B is for Burglar, from Sue Grafton's #1 New York Times bestselling Kinsey Millhone Alphabet mystery series Beverly Danziger looked like an expensive, carefully wrapped package from a good but conservative shop. Only her compulsive chatter hinted at the nervousness beneath her cool surface. It was a nervousness out of all proportion to the problem she placed before Kinsey Millhone. There was an absent sister. A will to be settled--a matter of only a few thousand dollars. Mrs. Danziger did not look as if she needed a few thousand dollars. And she didn't seem like someone longing for a family reunion. Still, business was slow, and even a private investigator has bills to pay. Millhone took the job. It looked routine.

Elaine Boldt's wrappings were a good deal flashier than her sister's, but they signaled the same thing: The lady had money. A rich widow in her early forties, she owned a condo in Boca Raton and another in Santa Teresa. According to the manager of the California building, she was last seen draped in her \$12,000 lynx coat heading for Boca Raton. According to the manager of the Florida building, she never got there. But someone else had and she was camping out illegally in Mrs. Boldt's apartment. The job was beginning to seem a bit less routine. It turned tricky when Beverly Danziger ordered Millhone to drop the case and it took on an ominous quality when Aubrey Danziger surfaced, making all kinds of wild accusations about his wife. But it only became sinister when Millhone learned that just days before Elaine Boldt went missing, her next-door neighbor and bridge partner had been murdered and the killer was still at large. A house destroyed by arson. A brutally murdered a woman. A missing lynx coat. An apartment burgled of valueless papers, another ransacked in a melée of mindless destruction. And more murder. As Millhone digs deeper into the case, she finds herself in a nightmarish hall of mirrors in which reality is distorted by illusion and nothing--except danger--is quite what it seems. Completely revised and updated, this new edition provides a readable, beautifully illustrated journey through world cultures and the vibrant array of sky mythology, creation stories, models of the universe, temples and skyscrapers that each culture has created to celebrate and respond to the power of the night sky. Sections on the archaeoastronomy of South Asia and South East Asia have been expanded, with original photography and new research on temple alignments in Southern India, and new material describing the astronomical practices of Indonesia, Malaysia and other Southeast Asian countries. Beautiful photographs of temples in India and Asia have been added, as well as new diagrams explaining the alignment of these structures and the astronomical underpinnings of temples within the

Pallava and Chola cultures. From new fieldwork in the Four Corners region of North America, Dr. Penprase has included accounts of Pueblo skywatching and photographs of ceremonial kivas that help elucidate the rich astronomical knowledge of the Pueblo people. The popular “ Archaeoastronomy of Skyscrapers ” section of the book has been updated as well, with new interpretations of skyscrapers in Indonesia, Taiwan and China. With the rapid pace of discovery in astronomy and astrophysics, entirely new perspectives are emerging about dark matter, inflation and the future of the universe. The Power of Stars puts these discoveries in context and describes how they fit into the modern perspective of cosmology, which has arisen from the universal human response to the sky that has inspired both ancient and modern cultures.

Redbird's adventures at the school take a mysterious turn. Those who appear to be friends are turning out to be enemies. And oddly enough, sworn enemies are also turning into friends.
