true story of Paul Fronczak, a

man who recently discovered that he had been kidnapped as a baby—and how his quest to find out who he really is upturned the genealogy industry, his own family, and set in motion the second longest cold-case in US history. In 1964, a woman pretending to be a nurse kidnapped an infant boy named Paul Fronczak from a Chicago hospital. Two years later, police found a boy abandoned outside a variety store in New Jersey. The FBI tracked down Dora Fronczak, the kidnapped infant's mother, and she identified the abandoned boy as her son. The

family spent the next fifty years believing they were whole again—but Paul was always unsure about his true identity. Then, four years ago—spurred on by the birth of his first child, Emma Faith—Paul took a DNA test. The test revealed that he was definitely not Paul Fronczak. From that moment on, Paul has been on a tireless mission to find the man whose life he's been living—and to discover who abandoned him, and why. Poignant and inspiring, *The Foundling* is a story about a child lost and a faith found, about the permanence of families and the

bloodlines that define you, and about the emotional toll of both losing your identity and rediscovering who you truly are.

Washington Post * Publisher's Weekly * Kirkus Reviews* Booklist * The Boston Globe * Goodreads * Buzzfeed * Town & Country * Refinery29 * BookRiot * CrimeReads * Glamour * Popsugar * PureWow * Shondaland Dive into a "tour de force of investigative reporting" (Ron Chernow): a "searching, atmospheric and ultimately entrancing" (Patrick Radden Keefe) true crime narrative of an unsolved 1969 murder at Harvard and an "exhilarating and seductive" (Ariel Levy) narrative of obsession and love for a girl who dreamt of rising among men. You have to remember, he reminded me, that Harvard is older than the U.S. government. You have to remember because Harvard doesn't let you forget. 1969: the height of counterculture and the year universities would seek to curb the unruly spectacle of student protest; the winter that Harvard University would begin the tumultuous process of merging with Radcliffe, its all-female sister school; and the year that Jane Britton, an ambitious twenty-three-year-old graduate student in Harvard's Anthropology Department and daughter of Radcliffe Vice President J. Boyd Britton, would be found bludgeoned to death in her Cambridge, Massachusetts apartment. Forty years later, Becky Cooper a curious undergrad, will hear the first whispers of the story. In the first telling the body was nameless. The story was this: a Harvard student had had an affair with her professor, and the professor had murdered her in the Peabody Museum of Archaeology and Ethnology

because she'd threatened to talk about the affair. Though the rumor proves false, the story that unfolds, one that Cooper will follow for ten years, is even more complex: a tale of gender inequality in academia, a 'cowboy culture' among empowered male elites, the silencing effect of institutions, and our compulsion to rewrite the stories of female victims. *We Keep the Dead Close* is a memoir of mirrors, misogyny, and murder. It is at once a rumination on the violence and oppression that rules our

revered institutions, a ghost story reflecting one young woman's past onto another's present, and a love story for a girl who was lost to history.

Trace Your Roots with DNA Oxford University Press

Scott Sigler reinvented the alien-invasion story in his bestselling novels *Infected* and *Contagious*... rebooted the biotech thriller in *Ancestor*...now, in his most ambitious, sweeping novel to date, he works his

magic on the paranormal thriller, taking us inside a terrifying underworld of subterranean predators that only his twisted mind could invent.

Homicide detective Bryan Clauser is losing his mind. How else to explain the dreams he keeps having—dreams that mirror, with impossible accuracy, the gruesome serial murders taking place all over San

