covers where we were fifty
years ago in the world of
branding, advertising and
design, and where we are now.

Amazon.com: Customer reviews:

Do Good Design: How Design ...

Do Good Design was an
incredible book, very
explanatory of our world's
current issues, and mind-
opening. David Berman did a
great job challenging his
readers to not only advertise
well but to do good for
humanity (in so many ways).
Berman meticulously describes
our society and how designers
shape it with catchy
advertisements.

Good designers will rely on
their technical skills and
base their design on
principles (a machine could
learn that by the way), but
great designers bring more to
the equation. I think that
this is what creativity
really is.
