"DSEK: What You Need to Know About

Endothelial Keratoplasty provides a comprehensive background of EK, where it is today, and where it is headed in the future. Francis W. Price, MD. who was the first to complete DSEK in the United States, along with Marianne Price, PhD, have designed this text to offer a special emphasis on how to perform surgeries along with preventing and managing complications. In addition, a diverse group of contributing authors provides a wide array of insights and tips for better patient outcomes."--BOOK JACKET. Karger Medical and Scientific Publishers  
Highly Commended in Internal medicine in the 2017 BMA Medical Book Awards Highly illustrated, comprehensive, and accessible, Ophthalmology Lecture Notes is the ideal reference and revision guide to common eye problems and their diagnosis and management. Beginning with overviews of anatomy, history taking, and examination, it then covers a range of core ophthalmic conditions,

Written by an international team of ophthalmic practitioners, this authoritative book is a vital resource not only for ophthalmic professionals, but for any healthcare professional who cares for patients with eye problems. In the ten years since the first edition was published, practice has moved on, as has the evidence for practice. This second edition draws on the passion and goodwill of the original team of authors, complemented by other colleagues, to fully revise and update the text in line with new findings, new practice and new and exciting treatments. The book is broadly divided into three sections. The first section considers the structure and function of the eye, as well as the basic principles of ophthalmology and eye examination. The second section considers patient care in diverse settings, as well as work-related issues and patient education. It also includes two entirely new chapters on eye banking and global eye health. The third section takes a systematic

approach to patient care, working from the front to the back of the eye, discussing some of the common disorders affecting each structure (such as the lens or cornea) or group of structures (such as the eyelids or lacrimal drainage system). The book concludes with a very useful glossary of ophthalmic terms. Some aspects of practice discussed in the text are, of necessity, UK based, but these are clearly indicated and, wherever possible, principles (rather than specifics) are addressed and readers are directed to local policies and interpretations. The first edition of this book became a core text for ophthalmic nursing, in particular, and for the education of ophthalmic nurses across the world. This new edition will provide a comprehensive, up-to-date, evidence-based resource for all ophthalmic healthcare professionals. Contents include:

- Physiology of vision
- Optics
- Pharmacology
- Examination of the eye
- Visual impairment
- Patient education
- Work and the eye
- Care of the adult ophthalmic patient in an inpatient setting
- The care of the child undergoing ophthalmic treatment
- Developments in day care surgery for ophthalmic patients
- Ophthalmic theatre nursing
- The care of patients presenting with acute problems
- Eye banking
- Global eye health
- The eyelids and lacrimal drainage system
- The conjunctiva
- The cornea
- The sclera
- The lens
- The uveal tract
- The angle and aqueous

Incorporating and balancing advancing subspecialization is a significant challenge of modern surgery. The changes of surgical education and early subspecialization is a smaller spectrum of experience of graduating surgeons joining the rural workforce. Surgeons working in rural and remote hospitals, however, must be proficient in the great breadth of current surgical practice and face a number of challenges and demands that are specific to rural surgery. This textbook provides an update on the evidence and surgical techniques for the experienced rural surgeon and most importantly is a guideline for younger surgeons and surgical trainees joining the general surgical workforce in rural and remote areas around the world.
