult subjects, the students will write more thoughtful, effective essays.

This documentary study of Thomas Jefferson and Alexander Hamilton focuses on their differing views of society and government in the formative years of the new American nation. Interweaving more than 40 documents into 7 chronological chapters, the text follows the lives and careers of the two men from their youth, through the Revolutionary War, to the death of Hamilton in 1804. In each chapter, generous excerpts from their public papers and private letters reveal the two men's often divergent views on government and the Constitution, economic and foreign policy, and the military, and illustrate the roles they

played in the emergence of political parties.

Reading Jefferson's First Inaugural Address, the Report on Public Credit, the Kentucky Resolutions, and a host of other documents, students can explore first-hand the two men's philosophies and the impact these had on the emerging nation.

Shaping Tradition Sourcebooks, Inc.

This original and provocative book is concerned with fundamental questions in moral, political, and legal philosophy. It challenges both supporters and sceptics alike to rethink their ideas about human rights. The author explains that human life is not the same everywhere, noting that there are different traditions of culture and civilization. He argues that an adequate idea of human rights must take such a diversity seriously, and unlike the UN Declaration, it must not presuppose Western institutions and values. This theory of human rights developed by Milne deals systematically with the philosophical issues it raises. He shows that human rights can only be a minimum standard, not a panacea for the troubles of humanity. And that this significance, although modest, should not be underrated.

Diversity and Change in Early Canadian Women's Writing is a collection of nine essays, thematically arranged, dedicated to the works of women writing between 1828 and 1914. It is for all those readers who were certain that there had to be diverse, interesting, socially relevant voices in early Canadian women's writing. It is, equally, for sceptics, who will find that early Canada is not bereft of women writers, or of writing of substance. When Lorraine McMullen published the collection of essays *Re(dis)covering Our Foremothers* in 1990, she considered the field in its infancy. As keen as literary historians and critics have been to assess the contributions of women to Canada's early cultural scene, this collection moves beyond listing which women were writing in early Canada, and brings together a study of their journalistic and literary works. For a nation caught up in projects to enhance nation-building, and concerned with the development of its national literature, the

essays reconnect with early literary works by women. Eighteen years after McMullen's, this collection shows the progression along the path that hers initiated. Working with theories of genre, gender, socio-politics, literature, history, and drama, the essayists make cases not only for the women writing, but also for the literary voices they created to work for diversity and social change in Canada.

The "Other"—source of fear and fascination; emblem of difference demonized and romanticized. Theories of alterity and cultural diversity abound in the contemporary academic landscape. Victor Segalen's early attempt to theorize the exotic is a crucial reference point for all discussions of alterity, diversity, and ethnicity. Written over the course of fourteen years between 1904 and 1918, at the height of the age of imperialism, *Essay on Exoticism* encompasses Segalen's attempts to define "true Exoticism." This concept, he hoped, would not only replace nineteenth-century notions of exoticism that he considered tawdry and romantic, but also redirect his contemporaries' propensity to reduce the exotic to the "colonial." His critique envisions a mechanism that appreciates cultural difference—which it posits as an aesthetic and ontological value—rather than assimilating it: "Exoticism's power is nothing other than the ability to conceive

otherwise," he writes. Segalen's pioneering work on otherness anticipates and informs much of the current postcolonial critique of colonial discourse. As such *Essay on Exoticism* is essential reading for both cultural theorists or those with an interest in the politics of difference and diversity.

What role did America's newspaper advice columnists play in shaping and forming societal attitudes toward LGBTQ people throughout the 20th century? They served the dual function of offering advice and satisfying the curious. They also often provided the first mention of homosexuality outside of newspaper crime blotters. More than 100 million readers regularly read the columns. This book chronicles some of the most popular and widely circulated newspaper columns between the 1930s and 2000, including Ann Landers, Dear Abby, Helen Help Us!, Dr. Joyce Brothers, The Worry Clinic, Dear Meg, Ask Beth, and Savage Love. It examines the function of these columns regarding the place

of LGBTQ people in America and what role they played in forming a public opinion. From these columns, we learn not only the framework of how straight Americans understood their homosexual brethren, but also how attitudes and feelings continued to evolve.

If one might hazard an opinion as to the literary form in which this protean writer excels, one might justly predicate the essay, particularly such not long enough to allow him to become tangled in his own complicated cleverness!

"The Uses of Diversity" is a kaleidoscope, a crazy-quilt, an olla-podrida, that he has made of his weekly page, "Our Notebook," in the Illustrated London News, where he succeeded his friend and sympathizer, Hilaire Belloc, and where he roamed at will and unrestrained among books, men and questions of the hour. His titles know no restriction—they run the gamut of variety, and to make diversity doubly diverse, they often have little to do with the subject nominally under discussion. Even when he sticks to his caption, it is in startling fashion, for the only thing to expect of Chesterton is the unexpected. On the whole, this collection shows our famous British visitor in his most genial and witty mood.
