TV Guide Dream Credit

THE SUNDAY TIMES BESTSELLER AND OFFICIAL COMPANION TO THE HIT BBC SERIES BBC's The Repair Shop is a place where Britain's most skilled and caring craftspeople rescue and resurrect items that owners thought were beyond saving. Their shared love of craft has helped hundreds of people recover and relive cherished memories, and inspired millions to rediscover their own prized possessions. The skill required to properly restore those items may be beyond most of us, but there are small things we can all do to care for the items we love the most. How do you replenish the stuffing in your child's beloved, tatty teddy bear, for instance? Or remove a water mark left on your wooden table? What's the best way to prevent your leather from cracking? Direct from the Repair Shop's 'Workshop of Dreams', this 'make do and mend' guide

collects advice and stories from each of the show's experts, to help you understand and care for those aging treasures and heirlooms around your house or gathering dust in the garage. Whether it's wood, ceramics, leather or silverware, you will get to know your materials, tools and terms from Britain's best, as the Repair Shop experts share their tips on restoring and conserving, reveal their favourite tools, and provide a series of small, manageable projects that help tackle the most common problems that occur in their given medium. Their book, like the show it accompanies, with help you safeguard your sentimental legacy for generations to come.

Every year, millions of people throw away countless items because they don't know how to fix them. Some products are manufactured in a way that makes it hard, if not impossible, for people to repair them themselves. This throwaway lifestyle depletes Earth's resources and adds to overflowing landfills. Now there's a better way. Repair Revolution chronicles the rise of Repair Cafes, Fixit Clinics, and other volunteer-run organizations devoted to helping consumers repair their beloved but broken items for free. Repair Revolution explores the philosophy and wisdom of repairing, as well as the Right to Repair movement. It provides inspiration and instructions for starting, staffing, and sustaining your own repair events. "Fixperts" share their favorite online repair resources, as well as tips and step-by-step instructions for how to make your own repairs. Ultimately, Repair Revolution is about more than fixing material objects: in an age of over-consumption and planned obsolescence, do-it-yourself repair is a way of caring for our lives, our communities, and our planet.

There is a queue, the phone is ringing, the photocopier has jammed and your enquirer is waiting for a response. You are stressed and you can feel the panic rising. Where do you go to find the information you need to answer the question promptly and accurately? Answering queries from users is one of the most important services undertaken by library and information staff. Yet it is also one of the most difficult, least understood subjects. There are still very few materials available to help frontline staff - often paraprofessional - develop their reader enquiry skills. This award-winning sourcebook is an essential guide to where to look to find the answers quickly. It is designed as a first point of reference for library and information practitioners, to be depended upon if they are unfamiliar with the subject of an enquiry - or wish to find out more. It is arranged in an easily searchable, fully cross-referenced A-Z list of around 150 of the subject areas most frequently handled at enquiry desks. Each subject entry lists the most important information sources and where to locate them, including printed and electronic sources, relevant websites and useful contacts for referral purposes. The authors use their extensive experience in reference work to offer useful tips, warn of potential pitfalls, and spotlight typical queries and how to tackle them. This new edition has been brought right up-to-date with all sources checked for currency and many new ones added. The searchability is enhanced by a comprehensive index to make those essential sources even easier to find - saving you valuable minutes! Readership: Offering quick and easy pointers to a multitude of information sources, this is an invaluable reference deskbook for all library and information staff in need of a speedy answer, in reference libraries, subject departments and other information units.

Beginner's Guide to DIY & Home Repair SAGE Publications

It is a modern activity, one of the primary ways we consume information and entertainment, something we'll do over dinner, at a bar, or even standing on the street peering into a store window—watch TV. Many of us spend countless hours in front of the tube, and even those of us who have proudly eliminated it from our lives can probably still rattle off the names of today's most popular shows. But for as crucial as television viewing is in modern culture, the television set itself, as a ubiquitous object in our environment, rarely captures our attention—turn one off and it seems to all but disappear. In this book, Chris Horrocks tells the story of the television set,

exploring its contradictory presence in our lives as both a material object and a conveyor of illusory images. Horrocks begins in the nineteenth century and television's prehistory as a fantastic, futuristic concept. He follows the television's journey from its strange roots in spiritualism, imperialism, and Victorian experiments in electro-magnetism to the contested accounts of its actual invention, looking at the work of engineering pioneers such as Philo Farnsworth and John Logie Baird. Unboxing sets all across the world, he details how it arrived as an essential consumer product and began to play an extraordinary role as a bridge between public and private life. Horrocks describes how the console and cabinet themselves expressed status and good taste and how their designs drew on cultural phenomena such as the space race and the avant-garde. He discusses how we have both loved it for what it can provide and reviled it as a sinister object literally controlling our thoughts, and he shows how it has figured in other cultural realms, such as the work of artists like Wolf Vostell and Nam June Paik. Finally, Horrocks laments the death of the cathode ray tube and the emergence of the flat-screen, which has reduced the presence of the television as a significant material object. Altogether, *The Joy of Sets* brings this most elusive object into crystal-clear critical and historical focus.
