TRIKE SWING ARM
David wanted to use
his 1974 CB750
Honda and didn't
want to break the
bank. So we came up
with this swing arm
to fit a DNA rear
end to his stock
frame. We fabbed up
this swing arm and
rear master mount.
The master bracket
for Davids
application will be
welded on because
he has already cut
the rear peg
brackets off.