Francisco? How else to explain the feelings these dreams provoke in him—not disgust, not horror, but excitement? As Bryan and his longtime partner, Lawrence “Pookie” Chang, investigate the murders, they learn that things are even stranger than they at first seem. For the victims are all enemies of a seemingly ordinary young boy—a boy who is gripped by the same dreams that haunt Bryan. Meanwhile, a shadowy vigilante, seemingly armed with superhuman powers, is out there killing the killers. And Bryan and Pookie’s superiors—from the mayor on down—seem strangely eager to keep the detectives from discovering the truth. Doubting his own sanity and stripped of his badge, Bryan begins to suspect that he’s stumbled into the crosshairs of a shadow war that has gripped his city for more than a century—a war waged by a race of killers living in San Francisco’s unknown, underground ruins, emerging at night to feed on those who will not be missed. And as Bryan learns the truth about his own intimate connections to the killings, he discovers that those who matter most to

him are in mortal danger...and that he may be the only man gifted—or cursed—with the power to do battle with the nocturnals. Featuring a dazzlingly plotted mystery and a terrifying descent into a nightmarish underworld—along with some of the most incredible action scenes ever put to paper, and an explosive, gut-wrenching conclusion you won't soon

forget—Nocturnal is the most spectacular outing to date from one of the genre's brightest stars.

Thirty years ago, the South Side Strangler serial killer terrorized the city of Richmond, Virginia, brutally raping and murdering women in their homes. This gripping, epic true-crime tale is one the most important chapters in the history of forensic

science and the modern American criminal justice system, marking the first time in U.S. history that a murderer was brought to justice using DNA evidence. An adaptation of the popular true-crime podcast Southern Nightmare, this book is based on interviews with retired homicide detectives, FBI profilers, prosecutors, defense attorneys and friends and family of the victims. **Cinefantastique** Grand Central Publishing
A Washington Post Best Book of the Year A standalone

psychological thriller from the acclaimed author of the Alex Morrow novels that exposes the dark hearts of the guilty...and the innocent. William Watt's wife, daughter, and sister-in-law are dead, slaughtered in their own home in a brutal crime that scandalized Glasgow. Despite an ironclad alibi, police zero in on Watt as the primary suspect, but he maintains his innocence. Distracted and desperate to clear his name, Watt puts out a bounty for information that will lead him to the real killer. Peter Manuel claims he knows the truth that will set Watt free and has information that only the killer would know. It won't come cheap. Manuel is an infamous career criminal, a

degenerate liar who can't be trusted and will say, or do, anything to make a buck. But Manuel has something that Watt wants, which makes him the perfect target for Manuel's consummate con. Watt agrees to sit down with Manuel and before they know it, one drink has turned into an epic, forgotten night of carousing across the city's bars and clubs that exposes the thin line between a good yarn and the truth. The next time the unlikely pair meets is across the witness stand in court--where Manuel is on trial for the murder of Watt's family. Manuel calls Watt to the stand to testify about the long, shady night they shared together. And the shocking testimony that Manuel coaxes out

of Watt threatens to expose the dark hearts of the guilty...and the innocent. Based on true events, **THE LONG DROP** is an explosive, unsettling novel about guilt, innocence and the power of a good story to hide the difference.

Three Bags Full M. Evans
A perfect family is shattered
when their daughter goes
missing in this "brilliantly
executed" New York Times
bestselling thriller from a
"master storyteller"

(Providence Sunday Journal).
You've lost your daughter.
She's addicted to drugs and to
an abusive boyfriend. And she's
made it clear that she doesn't
want to be found. Then, by
chance, you see her playing
guitar in Central Park. But she's
not the girl you remember. This
woman is living on the edge,
frightened, and clearly in
trouble. You don't stop to think.
You approach her, beg her to
come home. She runs. And you
do the only thing a parent can
do: you follow her into a dark
and dangerous world you never
knew existed. Before you know
it, both your family and your

life are on the line. And in order
to protect your daughter from
the evils of that world, you
must face them head on.

Thrilling, true tales from the
Vidocq Society, a team of the
world's finest forensic
investigators whose monthly
gourmet lunches lead to justice
in ice-cold murders Three of
the greatest detectives in the
world--a renowned FBI agent
turned private eye, a sculptor
and lothario who speaks to the
dead, and an eccentric profiler
known as "the living Sherlock

Holmes"-were heartsick over the growing tide of unsolved murders. Good friends and sometime rivals William Fleisher, Frank Bender, and Richard Walter decided one day over lunch that something had to be done, and pledged themselves to a grand quest for justice. The three men invited the greatest collection of forensic investigators ever assembled, drawn from five continents, to the Downtown Club in Philadelphia to begin an audacious quest: to bring the coldest killers in the world to an accounting. Named for the first modern detective, the

Parisian eugène François Vidocq-the flamboyant Napoleonic real-life sleuth who inspired Sherlock Holmes-the Vidocq Society meets monthly in its secretive chambers to solve a cold murder over a gourmet lunch. The Murder Room draws the reader into a chilling, darkly humorous, awe-inspiring world as the three partners travel far from their Victorian dining room to hunt the ruthless killers of a millionaire's son, a serial killer who carves off faces, and a child killer enjoying fifty years of freedom and dark fantasy. Acclaimed bestselling author

Michael Capuzzo's brilliant storytelling brings true crime to life more realistically and vividly than it has ever been portrayed before. It is a world of dazzlingly bright forensic science; true evil as old as the Bible and dark as the pages of Dostoevsky; and a group of flawed, passionate men and women, inspired by their own wounded hearts to make a stand for truth, goodness, and justice in a world gone mad. The Long Drop Crown

The companion how-to guide

to the hit TV series-with advice for anyone starting their own genealogical search. In the groundbreaking NBC series *Who Do You Think You Are?* seven celebrities-Sarah Jessica Parker, Emmitt Smith, Lisa Kudrow, Matthew Broderick, Brooke Shields, Susan Sarandon, and Spike Lee-went on an emotional journey to trace their family history and discover who they really are, and millions of viewers caught the genealogy bug. With the official companion guide, anyone can learn how to chart their family's unique path. Featuring step-by-step

instructions from Megan Smolenyak², one of America's top genealogical researchers, this book offers everything readers need to know to start the journey into their past, from digging through old photos, to finding the best online resources.

We Keep the Dead Close

Minotaur Books

Written by two of the country's top genealogists, this is the first book to explain how new and groundbreaking genetic testing can help you research your ancestry According to American Demographics, 113 million Americans have begun to trace their roots, making genealogy the

second most popular hobby in the country (after gardening). Enthusiasts clamor for new information from dozens of subscription-based websites, email newsletters, and magazines devoted to the subject. For these eager roots-seekers looking to take their searches to the next level, DNA testing is the answer. After a brief introduction to genealogy and genetics fundamentals, the authors explain the types of available testing, what kind of information the tests can provide, how to interpret the results, and how the tests work (it doesn't involve digging up your dead relatives). It's inexpensive, easy to do, and the results are accurate: It's as simple as

swabbing the inside of your cheek and popping a sample in the mail. Family lore has it that a branch of our family emigrated to Argentina and now I've found some people there with our name. Can testing tell us whether we're from the same family? My mother was adopted and doesn't know her ethnicity. Are there any tests available to help her learn about her heritage? I just discovered someone else with my highly unusual surname. How can we find out if we have a common ancestor? These are just a few of the types of genealogical scenarios readers can pursue. The authors reveal exactly what is possible-and what is not possible-with genetic testing. They include

case studies of both famous historical mysteries and examples of ordinary folks whose exploration of genetic genealogy has enabled them to trace their roots.

TV Guide Simon and Schuster
A witty philosophical murder mystery with a charming twist: the crack detectives are sheep determined to discover who killed their beloved shepherd. On a hillside near the cozy Irish village of Glennkill, a flock of sheep gathers around their shepherd, George, whose body lies pinned to the ground with a spade. George has cared devotedly for the flock, even reading them books every

night. Led by Miss Maple, the smartest sheep in Glennkill (and possibly the world), they set out to find George's killer. The A-team of investigators includes Othello, the "bad-boy" black ram; Mopple the Whale, a Merino who eats a lot and remembers everything; and Zora, a pensive black-faced ewe with a weakness for abysses. Joined by other members of the richly talented flock, they engage in nightlong discussions about the crime, wild metaphysical speculations, and embark on reconnaissance missions into the village, where they encounter some likely

suspects. Along the way, the sheep confront their own all-too-human struggles with guilt, misdeeds, and unrequited love. Funny, fresh, and endearing, it introduces a wonderful new breed of detectives to Canadian readers.

Find You First Penguin

Finally, the information you've been waiting for: who really killed JonBenet? Perhaps the most compelling murder case of our day, the death of six-year-old JonBenet Ramsey galvanized the nation-and years after it occurred, the mystery still endures. Who killed the young beauty queen and why? Who is covering up for whom and who is simply lying?

In JonBenet, the most authoritative and comprehensive study of the Ramsey murder, a former lead Boulder Police detective, Steve Thomas, explores the case in vivid and fascinating detail-pointing the way toward an analysis of the evidence some deem too shocking to consider. Here, Thomas raises these and many other provocative questions: -How was the investigation botched from the beginning-and why did police so carelessly allow the crime scene to be tampered with? -Why were John and Patsy Ramsey protected from early questioning and any lie-detector tests, even though their stories and behavior were erratic, suspicious and inconsistent? -Why was crucial evidence ignored, why

were certain key witnesses unquestioned by detectives, and why were the Ramseys privy to sensitive information about the case and even police reports? Forensics Simon and Schuster The taphonomic approach within paleontology, archaeology, and paleoanthropology continues to produce advances in understanding postmortem biochemical and morphological transformations. Conversely, advances in understanding the early and intermediate postmortem period generated in the forensic realm can and should be brought to the attention of

Pre-Incident Indicators of Terrorist Incidents Penguin Instant New York Times Bestseller Best of 2017 - included on best-of lists by the New York Times, NPR, Barnes & Noble, Publisher's Weekly, LitHub, BookPage, Booklist, TheRealBookSpy.com, the Financial Times (UK) and the Daily Mail (UK) "The Force is mesmerizing, a triumph. Think The Godfather, only with cops. It's that good." — Stephen King The acclaimed, award-winning, bestselling author of *The Cartel*—voted one of the Best Books of the Year by more than sixty publications, including the New York Times—returns with a

cinematic epic as explosive, powerful, and unforgettable as *Mystic River* and *The Wire*. Our ends know our beginnings, but the reverse isn't true . . . All Denny Malone wants is to be a good cop. He is "the King of Manhattan North," a highly decorated NYPD detective sergeant and the real leader of "Da Force." Malone and his crew are the smartest, the toughest, the quickest, the bravest, and the baddest, an elite special unit given unrestricted authority to wage war on gangs, drugs and guns. Every day and every night for the eighteen years he's spent on the Job, Malone has served on the front lines, witnessing the hurt, the dead, the victims, the perps. He's done whatever it takes to

serve and protect in a city built by ambition and corruption, where no one is clean—including Malone himself. What only a few know is that Denny Malone is dirty: he and his partners have stolen millions of dollars in drugs and cash in the wake of the biggest heroin bust in the city's history. Now Malone is caught in a trap and being squeezed by the Feds, and he must walk the thin line between betraying his brothers and partners, the Job, his family, and the woman he loves, trying to survive, body and soul, while the city teeters on the brink of a racial conflagration that could destroy them all. Based on years of research inside the NYPD, this is the great cop novel of our time

and a book only Don Winslow could write: a haunting and heartbreaking story of greed and violence, inequality and race, crime and injustice, retribution and redemption that reveals the seemingly insurmountable tensions between the police and the diverse citizens they serve. A searing portrait of a city and a courageous, heroic, and deeply flawed man who stands at the edge of its abyss, *The Force* is a masterpiece of urban living full of shocking and surprising twists, leavened by flashes of dark humor, a morally complex and utterly riveting dissection of modern American society and the controversial issues confronting and dividing us today.

Making Sense of DNA Backlogs, 2010 DIANE Publishing

Federal funding made available by the National Institute of Justice (NIJ) through the DNA Initiative helped state and local governments significantly increase the capacity of their DNA laboratories between 2005 and 2008. At the same time, the demand for DNA

testing continues to outstrip the capacity of crime laboratories to process these cases. This report addresses the issue that crime laboratories are processing more cases than ever before, but their expanded capacity has not been able to meet the increased demand. The report examines what a backlog is and how backlogs can be reduced. Charts and tables.
